Day 15: Fix Grade 3 mistakes; classify every time signature

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Every time signature gets two labels, like a first name and a surname: simple or compound, then duple, triple or quadruple."*

- Go over the red topics from the paper first (10 minutes).
- Every time signature is simple or compound, and duple, triple or quadruple. 2/2 is simple duple, 9/8 is compound triple, 12/16 is compound quadruple.

Worked example

Describe 9/4.

1. 9 divides by 3 (and isn't 3), so it's compound.
2. 9 ÷ 3 = 3 beats, so triple.
3. Each beat is three crotchets, a dotted minim. Answer: compound triple.

Watch out for

- Calling 3/4 compound because of the 3. 3 on its own is simple triple.
- Forgetting to divide by 3 for compound time.

In the exam: Describe a time signature in words, or choose the one that fits some bars.

Show her these cards

1

Simple time: each beat splits into 2. Compound time: each beat splits into 3.

2

Duple means 2 beats, triple means 3, quadruple means 4.

3

In compound time, divide the top number by 3. 6/8 → 2 beats → compound duple.

4

12/16 → 4 beats of dotted quavers → compound quadruple.

3 · DO TOGETHER (7 MIN)

- Sort 12 time signatures into a 2 × 3 grid.
- Explain why 6/4 is compound duple.

Four questions to work through together

1. How many beats in a bar, and what is the beat?

A. 2 dotted minims B. 2 minims C. 6 quavers D. 2 dotted quavers

Answer: 2 dotted minims. 6/4 is compound: 6 crotchets grouped in threes make 2 dotted minims.

2. What kind of time signature is this?

A. compound triple B. compound duple C. simple triple D. compound quadruple

Answer: compound duple. The top number divides by 3, so it's compound: 6 ÷ 3 = 2 beats, which is duple.

3. What kind of time signature is this?

A. simple triple B. simple quadruple C. compound quadruple D. simple duple

Answer: simple triple. Each beat splits in two, so it's simple, with 3 beats: triple.

4. How many beats in a bar, and what is the beat?

A. 3 dotted semiquavers B. 3 dotted crotchets C. 9 quavers D. 3 crotchets

Answer: 3 dotted crotchets. 9/8 is compound: 9 quavers grouped in threes make 3 dotted crotchets.

4 · ON HER OWN (10 MIN)

- Classify eight time signatures.
- Write the time signature for 'three dotted-minim beats'.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Time signature sorting race: slips of paper sorted into six boxes.

MOVE ON WHEN

Classifies any common time signature without hesitating.

Faye's worksheet · Day 15

Name _____ Date _____ Score ___ / 8

1. How many beats in a bar, and what is the beat?

A. 2 dotted semiquavers B. 2 semiquavers C. 2 crotchets D. 2 quavers

2. What kind of time signature is this?

A. compound duple B. compound triple C. simple duple D. simple triple

3. What kind of time signature is this?

A. simple triple B. simple quadruple C. simple duple D. compound duple

4. How many beats in a bar, and what is the beat?

A. 2 dotted crotchets B. 2 semibreves C. 2 minims D. 2 crotchets

5. What kind of time signature is this?

A. simple triple B. compound duple C. simple duple D. simple quadruple

6. What kind of time signature is this?

A. simple triple B. simple quadruple C. compound triple D. compound quadruple

7. What kind of time signature is this?

A. compound triple B. compound quadruple C. simple duple D. simple quadruple

8. How many beats in a bar, and what is the beat?

A. 2 minims B. 2 crotchets C. 2 quavers D. 2 dotted quavers

ANSWERS (FOR MUM)

1. **D: 2 quavers**. 2/8 is simple: the 8 means a quaver beat, and there are 2 of them.
2. **A: compound duple**. The top number divides by 3, so it's compound: 6 ÷ 3 = 2 beats, which is duple.
3. **A: simple triple**. Each beat splits in two, so it's simple, with 3 beats: triple.
4. **C: 2 minims**. 2/2 is simple: the 2 means a minim beat, and there are 2 of them.
5. **A: simple triple**. Each beat splits in two, so it's simple, with 3 beats: triple.
6. **A: simple triple**. Each beat splits in two, so it's simple, with 3 beats: triple.
7. **C: simple duple**. Each beat splits in two, so it's simple, with 2 beats: duple.
8. **B: 2 crotchets**. 2/4 is simple: the 4 means a crotchet beat, and there are 2 of them.

Day 16: The breve, double dots and duplets

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"A dot is like a little helper that adds half. The second dot is a smaller helper: it adds half of what the first one added."*

- A breve lasts two semibreves, or 8 crotchets.
- A second dot adds half of the first dot: a double-dotted crotchet = 1 + ½ + ¼ = 1¾ beats.
- A duplet fits two equal notes into the time of three, so it appears in compound time.

Worked example

How many semiquavers are in a double-dotted crotchet?

1. A crotchet is 4 semiquavers.
2. The first dot adds half: 2 more. The second dot adds half of that: 1 more.
3. 4 + 2 + 1 = 7 semiquavers.

Watch out for

- Making the second dot worth the same as the first.
- Using a duplet in simple time. Duplets belong in compound time.

In the exam: Work out note values, complete bars, or choose the rest that fills a gap.

Show her these cards

1

A breve lasts two semibreves: 8 crotchet beats.

2

A dot adds half. A second dot adds half of that again.

3

Double-dotted minim = 2 + 1 + ½ = 3½ beats. Double-dotted crotchet = 1 + ½ + ¼ = 1¾ beats.

4

A duplet squeezes 2 notes into the time of 3. It lives in compound time.

5

Triplets in simple time sound like compound time: 2/4 with a quaver triplet on every beat sounds the same as 6/8. Duplets work the other way round.

3 · DO TOGETHER (7 MIN)

- Work out double-dotted minim and crotchet values.
- Compare a triplet in simple time with a duplet in compound time.
- Find the double-dotted notes on Faye's picture card 2.

Four questions to work through together

1. How many quavers make one double-dotted breve?

A. 29 B. 30 C. 28 D. 27

Answer: 28. A double-dotted breve lasts 14 crotchet beats. A quaver lasts ½. 14 ÷ ½ = 28. The second dot adds half of the first dot.

2. How many semiquavers make one double-dotted minim?

A. 15 B. 14 C. 28 D. 16

Answer: 14. A double-dotted minim lasts 3½ crotchet beats. A semiquaver lasts ¼. 3½ ÷ ¼ = 14. The second dot adds half of the first dot.

