Day 1: Scales, accidentals and note values

G1–3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Notebook or the check-up in Faye's corner.

2 · TEACH (8 MIN)

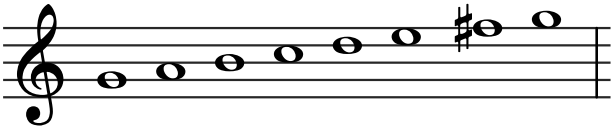

Say: *"A scale is a staircase. Most steps are big steps, called tones, but two are tiny steps, called semitones. In a major scale the tiny steps are between notes 3 and 4, and between 7 and 8."*

- Major scale pattern: tone, tone, semitone, tone, tone, tone, semitone
- Harmonic minor raises the 7th. Melodic minor raises the 6th and 7th going up and returns to the natural minor coming down
- Order of sharps F C G D A E B, and flats B E A D G C F
- 𝄫 ♭ ♮ ♯ 𝄪, and tones and semitones on the keyboard
- Note values from semibreve to demisemiquaver, and what a dot adds

Worked example

Write G major going up.

1. Start on G and use every letter once: G A B C D E F G.
2. Check the pattern T T S T T T S. E to F is only a semitone, but we need a tone there.
3. So F becomes F♯. Answer: G A B C D E F♯ G.

Watch out for

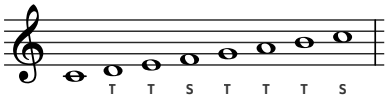

- Skipping or repeating a letter: writing G♭ where F♯ is needed.
- Putting the accidental after the note. On the stave it goes before the note, on the same line or space.

In the exam: She may be asked to name a scale, find the wrong note, or add the missing accidentals.

Show her these cards

1

A major scale is 8 notes going up step by step. The pattern is tone, tone, semitone, tone, tone, tone, semitone.

2

A sharp ♯ lifts a note up one semitone. A flat ♭ drops it one semitone. A natural ♮ cancels them.

3

Note values: semibreve 4 beats, minim 2, crotchet 1, quaver ½, semiquaver ¼.

3 · DO TOGETHER (7 MIN)

- Built the scale-degree patterns in her notebook
- Drew the keyboard and marked tones and semitones

Four questions to work through together

1. How many quavers make one crotchet?

A. 3 B. 2 C. 4 D. 1

Answer: 2. A crotchet lasts 1 crotchet beat. A quaver lasts ½. 1 ÷ ½ = 2.

2. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 5 B. 3 C. 4 D. 2

Answer: 2. Three quavers in a triplet take the time of two.

3. How many demisemiquavers make one dotted quaver?

A. 7 B. 6 C. 12 D. 5

Answer: 6. A dotted quaver lasts ¾ crotchet beats. A demisemiquaver lasts ⅛. ¾ ÷ ⅛ = 6.

4. Which note lasts as long as a crotchet and a quaver?

A.  B.  C.  D. 

Answer: dotted crotchet. A crotchet and a quaver last 1.5 beats, the same as a dotted crotchet.

4 · ON HER OWN (10 MIN)

- Worked out dotted semibreve, minim, crotchet and quaver values in beats

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

The 'Father Charles' order of sharps

MOVE ON WHEN

Covered on 25 Sep. The warm-ups over the next week recheck the dot sums and the minor scale forms.

Faye's worksheet · Day 1

Name _____ Date _____ Score ____ / 8

1. How many quavers make one minim?

A. 6 B. 2 C. 4 D. 5

2. Which time signature has four minim beats in each bar?

A. 9/8 B. 2/2 C. 4/4 D. 4/2

3. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 4 B. 3 C. 5 D. 2

4. How many semiquavers make one dotted crotchet?

A. 7 B. 12 C. 6 D. 5

5. Which time signature has three minim beats in each bar?

A. 3/8 B. 9/8 C. 3/2 D. 2/2

6. How many beats in a bar, and what is the beat?

A. 12 quavers B. 12 semiquavers C. 4 dotted semiquavers D. 4 dotted crotchets

7. A crotchet tied to a crotchet. How many crotchet beats is that?

Ties

A. 3 B. 2½ C. 2 D. 4

8. Which note lasts as long as two quavers?

A.  B.  C.  D. 

ANSWERS (FOR MUM)

1. **C: 4**. A minim lasts 2 crotchet beats. A quaver lasts ½. 2 ÷ ½ = 4.
2. **D: 4/2**. Simple time: the top number is the number of beats (4) and the bottom number names the beat (2).
3. **D: 2**. Three quavers in a triplet take the time of two.
4. **C: 6**. A dotted crotchet lasts 1½ crotchet beats. A semiquaver lasts ¼. 1½ ÷ ¼ = 6.
5. **C: 3/2**. Simple time: the top number is the number of beats (3) and the bottom number names the beat (2).
6. **D: 4 dotted crotchets**. 12/8 is compound: 12 quavers grouped in threes make 4 dotted crotchets.
7. **C: 2**. A tie joins the two notes into one sound: 1 + 1 = 2 beats.
8. **D: crotchet**. Two quavers last 1 beat, the same as a crotchet.

Day 2: Diagnostic: what does she still know?

G1–2 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Notebook or the check-up in Faye's corner.

2 · TEACH (8 MIN)

Say: *“This isn't a test you can fail. It's a map that shows us where you are, so we can skip the bits you already know.”*

- No new teaching. The aim is to find out which Grade 1–3 topics she can skip.
- The check-up in Faye's corner covers notes, rhythm, time signatures, keys, scales, intervals, triads and terms, and fills in the Mastery tracker for you.

Worked example

She isn't sure whether a note is D or F in bass clef. What should she do?

1. Look at the clef: bass clef.
2. Find a landmark: the F line between the clef's two dots.
3. Count up or down from it, then choose. If still unsure, make her best guess and move on.

Watch out for

- Rushing through to finish: accuracy matters more than speed today.
- Helping her. The check-up is only useful if it shows what she can do alone.

In the exam: The real exam has no hints either, so this is good practice at working independently.

Show her these cards

1

Today is a check-up. It shows Mum what you already know, so you don't have to practise things twice.

2

There are no hints and no second tries today. That's fine: just do your best and guess if you're not sure.

3

Take your time. Look at the clef first, every time.

3 · DO TOGETHER (7 MIN)

- Ask her to write C, G, D and F major on the stave with key signatures, in treble and bass clef.
- Ask her to spell the tonic triad of each.

Four questions to work through together

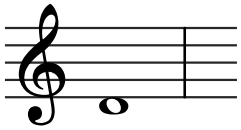

1. What is note 3? (Treble clef)

A. A♯ B. A♭ C. A

Answer: A♭. The flat on note 1 lasts for the rest of the bar, so note 3 is A♭ too.

2. Name this note. (Treble clef)

Write your answer: _____

Answer: D. D. Landmark: middle C, on its own little line below the stave. This note is 1 step above it: C, D.

3. Name this note. (Bass clef)

Write your answer: _____

Answer: F. F. It's the landmark F: the line between the bass clef's two dots.

4. These notes spell a word. What is it? (Treble clef)

A. BED B. BAG C. ADD D. DAD

Answer: DAD. The notes are D, A, D, which spells DAD.

4 · ON HER OWN (10 MIN)

- The four 'together' questions in today's lesson pack, without help.
- Name 10 notes from the lesson pack worksheet, including ledger lines.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Note detective: you label five notes and get two wrong on purpose. She catches them.

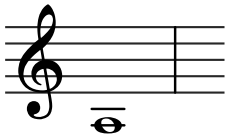

MOVE ON WHEN

Set the Mastery tracker for every strand you tested. Anything already green gets only warm-ups from now on.