3. A semibreve tied to a crotchet. How many crotchet beats is that?

Ties

A. 6 B. 5½ C. 5 D. 4

Answer: 5. A tie joins the two notes into one sound: 4 + 1 = 5 beats.

4. A duplet of quavers (marked 2) takes the time of how many ordinary quavers?

Duplet

A. 6 B. 3 C. 5 D. 2

Answer: 3. A duplet fits two quavers into the time of three, in compound time.

4 · ON HER OWN (10 MIN)

- Complete bars that use double-dotted notes.
- Write a duplet correctly in 6/8.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Rhythm LEGO: choose note-value bricks that exactly fill one beat.

MOVE ON WHEN

Works out double dots and places duplets correctly.

Faye's worksheet · Day 16

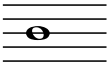

Name _____ Date _____ Score ____ / 8

1. A duplet of quavers (marked 2) takes the time of how many ordinary quavers?

Duplet

A. 3 B. 5 C. 6 D. 4

2. Which note lasts as long as two minims?

A.  B.  C.  D. 

3. How many crotchets make one double-dotted breve?

A. 28 B. 13 C. 15 D. 14

4. A semibreve tied to a crotchet. How many crotchet beats is that?

Ties

A. 5 B. 6 C. 4 D. 5½

5. How many demisemiquavers make one double-dotted quaver?

A. 14 B. 3 C. 6 D. 7

6. How many quavers make one double-dotted minim?

A. 9 B. 8 C. 7 D. 3

7. How many semiquavers make one breve?

A. 32 B. 34 C. 16 D. 33

8. How many quavers make one double-dotted semibreve?

A. 14 B. 13 C. 28 D. 16

ANSWERS (FOR MUM)

1. **A: 3**. A duplet fits two quavers into the time of three, in compound time.
2. **D: semibreve**. Two minims last 4 beats, the same as a semibreve.
3. **D: 14**. A double-dotted breve lasts 14 crotchet beats. A crotchet lasts 1. 14 ÷ 1 = 14. The second dot adds half of the first dot.
4. **A: 5**. A tie joins the two notes into one sound: 4 + 1 = 5 beats.
5. **D: 7**. A double-dotted quaver lasts ⅞ crotchet beats. A demisemiquaver lasts ⅛. ⅞ ÷ ⅛ = 7. The second dot adds half of the first dot.
6. **C: 7**. A double-dotted minim lasts 3½ crotchet beats. A quaver lasts ½. 3½ ÷ ½ = 7. The second dot adds half of the first dot.
7. **A: 32**. A breve lasts 8 crotchet beats. A semiquaver lasts ¼. 8 ÷ ¼ = 32.
8. **A: 14**. A double-dotted semibreve lasts 7 crotchet beats. A quaver lasts ½. 7 ÷ ½ = 14. The second dot adds half of the first dot.

Day 17: Alto clef

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“This clef looks like a big letter B, but it's really a C clef. Wherever its middle points, that line is middle C.”*

- A C clef marks middle C. In alto clef it sits on the middle (3rd) line.
- Read outwards from middle C instead of learning new line names.
- The viola reads alto clef.

Worked example

Name the note in the top space of the alto clef.

1. The middle line is middle C.
2. Going up: D is the space above it, E the 4th line, F the top space.
3. Answer: F.

Watch out for

- Reading alto clef as if it were treble.
- Forgetting which line middle C is on: it's the middle one.

In the exam: Name notes in alto clef, or rewrite a melody in alto clef at the same pitch.

Show her these cards

1

The alto clef is a C clef. Its middle points at middle C, on the middle line.

middle C

2

Count up and down from middle C, one step at a time.

3

The viola reads alto clef.

4

Find middle C first in every clef: treble, the ledger line below; bass, the ledger line above; alto, the middle line. Then you can tell

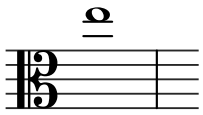

at once if a note is above or below it.

3 · DO TOGETHER (7 MIN)

- Write middle C, then D, B, E and A around it.
- Rewrite five notes at the same pitch from treble to alto and from bass to alto.

Four questions to work through together

1. Name this note. (Alto clef)

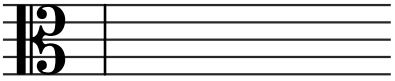

Write your answer: _____

Answer: E. E. Landmark: B, one ledger line above. This note is 3 steps above it: B, C, D, E.

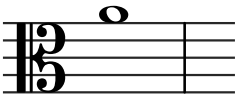

2. Write A on the stave. (Alto clef · any octave)

Write your answer on this stave:

Answer: A. A can go in more than one octave; any A was fine.

3. Name this note. (Alto clef)

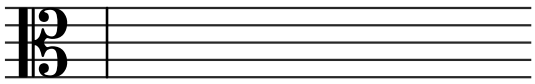

Write your answer: _____

Answer: A. A. Landmark: G, the top line. This note is 1 step above it: G, A.

4. Write this tune at the same pitch in alto clef. (Given in treble clef)

Write your answer on this stave:

Answer: C, E, D (alto clef). The notes are C, E, D, written at the same pitch.

4 · ON HER OWN (10 MIN)

- Name eight alto-clef notes.
- Run the Notes drill at Grade 4.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

C-clef compass: cover the clef; she finds the C line first, then the target note.

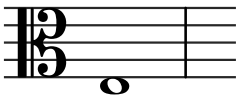

MOVE ON WHEN

Reads alto clef from middle C without counting every line.

Faye's worksheet · Day 17

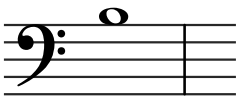

Name _____ Date _____ Score ___ / 8

1. Name this note. (Alto clef)

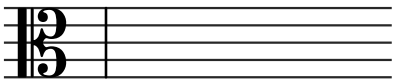

Write your answer: _____

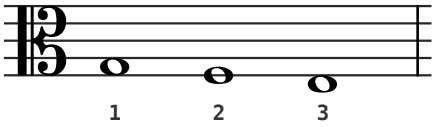

2. Write this note at the same pitch in alto clef. (Given in bass clef)

Write your answer on this stave:

3. Which note sounds highest? (Alto clef)

A. Note 1 B. Note 2 C. Note 3

4. Finish the scale of F major, going up: write notes 5, 6, 7 and 8. (Alto clef · no key signature, so use accidentals)

Write your answer on this stave:

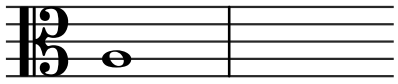

5. Name this note. (Alto clef)

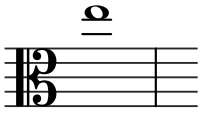

Write your answer: _____

6. Write a major 3rd above this note. (Alto clef)

Write your answer on this stave:

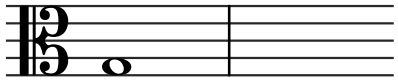

7. Name this note. (Alto clef)

Write your answer: _____

8. Write a minor 3rd above this note. (Alto clef)

Write your answer on this stave:

ANSWERS (FOR MUM)

1. **E**. E. Landmark: D, one ledger line below. This note is 1 step above it: D, E.
2. **B (alto clef, 1 step below middle C)**. It's B, 1 step below middle C. In alto clef middle C is the middle line, so count from there.
3. **A: Note 1**. The notes are G, F, E. Note 1 (G) is highest on the stave.
4. **C, D, E, F (alto clef)**. Notes 5 to 8 of F major are C, D, E, F.
5. **G♭**. G♭. It's the landmark G: the top line. The flat makes it G♭.
6. **C♯ (alto clef, middle C)**. Count 3 letter names up from A: the answer is C♯.
7. **E**. E. Landmark: B, one ledger line above. This note is 3 steps above it: B, C, D, E.
8. **B♭ (alto clef, 1 step below middle C)**. Count 3 letter names up from G: the answer is B♭.

Day 18: Double sharps, double flats and enharmonic equivalents

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Some piano keys have more than one name, like a person with a nickname. The name we choose depends on the letter we need."*

- 𝄪 raises a note by two semitones and 𝄫 lowers it by two.
- Enharmonic equivalents sound the same but are spelled differently: F♯ = G♭, B♯ = C, E𝄪 = F♯.
- In theory the letter name matters, even when the piano key is the same.

Worked example

Give an enharmonic equivalent of E♯.

1. Find E on the piano and go up one semitone.
2. There's no black key between E and F, so the next key is F.
3. Answer: E♯ sounds the same as F.

Watch out for

- Thinking B♯ and E♯ must be black keys. They are C and F.
- Keeping the same letter when the question asks for a different name.

In the exam: Choose the enharmonic equivalent of a note, or name notes with double sharps and flats.

Show her these cards

1

A double sharp 𝄪 lifts a note up two semitones. A double flat 𝄫 drops it two.

2

Enharmonic notes sound the same but have different names. F♯ and G♭ are the same piano key.

3

In theory, the letter name matters, even when the piano key is the same.

3 · DO TOGETHER (7 MIN)

- Change F to F♯ to F𝄪, finding each key on a drawn keyboard.
- Give two names for each black key.

Four questions to work through together

1. Which note sounds the same as G♯?

A. F♯ B. A𝄫 C. G♭ D. A♭

Answer: A♭. G♯ and A♭ are enharmonic equivalents: the same key on the piano, written with a different letter name.

2. Name this interval. (D♭ up to E𝄫)

A. minor 2nd B. minor 3rd C. major 2nd

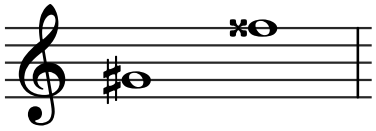

Answer: minor 2nd. Count the letters D E: that's a 2nd. 1 semitones, so it's a minor 2nd.

3. Which note sounds the same as G♭?

A. F𝄪 B. F C. F♯ D. A♭

Answer: F♯. G♭ and F♯ are enharmonic equivalents: the same key on the piano, written with a different letter name.

4. Name this interval. (G♯ up to F𝄪)

A. minor 7th B. perfect octave C. major 6th D. major 7th

Answer: major 7th. Count the letters G A B C D E F: that's a 7th. 11 semitones, so it's a major 7th.

4 · ON HER OWN (10 MIN)

- Write enharmonic equivalents for eight notes.
- Answer six 'which key sounds?' questions.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Keyboard truth vs spelling: you point to a key; she gives two correct names.

MOVE ON WHEN

Gives the enharmonic spelling and says which letter changed.

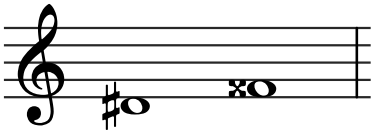

Faye's worksheet · Day 18

Name _____ Date _____ Score ____ / 8

1. Which note sounds the same as C♯?

A. D♭ B. C♭ C. D𝄫 D. B♯

2. Name this interval. (D♯ up to F𝄪)

A. perfect 4th B. major 2nd C. major 3rd D. minor 3rd

3. Which note sounds the same as B♭?

A. A𝄪 B. C♭ C. A♯ D. A

4. Name this interval. (F♭ up to D𝄫)

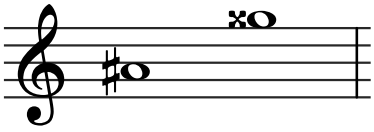

A. major 6th B. minor 6th C. minor 7th D. perfect 5th

5. Which note sounds the same as F♯?

A. F♭ B. G𝄫 C. E♯ D. G♭

6. Name this interval. (A♯ up to G𝄪)

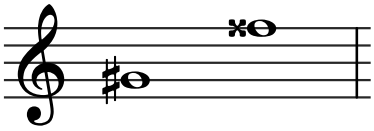

A. major 7th B. major 6th C. minor 7th D. perfect octave

7. Which note sounds the same as D♭?

A. C𝄪 B. C♯ C. C D. E♭

8. Name this interval. (G♯ up to F𝄪)

A. minor 7th B. major 7th C. perfect octave D. major 6th

ANSWERS (FOR MUM)

1. **A: D♭**. C♯ and D♭ are enharmonic equivalents: the same key on the piano, written with a different letter name.
2. **C: major 3rd**. Count the letters D E F: that's a 3rd. 4 semitones, so it's a major 3rd.
3. **C: A♯**. B♭ and A♯ are enharmonic equivalents: the same key on the piano, written with a different letter name.
4. **B: minor 6th**. Count the letters F G A B C D: that's a 6th. 8 semitones, so it's a minor 6th.
5. **D: G♭**. F♯ and G♭ are enharmonic equivalents: the same key on the piano, written with a different letter name.
6. **A: major 7th**. Count the letters A B C D E F G: that's a 7th. 11 semitones, so it's a major 7th.
7. **B: C♯**. D♭ and C♯ are enharmonic equivalents: the same key on the piano, written with a different letter name.
8. **B: major 7th**. Count the letters G A B C D E F: that's a 7th. 11 semitones, so it's a major 7th.

Day 19: The chromatic scale

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Most scales skip some piano keys. The chromatic scale is greedy: it takes every single one."*

- A chromatic scale moves only in semitones.
- Use every letter name, none more than twice in a row, and start and end on the same note.
- A safe habit: sharps going up, flats coming down.

Worked example

Write a chromatic scale up from F, one octave.

1. Every step is a semitone: F, F♯, G, G♯, A, A♯, B, C, C♯, D, D♯, E, F.
2. Check: no letter more than twice in a row, and every letter is there.
3. Start and end on F.

Watch out for

- Using a letter three times in a row, such as F, F♯, F𝄪.
- Skipping a letter, such as E then F♯.

In the exam: Spot which group of notes is part of a chromatic scale, or add accidentals to make one.

Show her these cards

1

A chromatic scale uses every key on the piano, black and white: only semitones.

2

Rule: start and end on the same note, and never use a letter more than twice in a row.

3

An easy way: sharps going up, flats coming down.

3 · DO TOGETHER (7 MIN)

- Write a chromatic scale from C, up and down.
- Spot a badly spelled chromatic scale.

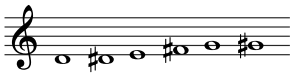

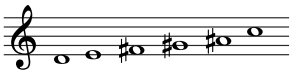

Four questions to work through together

1. Which of these is part of a chromatic scale?

A.  B.  C. 

Answer: only semitones. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

2. Which of these is part of a chromatic scale?

A.  B.  C. 

Answer: only semitones. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

3. Which of these is part of a chromatic scale?

A.  B.  C. 

Answer: only semitones. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

4. Which of these is part of a chromatic scale?

A.  B.  C. 

Answer: only semitones. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

4 · ON HER OWN (10 MIN)

- Write a chromatic scale up from D, and down from F in bass clef.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Spot the bad spelling: you write one with two mistakes.

MOVE ON WHEN

One octave with correct semitones and a sensible spelling.

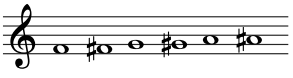

Faye's worksheet · Day 19

Name _____ Date _____ Score ____ / 8

1. Which of these is part of a chromatic scale?

A.  B.  C. 

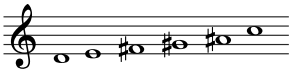

2. Which of these is part of a chromatic scale?

A.  B.  C. 

3. Which of these is part of a chromatic scale?

A.  B.  C. 

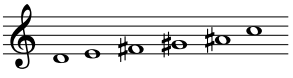

4. Which of these is part of a chromatic scale?

A.  B.  C. 

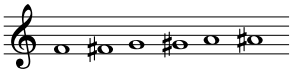

5. Which of these is part of a chromatic scale?

A.  B.  C. 

6. Which of these is part of a chromatic scale?

A.  B.  C. 

7. Which of these is part of a chromatic scale?

A.  B.  C. 

8. Which of these is part of a chromatic scale?

A.  B.  C. 

ANSWERS (FOR MUM)

1. **A: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
2. **C: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
3. **C: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
4. **B: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
5. **A: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
6. **A: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
7. **B: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
8. **A: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

Day 20: Review: alto clef, double accidentals and the chromatic scale

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 15–19, using that day's plan.

Show her these cards

1

In compound time, divide the top number by 3. 6/8 → 2 beats → compound duple.

2

A dot adds half. A second dot adds half of that again.

3

The alto clef is a C clef. Its middle points at middle C, on the middle line.

4

A double sharp 𝄪 lifts a note up two semitones. A double flat 𝄫 drops it two.

5

A chromatic scale uses every key on the piano, black and white: only semitones.

3 · DO TOGETHER (7 MIN)

- Name eight alto-clef notes from viola music.
- Write one chromatic scale together, going up and coming down.

Four questions to work through together

1. How many semibreves make one breve?

A. 4 B. 2 C. 1 D. 3

Answer: 2. A breve lasts 8 crotchet beats. A semibreve lasts 4. 8 ÷ 4 = 2.

2. Name this note. (Bass clef)

Write your answer: _____

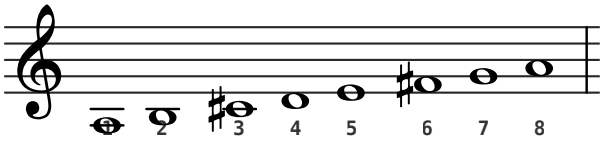

Answer: B♭. B♭. Landmark: C, the second space. This note is 1 step below it: C, B. The flat makes it B♭.

3. Which note is a minor 6th above A♭?

A. F𝄫 B. F♭ C. E♭ D. F

Answer: F♭. Count 6 letters up from A♭ to get F. A minor 6th is 8 semitones, so it's F♭.

4. One note in this A major scale is wrong. Which number is it?

Write your answer: _____

Answer: 7. Note 7 should be G♯, not G. Major scales go tone, tone, semitone, tone, tone, tone, semitone.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Write the note in alto clef.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

C-clef compass: cover the clef; she finds the C line first.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

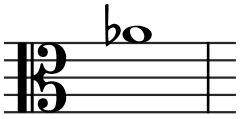

Faye's worksheet · Day 20

Name _____ Date _____ Score ___ / 8

1. Which note lasts as long as two crotchets?

A.  B.  C.  D. 

2. Name this note. (Alto clef)

Write your answer: _____

3. Which note is a minor 2nd above F?

A. F♭ B. G𝄫 C. G♭ D. G

4. Which note sounds the same as D♯?

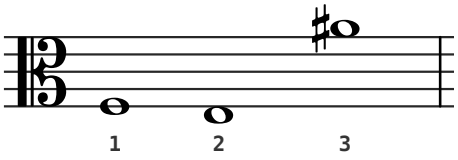

A. D♭ B. E C. E♭ D. E𝄫

5. How many beats in a bar, and what is the beat?

A. 4 minims B. 4 quavers C. 4 dotted quavers D. 4 crotchets

6. Which note sounds highest? (Alto clef)

A. Note 1 B. Note 2 C. Note 3

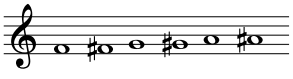

7. Name this interval. (D up to F♯)

A. minor 3rd B. perfect 4th C. major 2nd D. major 3rd

8. Which of these is part of a chromatic scale?

A. 

B. 

C. 