Faye's worksheet · Day 2

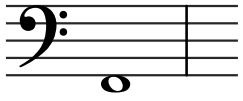

Name _____ Date _____ Score ____ / 8

1. Name this note. (Treble clef)

Write your answer: _____

2. Name this note. (Bass clef)

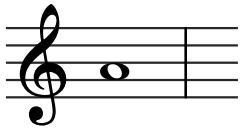

Write your answer: _____

3. Name this note. (Bass clef)

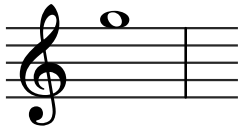

Write your answer: _____

4. Name this note. (Treble clef)

Write your answer: _____

5. Name this note. (Treble clef)

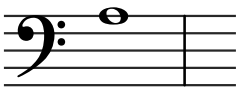

Write your answer: _____

6. Name this note. (Bass clef)

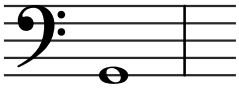

Write your answer: _____

7. Is this note above, below or at middle C? (Bass clef)

A. Above middle C B. Below middle C C. It is middle C

8. Name this note. (Bass clef)

Write your answer: _____

ANSWERS (FOR MUM)

1. **A**. A. Landmark: middle C, on its own little line below the stave. This note is 2 steps below it: C, B, A.
2. **F**. F. Landmark: G, the bottom line. This note is 1 step below it: G, F.
3. **G**. G. Landmark: F, the line between the bass clef's two dots. This note is 1 step above it: F, G.
4. **A**. A. Landmark: G, the line the treble clef curls round. This note is 1 step above it: G, A.
5. **G**. G. Landmark: F, the top line. This note is 1 step above it: F, G.
6. **B**. B. Landmark: C, the second space. This note is 1 step below it: C, B.
7. **B: Below middle C**. In the bass clef, middle C is on the first ledger line above the stave. This note is A, 2 steps below it.
8. **G**. G. It's the landmark G: the bottom line.

Day 3: Simple time: 2/4, 3/4, 4/4, 2/2, 3/2, 4/2 and 3/8

G2 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Clap and count 1, 2, 3. The top number tells us how many claps are in a bar. The bottom number tells us which note gets one clap."*

- In simple time, each beat splits into two. The top number counts the beats; the bottom number names the beat: 2 = minim, 4 = crotchet, 8 = quaver.
- 3/4 and 3/8 both have three beats in a bar, but the beat is a different note.
- Bar lines divide the music into equal amounts of time.

Worked example

Which time signature fits a bar of three minims?

1. Each minim is one minim beat.
2. There are 3 of them, so 3 beats.
3. A minim beat has a 2 on the bottom. Answer: 3/2.

Watch out for

- Thinking the bottom number is how many beats.
- Mixing up 3/4 and 3/8: both have three beats, but the beat is a different note.

In the exam: Add the missing time signature to a few bars, or add bar lines to a rhythm.

Show her these cards

1

The top number of a time signature says how many beats are in each bar.

2

The bottom number says what kind of beat: 4 means crotchets, 2 means minims, 8 means quavers.

3

3/8 has three quaver beats in each bar.

4

Halve every note and the bottom number doubles: 3/4 becomes 3/8. Double every note and it halves: 3/4 becomes 3/2. The top number stays the same.

3 · DO TOGETHER (7 MIN)

- Clap a bar of 3/2, then a bar of 3/4. Same count, longer beats.
- Give her incomplete bars and ask what is missing.
- Find the time signature for four short rhythms.

Four questions to work through together

1. Which time signature has two crotchet beats in each bar?

A. 4/4 B. 3/8 C. 2/4 D. 4/2

Answer: 2/4. Simple time: the top number is the number of beats (2) and the bottom number names the beat (4).

2. The first bar line is missing. Where does it go?

A. After note 2 B. After note 3 C. After note 1

Answer: After note 2. A bar of 2/4 holds 2 crotchet beats. Notes 1 to 2 fill it exactly, so the bar line goes after note 2.

3. How many beats in a bar, and what is the beat?

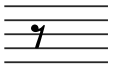

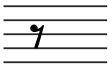

A. 4 minims B. 4 dotted quavers C. 4 crotchets D. 4 quavers

Answer: 4 crotchets. 4/4 is simple: the 4 means a crotchet beat, and there are 4 of them.

4. Which rest finishes this bar?

A.  B.  C.  D. 

Answer: quaver rest. A bar of 4/4 holds 4 crotchet beats. The notes leave a gap of one quaver, so a quaver rest finishes it.

4 · ON HER OWN (10 MIN)

- Add bar lines to four rhythms, one each in 2/2, 3/2, 4/2 and 3/8.
- Add the missing time signature to three bars.

- Complete two bars with one rest each.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Rhythm police: you write three bars and one has the wrong total. She catches it.

MOVE ON WHEN

5 out of 6 bars correct, and she can explain each total.

Faye's worksheet · Day 3

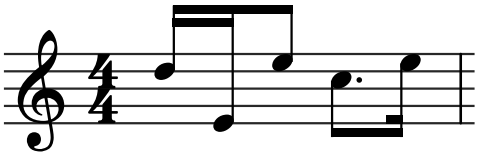

Name _____ Date _____ Score ____ / 8

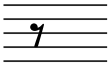

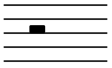

1. How many beats in a bar, and what is the beat?

A. 2 minims B. 2 dotted quavers C. 2 crotchets D. 2 quavers

2. Which rest finishes this bar?

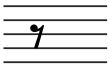

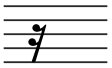

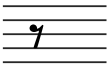

A.  B.  C.  D. 

3. Which time signature has three minim beats in each bar?

A. 2/2 B. 3/2 C. 4/4 D. 2/4

4. Which rest finishes this bar?

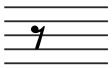

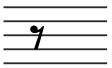

A.  B.  C.  D. 

5. Which time signature has three quaver beats in each bar?

A. 2/4 B. 3/4 C. 3/8 D. 3/2

6. Which rest finishes this bar?

A.  B.  C.  D. 

7. Which time signature has two crotchet beats in each bar?

A. 2/4 B. 3/2 C. 2/2 D. 4/4

8. Which time signature fits this bar?

A. 2/4 B. 3/2 C. 2/2 D. 3/8

ANSWERS (FOR MUM)

1. **C: 2 crotchets**. 2/4 is simple: the 4 means a crotchet beat, and there are 2 of them.
2. **C: minim rest**. A bar of 4/4 holds 4 crotchet beats. The notes leave a gap of one minim, so a minim rest finishes it.
3. **B: 3/2**. Simple time: the top number is the number of beats (3) and the bottom number names the beat (2).
4. **D: quaver rest**. A bar of 3/8 holds 3 quavers. The notes leave a gap of one quaver, so a quaver rest finishes it.
5. **C: 3/8**. Simple time: the top number is the number of beats (3) and the bottom number names the beat (8).
6. **A: quaver rest**. A bar of 4/4 holds 4 crotchet beats. The notes leave a gap of one quaver, so a quaver rest finishes it.
7. **A: 2/4**. Simple time: the top number is the number of beats (2) and the bottom number names the beat (4).
8. **C: 2/2**. The notes add up to 2 minim beats, so 2/2 fits.

Day 4: Grouping notes and rests; triplets

G2 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Beams are like fences around each beat. If I can see where every beat starts, I can count the music without getting lost."*

- Beams and rests show where the beats are. In 4/4 the middle of the bar stays visible.
- A minim rest never starts on beat 2 of 4/4: write two crotchet rests.
- A triplet fits three equal notes into the time of two.

Worked example

In 3/4 you have six quavers. How should they be beamed?

1. 3/4 has three crotchet beats.
2. Each beat holds two quavers.
3. Beam them in three pairs, one pair per beat.

Watch out for

- Beaming six quavers in 3/4 as two groups of three. That looks like 6/8.
- Writing a minim rest on beat 2 of 4/4.

In the exam: Choose the correctly grouped bar, or spot a rest in the wrong place.

Show her these cards

1

Beams join quavers so you can see where each beat starts.

2

In 4/4, keep the middle of the bar clear: beats 1–2 can join, and beats 3–4 can join.

3

Rests follow the beats too. In 4/4, a silence on beats 2 and 3 is two crotchet rests, not a minim rest.

4

A triplet squeezes 3 notes into the time of 2.