ANSWERS (FOR MUM)

1. **B: minim**. Two crotchets last 2 beats, the same as a minim.
2. **A**♭. A♭. Landmark: G, the top line. This note is 1 step above it: G, A. The flat makes it A♭.
3. **C: G**♭. Count 2 letters up from F to get G. A minor 2nd is 1 semitones, so it's G♭.
4. **C: E**♭. D♯ and E♭ are enharmonic equivalents: the same key on the piano, written with a different letter name.
5. **D: 4 crotchets**. 4/4 is simple: the 4 means a crotchet beat, and there are 4 of them.
6. **C: Note 3**. The notes are F, E, A♯. Note 3 (A♯) is highest on the stave, and a sharp or flat only moves a note by a semitone, never past the next line or space.
7. **D: major 3rd**. Count the letters D E F: that's a 3rd. 4 semitones, so it's a major 3rd.
8. **B: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.

Day 21: Keys up to five sharps or flats; technical names

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"The notes of a scale have job titles. The dominant is the boss after the tonic, and the leading note leads us home."*

- Add B major / G♯ minor (five sharps) and D♭ major / B♭ minor (five flats).
- Degree names: tonic, supertonic, mediant, subdominant, dominant, submediant, leading note.
- Dominant is 5, subdominant is 4, leading note is 7.
- Watch out: G♯ harmonic minor raises its 7th from F♯ to F𝄪 (F double sharp), not G.

Worked example

What is the dominant of B♭ major?

1. The dominant is note 5.
2. Count up B♭ major: B♭, C, D, E♭, F.
3. Answer: F.

Watch out for

- Mixing up subdominant (4) and submediant (6).
- Forgetting that G♯ harmonic minor raises F♯ to F𝄪.

In the exam: Name a degree by its technical name, or name the key of a five-sharp or five-flat key signature.

Show her these cards

1

Five sharps: B major, and its relative minor G♯ minor.

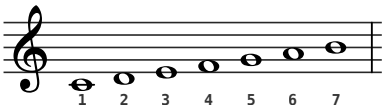

2

Five flats: D♭ major, and its relative minor B♭ minor.

3

Each scale note has a name: 1 tonic, 2 supertonic, 3 mediant, 4 subdominant, 5 dominant, 6 submediant, 7 leading note.

3 · DO TOGETHER (7 MIN)

- Name the dominant and subdominant in five keys.
- Label every degree of B major.

Four questions to work through together

1. Which flats are in D♭ major, in order?

A. B♭ E♭ A♭ D♭ G♭ B. G♭ D♭ A♭ E♭ B♭ C. F♭ C♭ G♭ D♭ A♭ D. B♭ E♭ A♭ D♭

Answer: B♭ E♭ A♭ D♭ G♭. D♭ major: B♭ E♭ A♭ D♭ G♭. Flats always come in the order B♭ E♭ A♭ D♭ G♭ C♭ F♭.

2. What is the dominant note of A major?

A. B B. E C. D D. F♯

Answer: E. The dominant is degree 5: E.

3. Which major key has this key signature? (Bass clef)

A. E♭ major B. D major C. D♭ major D. F major

Answer: D♭ major. The second-to-last flat is D♭, so D♭ major.

4. What is the dominant note of E major?

A. A B. B C. C♯ D. F♯

Answer: B. The dominant is degree 5: B.

4 · ON HER OWN (10 MIN)

- Write the five-sharp and five-flat key signatures in both clefs.
- Write the technical names of degrees 1–7 from memory.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Degree bingo: you call a name or number; she marks the matching square.

MOVE ON WHEN

Switches between degree names and numbers quickly in any key so far.

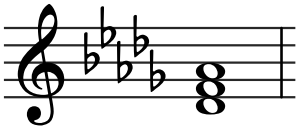

Faye's worksheet · Day 21

Name _____ Date _____ Score ___ / 8

1. Which is the key signature of G♯ minor?

A.  B.  C.  D. 

2. This is a tonic triad. Which key is it in?

A. D♭ major B. A major C. C major D. D♭ minor

3. Which pair of keys has 5 sharps?

A. G♯ major and B minor B. B major and G♯ minor C. B major and B minor D. B major and C♯ minor

4. What is the dominant note of F minor?

A. G B. B♭ C. D♭ D. C

5. How many flats are in the key signature of D♭ major?

Write your answer: _____

6. What is the dominant note of B♭ minor?

A. F B. G♭ C. E♭ D. C

7. Which major key has this key signature? (Bass clef)

A. G major B. E♭ major C. B♭ major D. B major

8. What is the dominant note of C♯ minor?

A. A B. G♯ C. D♯ D. F♯

ANSWERS (FOR MUM)

1. **B: 5 sharps**. G♯ minor has 5 sharps. It shares its key signature with its relative major, B major.
2. **A: D♭ major**. The bottom note is the tonic, D♭. With this key signature, that makes it the tonic triad of D♭ major.
3. **B: B major and G♯ minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): B major → G♯ minor.
4. **D: C**. The dominant is degree 5: C.
5. **5**. D♭ major has 5 flats: B♭, E♭, A♭, D♭, G♭.
6. **A: F**. The dominant is degree 5: F.
7. **D: B major**. The last sharp is A♯. One step up from it is B, so B major.
8. **B: G♯**. The dominant is degree 5: G♯.

Day 22: Intervals: augmented and diminished

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Intervals can stretch and squash, like a slinky. The number stays the same, but the name changes when it gets bigger or smaller."*

- Start from the major or perfect interval, then change one note chromatically.
- Major gets smaller to minor, then diminished. Perfect gets smaller to diminished. Major or perfect gets bigger to augmented.
- The number never changes when only an accidental changes.

Worked example

Name the interval C up to F♯.

1. Count the letters: C D E F. It's a 4th.
2. C up to F is a perfect 4th.
3. F♯ is one semitone higher, so it's an augmented 4th.

Watch out for

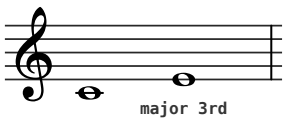

- Changing the number when an accidental changes.
- Calling a squashed perfect interval 'minor'. Perfect goes straight to diminished.

In the exam: Name intervals by number and quality, or choose the note that makes a given interval.

Show her these cards

1

Start with a major or perfect interval.

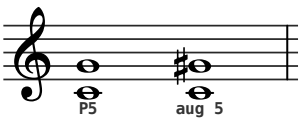

2

Make a major interval one semitone smaller: minor. Smaller again: diminished.

3

Make a major or perfect interval one semitone bigger: augmented.

4

The number never changes when only an accidental changes.

3 · DO TOGETHER (7 MIN)

- Build C–E, C–E♭ and C–E𝄫 and name each.
- Build C–G, C–G♭ and C–G♯.