3 · DO TOGETHER (7 MIN)

- Fix two badly grouped bars together.
- Clap 'one-and', then 'trip-o-let', over the same pulse.
- Find the triplet on Faye's picture card 4, then clap it.

Four questions to work through together

1. Which bar is grouped correctly for 3/4?

A. 

B. 

Answer: grouped correctly. 3/4 has three crotchet beats, so the quavers go in pairs, one pair per beat. Groups of three make it look like 6/8.

2. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 3 B. 5 C. 6 D. 2

Answer: 2. Three quavers in a triplet take the time of two.

3. Which bar is grouped correctly for 4/4?

A. 

B. 

Answer: grouped correctly. In 4/4, don't beam across the middle of the bar (between beats 2 and 3). Keep beats 1–2 and 3–4 visible.

4. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 2 B. 4 C. 5 D. 6

Answer: 2. Three quavers in a triplet take the time of two.

4 · ON HER OWN (10 MIN)

- Regroup three messy bars.
- Add rests to complete three bars, in the right order.
- Write a triplet group correctly, with its 3.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Same time, different split: alternate 'one-and' and 'trip-o-let' while you keep the pulse.

MOVE ON WHEN

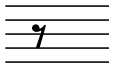

Groups rests beat by beat without prompting, and can say why.

Faye's worksheet · Day 4

Name _____ Date _____ Score ____ / 8

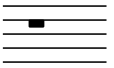

1. Which rest finishes this bar?

A. 

B. 

C. 

D. 

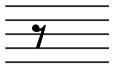

2. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

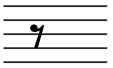

Triplet

A. 2 B. 4 C. 6 D. 5

3. Which rest finishes this bar?

A. 

B. 

C. 

D. 

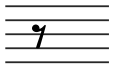

4. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

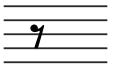

A. 4 B. 5 C. 2 D. 3

5. Which rest finishes this bar?

A. 

B. 

C. 

D. 

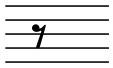

6. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

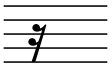

A. 3 B. 6 C. 5 D. 2

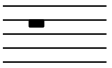

7. Which rest finishes this bar?

A. 

B. 

C. 

D. 

8. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 3

B. 2

C. 5

D. 4

ANSWERS (FOR MUM)

1. **C: crotchet rest**. A bar of 2/4 holds 2 crotchet beats. The notes leave a gap of one crotchet, so a crotchet rest finishes it.
2. **A: 2**. Three quavers in a triplet take the time of two.
3. **D: crotchet rest**. A bar of 2/4 holds 2 crotchet beats. The notes leave a gap of one crotchet, so a crotchet rest finishes it.
4. **C: 2**. Three quavers in a triplet take the time of two.
5. **D: minim rest**. A bar of 3/2 holds 3 minim beats. The notes leave a gap of one minim, so a minim rest finishes it.
6. **D: 2**. Three quavers in a triplet take the time of two.
7. **A: quaver rest**. A bar of 3/4 holds 3 crotchet beats. The notes leave a gap of one quaver, so a quaver rest finishes it.
8. **B: 2**. Three quavers in a triplet take the time of two.

Day 5: Review: rhythm, time signatures and note reading

G1–2 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 3–4, using that day's plan.
- New in Faye's corner: Mark my answer. A friend has answered; she decides if it's right and corrects it. Checking is an exam skill.
- There's also a printable Reference book (Papers list): clefs, note values, key signatures, scales, intervals, chords, ornaments, instruments and terms, all in one place to look things up.

Show her these cards

1

The top number of a time signature says how many beats are in each bar.

2

Beams join quavers so you can see where each beat starts.

3 · DO TOGETHER (7 MIN)

- Clap and count two rhythms from the lesson pack, saying the beats aloud.
- Name ten notes in each clef from the lesson pack worksheet.

Four questions to work through together

1. Which note lasts as long as a crotchet and a quaver?

A. 

B. 

C. 

D. 

Answer: dotted crotchet. A crotchet and a quaver last 1.5 beats, the same as a dotted crotchet.

2. How many crotchets make one dotted minim?

A. 2 B. 3 C. 6 D. 1

Answer: 3. A dotted minim lasts 3 crotchet beats. A crotchet lasts 1. 3 ÷ 1 = 3.

3. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 3 B. 6 C. 4 D. 2

Answer: 2. Three quavers in a triplet take the time of two.

4. Which note lasts as long as two crotchets?

A.  B.  C.  D. 

Answer: minim. Two crotchets last 2 beats, the same as a minim.

4 · ON HER OWN (10 MIN)

- Today's practice in Faye's corner.
- One Note ladder round in bass clef.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Rhythm police: you write three bars and one has the wrong number of beats. She catches it.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 5

Name _____ Date _____ Score ____ / 8

1. Which note lasts as long as three crotchets?

A.  B.  C.  D. 

2. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 4 B. 2 C. 5 D. 6

3. How many beats in a bar, and what is the beat?

A. 3 quavers B. 3 crotchets C. 3 minims D. 3 dotted quavers

4. How many beats in a bar, and what is the beat?

A. 3 dotted semiquavers B. 3 crotchets C. 3 semiquavers D. 3 quavers

5. Which time signature has four crotchet beats in each bar?

A. 2/4 B. 4/4 C. 3/4 D. 3/8

6. Which note lasts as long as two quavers?

A.  B.  C.  D. 

7. How many beats in a bar, and what is the beat?

A. 2 dotted quavers B. 2 quavers C. 2 crotchets D. 2 minims

8. A crotchet tied to a crotchet. How many crotchet beats is that?

Ties

A. 2 B. 1 C. 4 D. 3

ANSWERS (FOR MUM)

1. **D: dotted minim**. Three crotchets last 3 beats, the same as a dotted minim.
2. **B: 2**. Three quavers in a triplet take the time of two.
3. **B: 3 crotchets**. 3/4 is simple: the 4 means a crotchet beat, and there are 3 of them.
4. **D: 3 quavers**. 3/8 is simple: the 8 means a quaver beat, and there are 3 of them.
5. **B: 4/4**. Simple time: the top number is the number of beats (4) and the bottom number names the beat (4).
6. **A: crotchet**. Two quavers last 1 beat, the same as a crotchet.
7. **C: 2 crotchets**. 2/4 is simple: the 4 means a crotchet beat, and there are 2 of them.
8. **A: 2**. A tie joins the two notes into one sound: 1 + 1 = 2 beats.

Day 6: Key signatures on the stave, up to four sharps or flats

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Sharps and flats always march onto the stave in the same order, like children lining up. If I know the order, I can work out the key."*

- Her mnemonic gives the order: sharps F C G D A E B, flats B E A D G C F.
- With sharps, the last sharp is the 7th, so the major key is a semitone above it. With flats, the second-to-last flat names the key. One flat is the exception to learn by heart: it is F major.
- Each sharp and flat has a fixed place on the stave. Copy the pattern exactly in both clefs.

Worked example

Which major key has four sharps?

1. The sharps are F♯, C♯, G♯, D♯.
2. The last sharp is D♯.
3. One semitone up from D♯ is E. Answer: E major.

Watch out for

- Writing a sharp in the wrong octave. In treble clef, F♯ goes on the top line, not the bottom space.
- Forgetting that one flat is F major (there is no second-to-last flat).

In the exam: Choose the right key signature for a key, or name the key from a key signature, in treble or bass clef.

Show her these cards

1

Sharps always come in the same order: F C G D A E B.

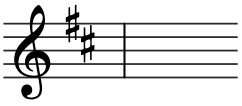

2

Flats come in the opposite order: B E A D G C F.

3

Sharp keys: find the last sharp and go up one semitone, to the very next key. Two sharps, last one C♯, so D major.

4

Flat keys: the second-to-last flat is the key. Three flats: B♭ E♭ A♭, so E♭ major. One flat is F major: remember that one.

3 · DO TOGETHER (7 MIN)

- Write the sharps of E major in treble and bass clef.
- Write the flats of A♭ major in both clefs.
- Name keys from written key signatures.

Four questions to work through together

1. Which major key has 2 sharps?

A. E♭ major B. B♭ major C. D major D. E major

Answer: D major. 2 sharps: F♯ C♯. The last sharp is C♯; one step up is D major.

2. Which pair of keys has 4 flats?

A. F major and A♭ minor B. A♭ major and F minor C. A♭ major and E minor D. A♭ major and A♭ minor

Answer: A♭ major and F minor. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): A♭ major → F minor.

3. How many sharps are in the key signature of B minor?

Write your answer: _____

Answer: 2. B minor has 2 sharps: F♯, C♯.

4. Which major key has this key signature? (Treble clef)

A. A major B. E major C. E♭ major D. G major

Answer: E♭ major. The second-to-last flat is E♭, so E♭ major.

4 · ON HER OWN (10 MIN)

- Write the key signatures of A, E, B♭ and A♭ major in both clefs.
- Name six key signatures you show her.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Key-signature snap: you say 'three flats', she says 'E♭ major' and draws it.

MOVE ON WHEN

Every key signature up to four sharps or flats, in the right places, in both clefs.

Faye's worksheet · Day 6

Name _____ Date _____ Score ____ / 8

1. In a key signature, which is the 2nd flat?

A. E♭ B. A♭ C. D♭ D. F♭

2. How many flats are in the key signature of E♭ major?

Write your answer: _____

3. Which minor key has this key signature? (Bass clef)

A. B minor B. C minor C. C♯ minor D. A minor

4. In a key signature, which is the 2nd sharp?

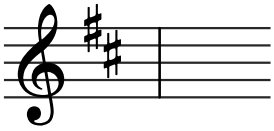

A. D♯ B. E♯ C. C♯ D. G♯

5. Which minor key has this key signature? (Treble clef)

A. C minor B. E minor C. A minor D. D minor

6. Which major key has this key signature? (Treble clef)

A. D major B. A major C. G major D. E major

7. Which major key has this key signature? (Treble clef)

A. A major B. B♭ major C. A♭ major D. F major

8. Which major key has this key signature? (Bass clef)

A. A♭ major B. G major C. F major D. E major

ANSWERS (FOR MUM)

1. **A: E**♭. Flats always go in the same order: B♭ E♭ A♭ D♭ G♭ C♭ F♭. The 2nd is E♭.
2. **3**. E♭ major has 3 flats: B♭, E♭, A♭.
3. **C: C♯ minor**. The last sharp is D♯. One step up from it is E, so E major. Its relative minor, on degree 6, is C♯ minor.
4. **C: C**♯. Sharps always go in the same order: F♯ C♯ G♯ D♯ A♯ E♯ B♯. The 2nd is C♯.
5. **B: E minor**. The last sharp is F♯. One step up from it is G, so G major. Its relative minor, on degree 6, is E minor.
6. **A: D major**. The last sharp is C♯. One step up from it is D, so D major.
7. **D: F major**. One flat (B♭) means F major.
8. **B: G major**. The last sharp is F♯. One step up from it is G, so G major.

Day 7: Relative minors; writing minor scales

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

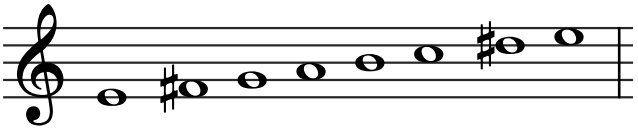

Say: *"Minor keys often sound sadder. Each minor key borrows its key signature from a major key: its twin."*

- The relative minor starts on degree 6 of the major and shares its key signature.
- Harmonic minor raises the 7th with an accidental, both up and down.
- Melodic minor raises the 6th and 7th going up and cancels them coming down.

Worked example

Write E harmonic minor going up.

1. E minor is the relative minor of G major, so it has one sharp: F♯.
2. Harmonic minor raises the 7th. The 7th of E minor is D, so it becomes D♯.
3. Answer: E F♯ G A B C D♯ E.

Watch out for

- Putting the raised 7th in the key signature. It's always written as an accidental.
- Forgetting to cancel the raised 6th and 7th when melodic minor comes down.

In the exam: Name a scale, add missing accidentals, or say which minor key shares a key signature.

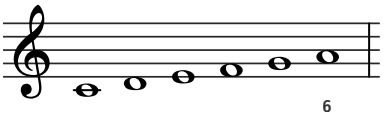

Show her these cards

1

Every major key has a minor twin that shares its key signature. It's called the relative minor.

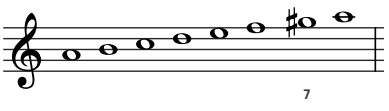

2

The relative minor starts on note 6 of the major scale. C major's note 6 is A, so A minor.

3

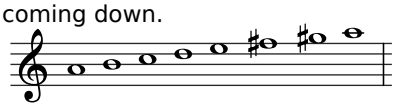

Harmonic minor raises note 7, going up and coming down.

4

Melodic minor raises notes 6 and 7 going up, then puts them back

coming down.

3 · DO TOGETHER (7 MIN)

- Find the relative minor of each major key up to four sharps or flats.
- Write A harmonic minor, then E melodic minor, up and down.
- Write one minor scale without a key signature, using accidentals only.

Four questions to work through together

1. Which is the key signature of A minor?

A. 

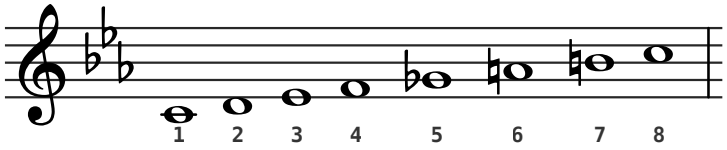

B. 

C. 

D. 

Answer: 0. A minor has no sharps or flats. It shares its key signature with its relative major, C major.

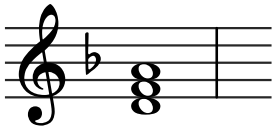

2. One note in this C melodic minor scale is wrong. Which number is it? (Going up)

Write your answer: _____

Answer: 5. Note 5 should be G, not G♭. Melodic minor raises the 6th and 7th going up.

3. This is a tonic triad. Which key is it in?

A. D minor B. B minor C. C minor D. C♯ minor

Answer: D minor. The bottom note is the tonic, D. With this key signature, that makes it the tonic triad of D minor.

4. Which minor key has this key signature? (Bass clef)

A. G minor B. E minor C. D minor D. C minor

Answer: G minor. The second-to-last flat is B♭, so B♭ major. Its relative minor, on degree 6, is G minor.

4 · ON HER OWN (10 MIN)

- Write B harmonic minor and F melodic minor with key signatures.
- Write C♯ harmonic minor without a key signature.
- Circle the raised notes.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Minor makeover: you say a natural minor; she turns it into harmonic or melodic on command.

MOVE ON WHEN

Builds both forms from the key signature and the rule, not from memory.