Four questions to work through together

1. Name this interval. (A♭ up to F♯)

A. augmented 5th B. minor 6th C. major 6th D. augmented 6th

Answer: augmented 6th. Count the letters A B C D E F: that's a 6th. 10 semitones, so it's an augmented 6th.

2. Name this interval. (D♯ up to A)

A. diminished 4th B. diminished 5th C. diminished 6th D. augmented 5th

Answer: diminished 5th. Count the letters D E F G A: that's a 5th. 6 semitones, so it's a diminished 5th.

3. How many semitones are in an augmented octave?

A. 14 B. 12 C. 15 D. 13

Answer: 13. An augmented octave is 13 semitones: for example C up to C♯. Augmented is one semitone more than perfect.

4. Name this interval. (C up to B𝄫)

A. minor 7th B. diminished 7th C. diminished octave D. augmented 7th

Answer: diminished 7th. Count the letters C D E F G A B: that's a 7th. 9 semitones, so it's a diminished 7th.

4 · ON HER OWN (10 MIN)

- Name 10 intervals in the Intervals drill at Grade 4.
- Write four named intervals above given notes.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Interval surgery: she may change only one accidental to reach the target.

MOVE ON WHEN

8 out of 10 right from different starting notes.

Faye's worksheet · Day 22

Name _____ Date _____ Score ___ / 8

1. Name this interval. (G up to C♭)

A. diminished 3rd B. perfect 4th C. diminished 5th D. diminished 4th

2. Which note is an augmented octave above F?

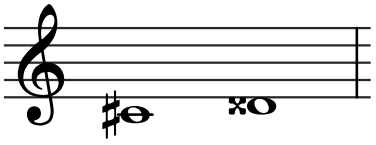

A. F𝄪 B. E♯ C. G♯ D. F♯

3. Name this interval. (C up to A♯)

A. minor 6th B. augmented 6th C. diminished 6th D. augmented 7th

4. Name this interval. (C♯ up to D𝄪)

A. augmented 2nd B. major 2nd C. minor 2nd D. augmented 3rd

5. How many semitones are in a diminished 4th?

A. 2 B. 3 C. 6 D. 4

6. Name this interval. (G up to A♯)

A. augmented 2nd B. major 2nd C. diminished 2nd D. augmented 3rd

7. Name this interval. (G up to B♯)

A. minor 3rd B. augmented 2nd C. major 3rd D. augmented 3rd

8. How many semitones are in an augmented octave?

A. 13 B. 14 C. 15 D. 12

ANSWERS (FOR MUM)

1. **D: diminished 4th**. Count the letters G A B C: that's a 4th. 4 semitones, so it's a diminished 4th.
2. **D: F♯**. Count 8 letters up from F to get F. An augmented octave is 13 semitones, so it's F♯.
3. **B: augmented 6th**. Count the letters C D E F G A: that's a 6th. 10 semitones, so it's an augmented 6th.
4. **A: augmented 2nd**. Count the letters C D: that's a 2nd. 3 semitones, so it's an augmented 2nd.
5. **D: 4**. A diminished 4th is 4 semitones: for example C up to F♭. Diminished is one semitone less than perfect.
6. **A: augmented 2nd**. Count the letters G A: that's a 2nd. 3 semitones, so it's an augmented 2nd.
7. **D: augmented 3rd**. Count the letters G A B: that's a 3rd. 5 semitones, so it's an augmented 3rd.
8. **A: 13**. An augmented octave is 13 semitones: for example C up to C♯. Augmented is one semitone more than perfect.

Day 23: Intervals between any two notes in a key

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

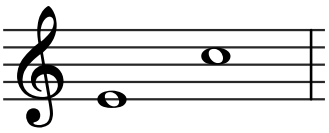

Say: *"We always stand on the bottom note and look up. If the top note belongs to the bottom note's major scale, it's major or perfect."*

- Treat the bottom note as a tonic. If the top note is in that major scale, the interval is major or perfect. If not, adjust.
- Watch for the tricky ones: F–B is an augmented 4th, and B–F is a diminished 5th.

Worked example

Name the interval E up to C.

1. Count the letters: E F G A B C. It's a 6th.
2. E major has C♯, so E up to C♯ would be a major 6th.
3. C is one semitone lower than C♯, so it's a minor 6th.

Watch out for

- Using the key of the piece instead of the bottom note's own major scale.
- Counting from the top note down.

In the exam: Name the interval between two marked notes in a melody.

Show her these cards

1

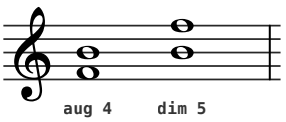

Pretend the bottom note is the key note. Is the top note in its major scale?

2

Yes: the interval is major or perfect. No: work out whether it's been stretched or squashed.

3

Tricky pair: F up to B is an augmented 4th. B up to F is a diminished 5th.

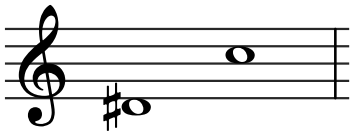

3 · DO TOGETHER (7 MIN)

- Name every interval in a short melody in G minor.
- Find the augmented 2nd in a harmonic minor scale.

Four questions to work through together

1. Name this interval. (D♯ up to C)

A. diminished octave B. diminished 7th C. major 7th D. diminished 6th

Answer: diminished 7th. Count the letters D E F G A B C: that's a 7th. 9 semitones, so it's a diminished 7th.

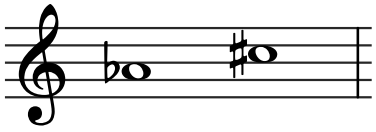

2. Name this interval. (D up to A♯)

A. augmented 6th B. augmented 5th C. augmented 4th D. perfect 5th

Answer: augmented 5th. Count the letters D E F G A: that's a 5th. 8 semitones, so it's an augmented 5th.

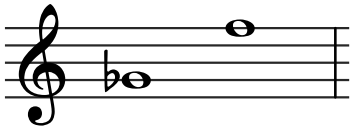

3. Name this interval. (A♭ up to C♯)

A. major 3rd B. diminished 3rd C. augmented 3rd D. augmented 2nd

Answer: augmented 3rd. Count the letters A B C: that's a 3rd. 5 semitones, so it's an augmented 3rd.

4. Name this interval. (G♭ up to F)

A. diminished 7th B. major 6th C. major 7th D. minor 7th

Answer: major 7th. Count the letters G A B C D E F: that's a 7th. 11 semitones, so it's a major 7th.

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Lento

1. Name the interval between the notes marked x and y.

A. minor 2nd B. major 3rd C. diminished 2nd D. major 2nd

Answer: minor 2nd. The notes are B and C: a minor 2nd.