Faye's worksheet · Day 7

Name _____ Date _____ Score ___ / 8

1. Which minor key has this key signature? (Bass clef)

A. F minor B. C minor C. C♯ minor D. F♯ minor

2. One note in this C♯ harmonic minor scale is wrong. Which number is it?

Write your answer: _____

3. What is the relative major?

F minor

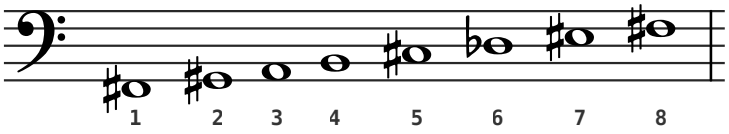

A. F major B. B♭ major C. A♭ major D. E major

4. Which minor key has this key signature? (Treble clef)

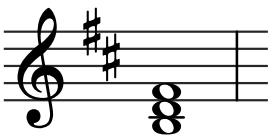

A. F♯ minor B. B minor C. C minor D. F minor

5. One note in this F♯ harmonic minor scale is wrong. Which number is it?

Write your answer: _____

6. This is a tonic triad. Which key is it in?

A. B minor B. D minor C. A minor D. B major

7. Which minor key has this key signature? (Treble clef)

A. A minor B. D minor C. F minor D. C minor

8. One note in this B melodic minor scale is wrong. Which number is it? (Going up)

Write your answer: _____

ANSWERS (FOR MUM)

1. **B: C minor**. The second-to-last flat is E♭, so E♭ major. Its relative minor, on degree 6, is C minor.
2. **7**. Note 7 should be B♯, not B. Harmonic minor raises the 7th.
3. **C: A♭ major**. The relative major starts on note 3 of the minor scale: A♭ major.
4. **C: C minor**. The second-to-last flat is E♭, so E♭ major. Its relative minor, on degree 6, is C minor.
5. **6**. Note 6 should be D, not D♭. Harmonic minor raises the 7th.
6. **A: B minor**. The bottom note is the tonic, B. With this key signature, that makes it the tonic triad of B minor.
7. **B: D minor**. One flat (B♭) means F major. Its relative minor, on degree 6, is D minor.
8. **2**. Note 2 should be C♯, not C. Melodic minor raises the 6th and 7th going up.

Day 8: Degrees, tonic triads and intervals above the tonic

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

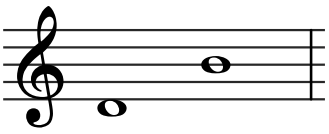

Say: *"An interval is the distance between two notes. First we count letters to get the number. Then we decide if it's major or perfect."*

- Degree numbers 1 to 8, and the tonic triad 1-3-5.
- Interval number: count the letter names, including both ends.
- Above the tonic of a major key, the 2nd, 3rd, 6th and 7th are major, and the 4th, 5th and octave are perfect. In a minor key the 3rd and 6th are minor, and the 7th is major in the harmonic form.

Worked example

In D major, name the interval from D up to B.

1. Count the letters: D E F G A B. That's 6, so a 6th.
2. B is in the D major scale, and 6ths above the tonic of a major key are major.
3. Answer: a major 6th.

Watch out for

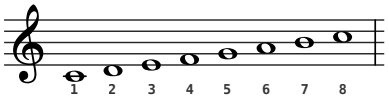

- Counting only the gaps between notes, so a 5th becomes a 4th.
- Calling a 4th or 5th 'major'. They are perfect.

In the exam: Name intervals above the tonic, or spell the tonic triad of a key.

Show her these cards

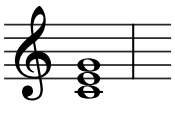

1

Number the notes of the scale from 1 to 8. Note 1 is the tonic, the home note.

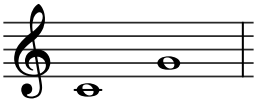

2

The tonic triad is notes 1, 3 and 5 stacked up, like a snowman.

3

To name an interval, count the letters from the bottom note to the top note, counting both. C up to G is C D E F G: a 5th.

4

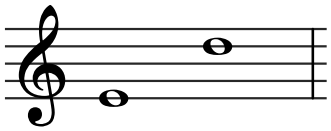

From the tonic in a major key: the 2nd, 3rd, 6th and 7th are major. The 4th, 5th and octave are perfect.

3 · DO TOGETHER (7 MIN)

- Write the tonic triads of E major and F minor.
- Name the intervals above the tonic in D major, then in D minor.
- Compare C–E with C–E♭.

Four questions to work through together

1. Name this interval. (E up to D)

A. minor 7th B. perfect octave C. minor 6th D. major 7th

Answer: minor 7th. Count the letters E F G A B C D: that's a 7th. 10 semitones, so it's a minor 7th.

2. Spell the tonic triad of G major.

A. G–B♭–D B. D–F♯–A C. G–B–D D. B♭–D–F

Answer: G–B–D. Notes 1, 3 and 5 of G major: G–B–D.

3. Name this interval. (A up to F♯)

A. perfect 5th B. major 7th C. major 6th D. minor 6th

Answer: major 6th. Count the letters A B C D E F: that's a 6th. 9 semitones, so it's a major 6th.

4. Spell the tonic triad of B♭ major.

A. B♭–D–F B. B♭–D♭–F C. A–C♯–E D. A♭–C–E♭

Answer: B♭–D–F. Notes 1, 3 and 5 of B♭ major: B♭–D–F.

4 · ON HER OWN (10 MIN)

- Name eight intervals above a tonic, number and type.
- Write four intervals above given tonics.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Interval transformer: you say 'major 3rd to minor 3rd'; she changes one note.

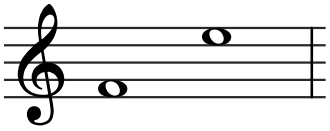

MOVE ON WHEN

8 out of 10 intervals with both number and type right.

Faye's worksheet · Day 8

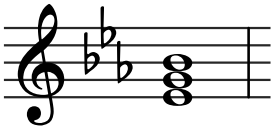

Name _____ Date _____ Score ___ / 8

1. Name this interval. (F up to E)

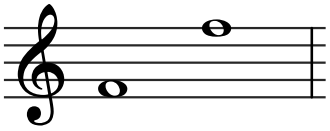

A. major 7th B. perfect octave C. major 6th D. minor 7th

2. This is a tonic triad. Which key is it in?

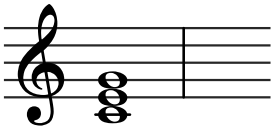

A. A major B. B♭ major C. E♭ major D. C major

3. Name this interval. (F up to F)

A. major 7th B. major 9th C. perfect octave

4. This is a tonic triad. Which key is it in?

A. C major B. F major C. E major D. A♭ major

5. Name this interval. (F♯ up to G♯)

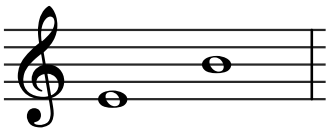

A. major 3rd B. minor 2nd C. major 2nd

6. Spell the tonic triad of B♭ major.

A. F–A–C B. B♭–D♭–F C. G–B–D D. B♭–D–F

7. Name this interval. (E up to B)

A. major 6th B. perfect 5th C. perfect 4th

8. Spell the tonic triad of C major.

A. E♭–G–B♭ B. C–E–G C. C–E♭–G D. A♭–C–E♭

ANSWERS (FOR MUM)

1. **A: major 7th**. Count the letters F G A B C D E: that's a 7th. 11 semitones, so it's a major 7th.
2. **C: E♭ major**. The bottom note is the tonic, E♭. With this key signature, that makes it the tonic triad of E♭ major.
3. **C: perfect octave**. Count the letters F G A B C D E F: that's an octave. 12 semitones, so it's a perfect octave.
4. **A: C major**. The bottom note is the tonic, C. With this key signature, that makes it the tonic triad of C major.
5. **C: major 2nd**. Count the letters F G: that's a 2nd. 2 semitones, so it's a major 2nd.
6. **D: B♭–D–F**. Notes 1, 3 and 5 of B♭ major: B♭–D–F.
7. **B: perfect 5th**. Count the letters E F G A B: that's a 5th. 7 semitones, so it's a perfect 5th.
8. **B: C–E–G**. Notes 1, 3 and 5 of C major: C–E–G.

Day 9: Review: keys, scales and intervals

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 6–8, using that day's plan.

Show her these cards

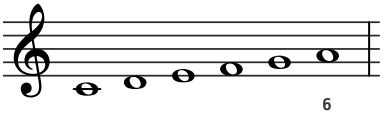

1

Sharps always come in the same order: F C G D A E B.

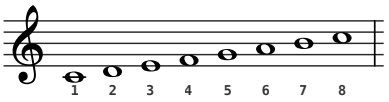

2

The relative minor starts on note 6 of the major scale. C major's note 6 is A, so A minor.

3

Number the notes of the scale from 1 to 8. Note 1 is the tonic, the home note.

3 · DO TOGETHER (7 MIN)

- Write two key signatures in each clef together, then the scale that goes with each.
- Name five intervals above a tonic.

Four questions to work through together

1. Which is the key signature of F major?

A. 

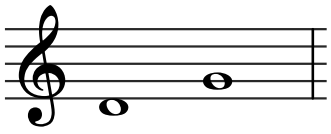

B. 

C. 

D. 

Answer: 1 flats. F major has 1 flat.

2. Name this interval. (D up to G)

A. major 3rd B. perfect 4th C. perfect 5th

Answer: perfect 4th. Count the letters D E F G: that's a 4th. 5 semitones, so it's a perfect 4th.

3. Which minor key has this key signature? (Treble clef)

A. A minor B. G minor C. D minor D. C♯ minor

Answer: G minor. The second-to-last flat is B♭, so B♭ major. Its relative minor, on degree 6, is G minor.

4. Name this interval. (A up to F♯)

A. minor 6th B. perfect 5th C. major 7th D. major 6th

Answer: major 6th. Count the letters A B C D E F: that's a 6th. 9 semitones, so it's a major 6th.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Play Key signatures in Faye's corner.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Key-signature snap: you say 'two flats', she says the major and the minor key.

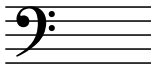

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 9

Name _____ Date _____ Score ___ / 8

1. Which is the key signature of F♯ minor?

A.  B.  C.  D. 

2. Name this interval. (A♯ up to G♯)

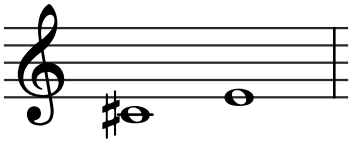

A. major 7th B. minor 6th C. perfect octave D. minor 7th

3. Which major key has this key signature? (Treble clef)

A. D major B. A♭ major C. E♭ major D. C major

4. Name this interval. (C♯ up to E)

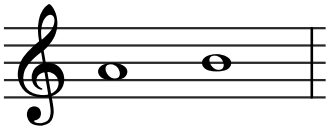

A. perfect 4th B. minor 2nd C. major 3rd D. minor 3rd

5. Which minor key has this key signature? (Treble clef)

A. C minor B. A minor C. E minor D. D minor

6. Name this interval. (A up to B)

A. major 2nd B. minor 2nd C. major 3rd

7. Which major key has this key signature? (Treble clef)

A. G major B. C major C. A major D. D major

8. Name this interval. (G up to F♯)

A. perfect octave B. minor 7th C. major 6th D. major 7th

ANSWERS (FOR MUM)

1. **C: 3 sharps**. F♯ minor has 3 sharps. It shares its key signature with its relative major, A major.
2. **D: minor 7th**. Count the letters A B C D E F G: that's a 7th. 10 semitones, so it's a minor 7th.
3. **A: D major**. The last sharp is C♯. One step up from it is D, so D major.
4. **D: minor 3rd**. Count the letters C D E: that's a 3rd. 3 semitones, so it's a minor 3rd.
5. **D: D minor**. One flat (B♭) means F major. Its relative minor, on degree 6, is D minor.
6. **A: major 2nd**. Count the letters A B: that's a 2nd. 2 semitones, so it's a major 2nd.
7. **C: A major**. The last sharp is G♯. One step up from it is A, so A major.
8. **D: major 7th**. Count the letters G A B C D E F: that's a 7th. 11 semitones, so it's a major 7th.

Day 10: Compound time: 6/8, 9/8 and 12/8

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"In compound time, each beat is a skip: it splits into three. Let's march and say 1-la-li, 2-la-li."*

- 6/8 has two dotted-crotchet beats, each split into three quavers. 9/8 has three beats and 12/8 has four.
- Group quavers in threes to show each dotted-crotchet beat.
- A whole beat of silence is a dotted crotchet rest.

Worked example

How many beats are in 12/8, and what is the beat?

1. 12 divides by 3, so it's compound.
2. 12 ÷ 3 = 4 beats.
3. Three quavers make a dotted crotchet. Answer: 4 dotted-crotchet beats.

Watch out for

- Beaming 6/8 quavers in pairs. That looks like 3/4.
- Saying 6/8 has six beats. It has two.

In the exam: Complete bars in compound time, choose the right rest, or say how many beats there are.

Show her these cards

1

In 6/8 there are two big beats. Each beat is a dotted crotchet: three quavers.

2

Count it: 1-la-li, 2-la-li.

3

9/8 has three dotted-crotchet beats. 12/8 has four.

4

A whole beat of silence in 6/8 is a dotted crotchet rest.

3 · DO TOGETHER (7 MIN)

- Tap the main beats while saying '1-la-li 2-la-li'.
- Compare 3/4 and 6/8: both hold six quavers, grouped differently.
- Regroup some beamed quavers correctly in 6/8.

Four questions to work through together

1. How many demisemiquavers make one dotted crotchet?

A. 13 B. 12 C. 14 D. 24

Answer: 12. A dotted crotchet lasts 1½ crotchet beats. A demisemiquaver lasts ⅛. 1½ ÷ ⅛ = 12.

2. Which bar is grouped correctly for 9/8?

A. 

B. 

Answer: grouped correctly. 9/8 has dotted-crotchet beats, so the quavers go in groups of three. Pairs of quavers make it look like simple time.

3. How many semiquavers make one dotted crotchet?

A. 7 B. 6 C. 8 D. 5

Answer: 6. A dotted crotchet lasts 1½ crotchet beats. A semiquaver lasts ¼. 1½ ÷ ¼ = 6.

4. Which time signature fits this bar?

A. 4/4 B. 3/8 C. 12/8 D. 9/8

Answer: 9/8. The notes add up to 3 dotted crotchet beats, so 9/8 fits.

4 · ON HER OWN (10 MIN)

- Add bar lines to a 9/8 and a 12/8 rhythm.
- Add rests to complete two 6/8 bars.
- Say how many main beats each compound time signature has.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Simple or compound? You clap, she names it and explains how the beat splits.

MOVE ON WHEN

Groups in threes and names the number of main beats straight away.

Faye's worksheet · Day 10

Name _____ Date _____ Score ___ / 8

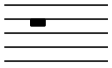

1. How many beats in a bar, and what is the beat?

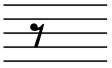

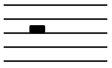

A. 3 crotchets B. 3 dotted crotchets C. 3 dotted semiquavers D. 9 quavers

2. Which rest finishes this bar?

A. 

B. 

C. 

D. 

3. Which note lasts as long as a crotchet and a quaver?

A. 

B. 

C. 

D. 

4. One bar has the wrong number of beats for 6/8. Which bar?

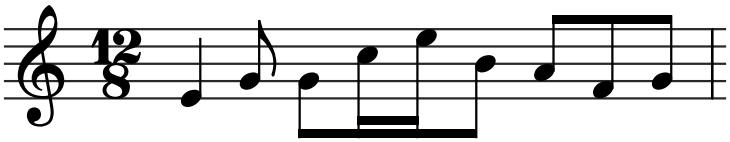

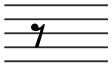

A. Bar 1 B. Bar 2 C. Bar 3

5. Which time signature has four dotted-crotchet beats in each bar?

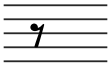

A. 9/8 B. 12/8 C. 4/4 D. 4/2

6. Which rest finishes this bar?

A. 

B. 

C. 

D. 

7. How many beats in a bar, and what is the beat?

A. 2 dotted semiquavers B. 6 semiquavers C. 2 crotchets D. 2 dotted crotchets

8. Which bar is grouped correctly for 9/8?

A. 

B. 