2. Name the interval between the notes marked x and y.

A. minor 2nd B. major 3rd C. diminished 2nd D. major 2nd

Answer: minor 2nd. The notes are B and C: a minor 2nd.

3. Which key is this melody in?

A. A major B. B major C. C major D. C minor

Answer: C minor. The key signature has 3 flats, the raised 7th (B) shows it's minor, and the melody ends on C: C minor.

4. Which is the highest note in the melody?

A. B B. C C. A♭ D. G

Answer: C. The highest note is C, in bar 2.

4 · ON HER OWN (10 MIN)

- Name the intervals in today's music in the lesson pack.
- Do two rounds of the Intervals drill at Grade 4.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Two-note snap: flip two note cards and race to name the interval.

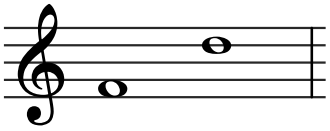

MOVE ON WHEN

Handles intervals that don't start on the tonic.

Faye's worksheet · Day 23

Name _____ Date _____ Score ____ / 8

1. Name this interval. (F up to D)

A. major 6th B. diminished 6th C. augmented 6th D. minor 6th

2. Name this interval. (F up to C♯)

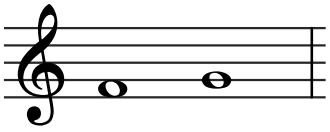

A. augmented 6th B. diminished 5th C. perfect 5th D. augmented 5th

3. Name this interval. (E♯ up to A𝄪)

A. perfect 4th B. augmented 5th C. augmented 4th D. diminished 4th

4. Name this interval. (F up to G)

A. major 2nd B. augmented 2nd C. major 3rd D. diminished 2nd

5. Name this interval. (C♯ up to G♯)

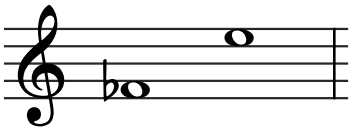

A. major 6th B. perfect 5th C. perfect 4th D. augmented 5th

6. Name this interval. (C♯ up to D)

A. augmented 2nd B. diminished 2nd C. minor 2nd D. minor 3rd

7. Name this interval. (F♭ up to E)

A. augmented octave B. minor 7th C. augmented 7th D. major 7th

8. Name this interval. (A up to C𝄪)

A. major 3rd B. minor 3rd C. augmented 3rd D. augmented 2nd

ANSWERS (FOR MUM)

1. **A: major 6th**. Count the letters F G A B C D: that's a 6th. 9 semitones, so it's a major 6th.
2. **D: augmented 5th**. Count the letters F G A B C: that's a 5th. 8 semitones, so it's an augmented 5th.
3. **C: augmented 4th**. Count the letters E F G A: that's a 4th. 6 semitones, so it's an augmented 4th.
4. **A: major 2nd**. Count the letters F G: that's a 2nd. 2 semitones, so it's a major 2nd.
5. **B: perfect 5th**. Count the letters C D E F G: that's a 5th. 7 semitones, so it's a perfect 5th.
6. **C: minor 2nd**. Count the letters C D: that's a 2nd. 1 semitones, so it's a minor 2nd.
7. **C: augmented 7th**. Count the letters F G A B C D E: that's a 7th. 12 semitones, so it's an augmented 7th.
8. **C: augmented 3rd**. Count the letters A B C: that's a 3rd. 5 semitones, so it's an augmented 3rd.

Day 24: Review: keys and intervals

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 21–23, using that day's plan.

Show her these cards

1

Five sharps: B major, and its relative minor G♯ minor.

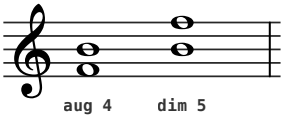

2

Start with a major or perfect interval.

3

Tricky pair: F up to B is an augmented 4th. B up to F is a diminished 5th.

3 · DO TOGETHER (7 MIN)

- Name the key signature, then three intervals, in today's music in the lesson pack.
- Build two augmented and two diminished intervals together.

Four questions to work through together

1. In a key signature, which is the 5th flat?

A. F♭ B. G♭ C. A♭ D. C♭

Answer: G♭. Flats always go in the same order: B♭ E♭ A♭ D♭ G♭ C♭ F♭. The 5th is G♭.

2. How many semitones are in a minor 2nd?

A. 2 B. 3 C. 1

Answer: 1. A minor 2nd is 1 semitone: for example C up to D♭. Minor is one semitone less than major.

3. Which is the key signature of B♭ major?

A. 

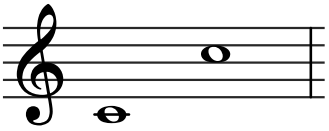

B. 

C. 

D. 

Answer: 2 flats. B♭ major has 2 flats.

4. How many semitones are in a perfect octave?

A. 14 B. 11 C. 10 D. 12

Answer: 12. A perfect octave is 12 semitones: for example C up to C.

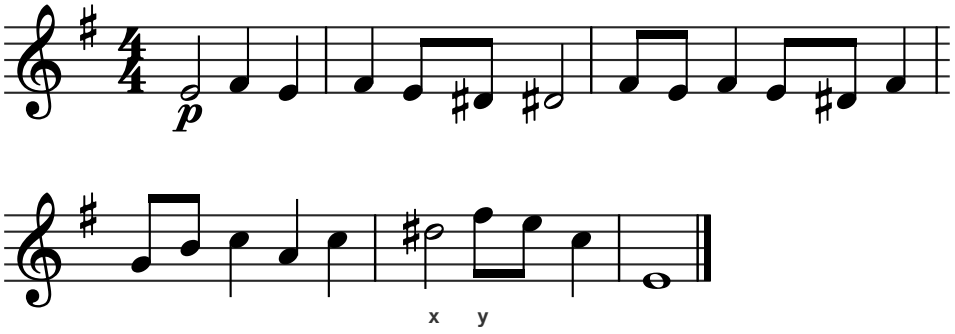

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Andante

1. Name the interval between the notes marked x and y.

A. minor 3rd B. major 3rd C. perfect 4th D. diminished 3rd

Answer: minor 3rd. The notes are D♯ and F♯: a minor 3rd.

2. Name the interval between the notes marked x and y.

A. minor 3rd B. major 3rd C. perfect 4th D. diminished 3rd

Answer: minor 3rd. The notes are D♯ and F♯: a minor 3rd.

3. Which key is this melody in?

A. G major B. F major C. C major D. E minor

Answer: E minor. The key signature has 1 sharp, the raised 7th (D♯) shows it's minor, and the melody ends on E: E minor.