ANSWERS (FOR MUM)

1. **B: 3 dotted crotchets**. 9/8 is compound: 9 quavers grouped in threes make 3 dotted crotchets.
2. **B: quaver rest**. A bar of 12/8 holds 4 dotted crotchet beats. The notes leave a gap of one quaver, so a quaver rest finishes it.
3. **D: dotted crotchet**. A crotchet and a quaver last 1.5 beats, the same as a dotted crotchet.
4. **C: Bar 3**. Each bar of 6/8 should hold two dotted-crotchet beats. Bar 3 has one beat too many.
5. **B: 12/8**. Compound time: each dotted beat splits into 3, so the top number is the beats × 3 (12) and the bottom number names the small note (8).
6. **B: dotted crotchet rest**. A bar of 12/8 holds 4 dotted crotchet beats. The notes leave a gap of one dotted crotchet, so a dotted crotchet rest finishes it.
7. **D: 2 dotted crotchets**. 6/8 is compound: 6 quavers grouped in threes make 2 dotted crotchets.
8. **B: grouped correctly**. 9/8 has dotted-crotchet beats, so the quavers go in groups of three. Pairs of quavers make it look like simple time.

Day 11: Demisemiquavers, extra ledger lines and octave transposition

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Some notes are too high or too low for the stave, so they get their own little ladder lines. Count the lines carefully, one at a time."*

- A demisemiquaver is half a semiquaver. Eight of them fill a crotchet.
- Notes can go beyond two ledger lines above or below the stave.
- Transposing an octave between treble and bass keeps the letter names, rhythm and accidentals. Use middle C as the anchor.

Worked example

Write the treble-clef G on the 2nd line one octave lower, in bass clef.

1. An octave lower keeps the letter: G.
2. The treble 2nd-line G is the G above middle C. An octave lower is the G below middle C.
3. In bass clef, that G is in the top space.

Watch out for

- Writing it at the same pitch instead of an octave lower.
- Miscounting ledger lines: count each line and each space.

In the exam: Rewrite a short melody an octave higher or lower in the other clef.

Show her these cards

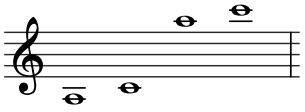

1

A demisemiquaver has three beams. Eight of them fit into one crotchet.

2

Ledger lines are extra little lines for notes above or below the stave.

3

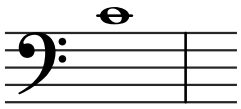

Moving a tune down an octave keeps every letter name the same. Middle C is your anchor.

3 · DO TOGETHER (7 MIN)

- Split a crotchet into equal demisemiquavers.
- Name notes on three ledger lines.
- Move a four-note treble phrase an octave down into bass clef.

Four questions to work through together

1. Is this note above, below or at middle C? (Bass clef)

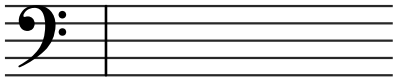

A. Above middle C B. Below middle C C. It is middle C

Answer: It is middle C. In the bass clef, middle C is on the first ledger line above the stave. This note is C, exactly middle C.

2. Write A on the stave. (Bass clef · any octave)

Write your answer on this stave:

Answer: A. A can go in more than one octave; any A was fine.

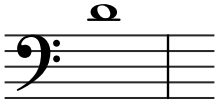

3. How many demisemiquavers make one dotted semiquaver?

A. 2 B. 4 C. 1 D. 3

Answer: 3. A dotted semiquaver lasts ⅜ crotchet beats. A demisemiquaver lasts ⅛. ⅜ ÷ ⅛ = 3.

4. Which is this note one octave higher, written in treble clef? (Bass clef)

A. 

B. 

C. 

D. 

Answer: treble clef note D5. Same letter, D, but 7 steps higher. The trap is the one at the same pitch.

4 · ON HER OWN (10 MIN)

- Complete two bars that use demisemiquavers.

- Transpose a short bass-clef melody an octave up into treble clef.
- Check each note with Hear it in the app, or on any instrument.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Mirror relay: you write in one clef, she races to write it in the other.

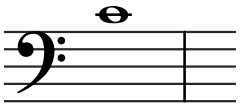

MOVE ON WHEN

4 out of 5 notes right, including the accidental and rhythm.

Faye's worksheet · Day 11

Name _____ Date _____ Score ___ / 8

1. Is this note above, below or at middle C? (Bass clef)

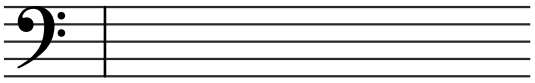

A. Above middle C B. Below middle C C. It is middle C

2. Write this tune one octave lower in bass clef. (Given in treble clef)

Write your answer on this stave:

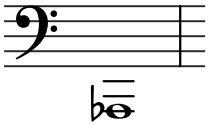

3. How many demisemiquavers make one dotted semiquaver?

A. 2 B. 5 C. 3 D. 1

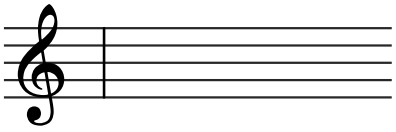

4. Name this note. (Bass clef)

Write your answer: _____

5. Write B♭ on the stave. (Treble clef · any octave)

Write your answer on this stave:

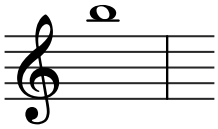

6. How many demisemiquavers make one crotchet?

A. 7 B. 8 C. 16 D. 4

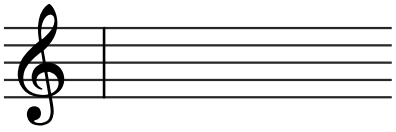

7. Name this note. (Treble clef)

Write your answer: _____

8. Write C♯ on the stave. (Treble clef · any octave)

Write your answer on this stave:

ANSWERS (FOR MUM)

1. **C: It is middle C**. In the bass clef, middle C is on the first ledger line above the stave. This note is C, exactly middle C.
2. **F, A, G (bass clef)**. The notes are F, A, G, each moved down an octave.
3. **C: 3**. A dotted semiquaver lasts ⅜ crotchet beats. A demisemiquaver lasts ⅛. ⅜ ÷ ⅛ = 3.
4. **A**♭. A♭. Landmark: C, two ledger lines below. This note is 2 steps below it: C, B, A. The flat makes it A♭.
5. **B**♭. B♭ can go in more than one octave; any B was fine, with a flat sign in front.
6. **B: 8**. A crotchet lasts 1 crotchet beat. A demisemiquaver lasts ⅛. 1 ÷ ⅛ = 8.
7. **B**. B. Landmark: C, two ledger lines above. This note is 1 step below it: C, B.
8. **C**♯. C♯ can go in more than one octave; any C was fine, with a sharp sign in front.

Day 12: Terms, signs and questions on a melody

G1–3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“Music has secret instructions written around the notes, in Italian. We're going to be detectives and find them all.”*

- Teach terms in groups: speed, loudness, style and mood, and directions such as da capo.
- Signs: pause, accent, slur, tie, repeat marks, staccato, tenuto.
- For a music-in-context question, find the evidence in the music before answering.

Worked example

A melody is marked 'Andante' and 'mp'. How should it be played?

1. Andante means at a walking pace.
2. mp means mezzo piano: moderately quiet.
3. So: at a walking pace, moderately quietly.

Watch out for

- Mixing up rallentando (getting slower) and crescendo (getting louder).
- Answering from memory instead of looking at the music.

In the exam: Music in context: questions on a short piece about its key, time signature, terms, signs and intervals.

Show her these cards

1

Speed words: adagio slow, andante at a walking pace, allegro fast, presto very fast.

2

Loudness: pp, p, mp, mf, f, ff, from very quiet to very loud.

3

Signs on notes: a dot is staccato (short), an arrowhead > is an accent (strong), a line is tenuto (full length).

4

Be a music detective: look at everything on and around the notes before you answer.

3 · DO TOGETHER (7 MIN)

- Run the Musical terms drill at Grade 3 together.
- Answer ten questions on a short melody: key, time signature, highest note, a named interval, and what a term means.

Four questions to work through together

1. What does this mean?

ritenuto (rit.)

A. playful, merry B. too much C. slow D. held back

Answer: held back. ritenuto (rit.) is Italian for "held back".

2. What does this mean?

sostenuto

A. smoothly B. lively, quick C. in the style of a march D. sustained

Answer: sustained. sostenuto is Italian for "sustained".

3. What does this mean?

sforzando (sf)

A. fairly quick B. expressively C. forced, with a sudden accent D. the end

Answer: forced, with a sudden accent. sforzando (sf) is Italian for "forced, with a sudden accent".

4. What does this mean?

adagio

A. gradually getting slower B. very quiet C. slow D. but

Answer: slow. adagio is Italian for "slow".

4 · ON HER OWN (10 MIN)

- Write the meaning of ten terms.
- Answer eight questions on a new short melody.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Charades: act out or play a term; the other person names it.

MOVE ON WHEN

80% of terms right, and she points to the evidence in the melody.

Faye's worksheet · Day 12

Name _____ Date _____ Score ____ / 8

1. Which term means the opposite of largo?

A. rallentando B. crescendo C. presto D. pianissimo

2. What does this mean?

lento

A. slow B. majestically C. forced, with a sudden accent D. playful, merry

3. What does this mean?

fine

A. expressively B. the end C. smoothly D. simply

4. Which term means "slow"?

Find the term

A. poco B. allegro C. adagio D. fortepiano (fp)

5. Which term means the opposite of forte?

A. largo B. piano C. pianissimo D. tutti

6. Which term means "slow and stately"?

Find the term

A. moderato B. largo C. risoluto D. ottava (8va)

7. What does this mean?

subito

A. suddenly B. loud C. with energy D. repeat from the sign

8. Which term means the opposite of legato?

A. staccato B. fortissimo C. allegro D. accelerando

ANSWERS (FOR MUM)

1. **C: presto**. largo and presto are opposites.
2. **A: slow**. lento is Italian for "slow".
3. **B: the end**. fine is Italian for "the end".
4. **C: adagio**. adagio is Italian for "slow".
5. **B: piano**. forte and piano are opposites.
6. **B: largo**. largo is Italian for "slow and stately".
7. **A: suddenly**. subito is Italian for "suddenly".
8. **A: staccato**. legato and staccato are opposites.

Day 13: Review: everything in Grades 1–3

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

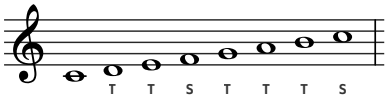

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 1–12, using that day's plan.

Show her these cards

1

A major scale is 8 notes going up step by step. The pattern is tone, tone, semitone, tone, tone, tone, semitone.

2

Take your time. Look at the clef first, every time.

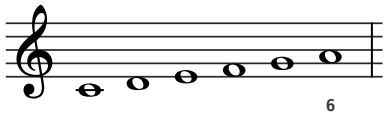

3

Beams join quavers so you can see where each beat starts.

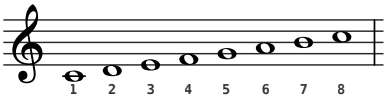

4

The relative minor starts on note 6 of the major scale. C major's note 6 is A, so A minor.

5

Number the notes of the scale from 1 to 8. Note 1 is the tonic, the home note.

6

A demisemiquaver has three beams. Eight of them fit into one crotchet.

3 · DO TOGETHER (7 MIN)

- Pick one question from each strand in the Mastery tracker and do it together.
- Go over the Italian terms she mixes up.

Four questions to work through together

1. How many quavers make one dotted crotchet?

A. 3 B. 6 C. 4 D. 2

Answer: 3. A dotted crotchet lasts 1½ crotchet beats. A quaver lasts ½. 1½ ÷ ½ = 3.

2. Which major key has 2 flats?

A. B♭ major B. F major C. E♭ major D. E major

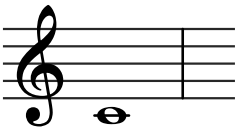

Answer: B♭ major. 2 flats: B♭ E♭. The second-to-last flat is B♭, so B♭ major.

3. Which note is a perfect 5th above F♭?

A. C♭ B. C C. D♭ D. B♭

Answer: C♭. Count 5 letters up from F♭ to get C. A perfect 5th is 7 semitones, so it's C♭.

4. Which is this note one octave lower, written in bass clef? (Treble clef)

A. 

B. 

C. 

D. 

Answer: bass clef note C3. Same letter, C, but 7 steps lower. The trap is the one at the same pitch.

4 · ON HER OWN (10 MIN)

- Today's practice.
- A round of Music in context or Musical terms.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Beat Mum: you both answer five questions and she marks yours.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 13

Name _____ Date _____ Score ___ / 8

1. How many beats in a bar, and what is the beat?

A. 3 dotted quavers B. 3 quavers C. 3 crotchets D. 3 minims

2. Which major key has 2 sharps?

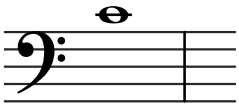

A. C major B. D major C. E♭ major D. F major

3. How many semitones are in a minor 6th?

A. 6 B. 10 C. 8 D. 9

4. Is this note above, below or at middle C? (Bass clef)

A. Above middle C B. Below middle C C. It is middle C

5. What does this mean?

l'istesso tempo

A. gradually getting quieter B. calmly C. moderately quiet D. at the same speed

6. How many minims make one dotted semibreve?

A. 1 B. 2 C. 4 D. 3

7. Which is the key signature of E major?

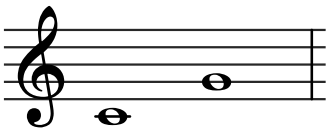

A. 

B. 

C. 

D. 

8. Name this interval. (C up to G)

A. major 6th

B. perfect 4th

C. perfect 5th

ANSWERS (FOR MUM)

1. **C: 3 crotchets**. 3/4 is simple: the 4 means a crotchet beat, and there are 3 of them.
2. **B: D major**. 2 sharps: F♯ C♯. The last sharp is C♯; one step up is D major.
3. **C: 8**. A minor 6th is 8 semitones: for example C up to A♭. Minor is one semitone less than major.
4. **C: It is middle C**. In the bass clef, middle C is on the first ledger line above the stave. This note is C, exactly middle C.
5. **D: at the same speed**. l'istesso tempo is Italian for "at the same speed".
6. **D: 3**. A dotted semibreve lasts 6 crotchet beats. A minim lasts 2. 6 ÷ 2 = 3.
7. **B: 4 sharps**. E major has 4 sharps.
8. **C: perfect 5th**. Count the letters C D E F G: that's a 5th. 7 semitones, so it's a perfect 5th.

Day 14: Grade 3 practice paper

G3 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Today we pretend it's the real exam. You work on your own, and afterwards we look at every mistake together like detectives."*

- No new material. This shows whether Grades 1–3 are secure.
- If she needs more before Grade 4, Grade 3 practice paper 2 and the Grade 3 question bank are in the Papers list.

Worked example

How to sort her mistakes after the paper.

1. Didn't know: the topic needs teaching again.
2. Careless: she knew it but slipped. Give her a checking habit (count the beats, check the key signature).
3. Misread: she answered a different question. Practise underlining key words.
4. Ran out of time: practise the slow section with a timer.

Watch out for

- Marking it days later: mark while she remembers her thinking.
- Treating every mistake the same. Careless mistakes need habits, not reteaching.

In the exam: Grade 3 is marked out of 75: 50 to pass, 60 merit, 65 distinction.

Show her these cards

1

A practice paper is a dress rehearsal for the real exam.

2

Read every question twice. Look for the important words: higher or lower, major or minor, above or below.

3

Stuck? Skip it and come back at the end. Don't let one question eat all your time.

4

When you write notes in bars, count the beats in every bar before you finish.

3 · DO TOGETHER (7 MIN)

- Set it up like the real exam: a quiet room, a clock she can see, no help.

4 · ON HER OWN (10 MIN)

- Our Grade 3 practice paper (the button is in today's lesson pack), timed at 90 minutes. Two 45-minute halves is fine.
- Mark it together. Sort each mistake: didn't know, careless, misread, or ran out of time.

5 · GAME (3 MIN)

Beat Mum: you both answer five questions and she marks yours.

MOVE ON WHEN

About 60/75 or more: go on to Grade 4. 50–59: pass level. Spend one extra day on the red strands, then go on. Below 50: repeat the days for the red strands before Grade 4.