4. Which is the highest note in the melody?

A. F♯ B. C C. D♯ D. B

Answer: F♯. The highest note is F♯, in bar 5.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Play Intervals in Faye's corner.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Interval surgery: she may change only one accidental to reach the target.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 24

Name _____ Date _____ Score ____ / 8

1. Which major key has this key signature? (Bass clef)

A. F major B. A♭ major C. D♭ major D. B♭ major

2. Which note is an augmented 3rd above E♭?

A. G♯ B. F♯ C. A♯ D. G𝄪

3. How many flats are in the key signature of G minor?

Write your answer: _____

4. Name this interval. (E up to G♯)

A. minor 3rd B. perfect 4th C. major 3rd D. augmented 3rd

5. Which sharps are in D major, in order?

A. F♯ B. B♯ E♯ C. F♯ C♯ D. C♯ F♯

6. Which note is a diminished 7th above F♯?

A. F♭ B. E♭ C. E D. E𝄫

7. In a key signature, which is the 1st flat?

A. B♭ B. G♭ C. F♭ D. D♭

8. Which note is an augmented 4th above F♭?

A. C♭ B. B𝄫 C. B♭ D. A♭

ANSWERS (FOR MUM)

1. **B: A♭ major**. The second-to-last flat is A♭, so A♭ major.
2. **A: G♯**. Count 3 letters up from E♭ to get G. An augmented 3rd is 5 semitones, so it's G♯.
3. **2**. G minor has 2 flats: B♭, E♭.
4. **C: major 3rd**. Count the letters E F G: that's a 3rd. 4 semitones, so it's a major 3rd.
5. **C: F♯ C♯**. D major: F♯ C♯. Sharps always come in the order F♯ C♯ G♯ D♯ A♯ E♯ B♯.
6. **B: E♭**. Count 7 letters up from F♯ to get E. A diminished 7th is 9 semitones, so it's E♭.
7. **A: B♭**. Flats always go in the same order: B♭ E♭ A♭ D♭ G♭ C♭ F♭. The 1st is B♭.
8. **C: B♭**. Count 4 letters up from F♭ to get B. An augmented 4th is 6 semitones, so it's B♭.

Day 25: Triads on I, IV and V

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"A chord is a snowman: three notes stacked with one gap between each. We name it by the scale note at the bottom."*

- A triad is 1-3-5 built on a scale note.
- Chord I is on the tonic, IV on the subdominant, V on the dominant.
- In a minor key, V uses the raised 7th of the harmonic minor, so V in A minor is E–G♯–B.

Worked example

Spell chord IV in D major.

1. Note 4 of D major is G.
2. Skip a note twice: G, B, D.
3. Answer: G–B–D.

Watch out for

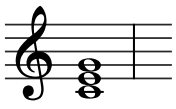

- Forgetting the raised 7th in chord V of a minor key.
- Building the chord on the wrong degree.

In the exam: Name chords I, IV and V written on the stave, or spell them.

Show her these cards

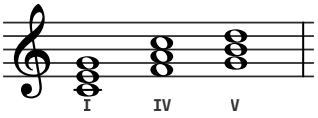

1

A triad is a note, a 3rd above it, and a 5th above it: like a snowman.

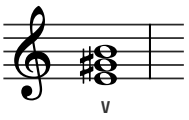

2

Chord I is on note 1, IV on note 4, and V on note 5.

3

In a minor key, chord V uses the raised 7th. In A minor, V is E–G♯–B.

3 · DO TOGETHER (7 MIN)

- Build I, IV and V in C, G and F major.
- Build I, IV and V in A and E minor, then play them and listen for the raised note.

Four questions to work through together

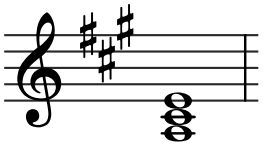

1. This is a tonic triad. Which key is it in?

A. E♭ major B. D major C. B major D. B minor

Answer: B major. The bottom note is the tonic, B. With this key signature, that makes it the tonic triad of B major.

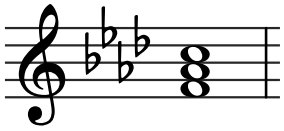

2. This is a tonic triad. Which key is it in?

A. D♭ major B. F major C. A major D. E♭ major

Answer: A major. The bottom note is the tonic, A. With this key signature, that makes it the tonic triad of A major.

3. This is a tonic triad. Which key is it in?

A. F minor B. B minor C. D minor D. C♯ minor

Answer: F minor. The bottom note is the tonic, F. With this key signature, that makes it the tonic triad of F minor.

4. Spell chord V in D♭ major.

A. G♭–B♭–D♭ B. F–A♭–C C. A♭–C–E♭ D. D♭–F–A♭

Answer: A♭–C–E♭. Chord V is built on degree 5, the dominant: A♭–C–E♭.

4 · ON HER OWN (10 MIN)

- Spell I, IV and V in D major and B minor.
- Identify three written triads.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Home-away-home: play I-IV-V-I; she calls 'home' on the tonic chord.

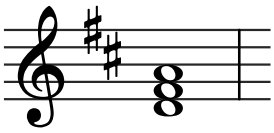

MOVE ON WHEN

Builds the chords from scale degrees, not from a memorised list.

Faye's worksheet · Day 25

Name _____ Date _____ Score ____ / 8

1. This is a tonic triad. Which key is it in?

A. D major B. D♭ major C. A♭ major D. D minor

2. Spell the tonic triad of E major.

A. E–G–B B. D–F♯–A C. B–D♯–F♯ D. E–G♯–B

3. Spell the tonic triad of B♭ major.

A. B♭–D–F B. B–D♯–F♯ C. D♭–F–A♭ D. E♭–G–B♭

4. What is the root of chord I in A♭ major?

A. A♭ B. E♭ C. G D. C

5. Spell the tonic triad of D♭ major.

A. A–C♯–E B. D♭–F♭–A♭ C. D♭–F–A♭ D. D–F♯–A

6. Spell chord V in B major.

A. B–D♯–F♯ B. D♯–F♯–A♯ C. E–G♯–B D. F♯–A♯–C♯

7. Spell the tonic triad of D major.

A. A♭–C–E♭ B. D–F♯–A C. E♭–G–B♭ D. D–F–A

8. Spell the tonic triad of G minor.

A. A–C–E B. G–B♯–D C. G–B♭–D D. D–F–A

ANSWERS (FOR MUM)

1. **A: D major**. The bottom note is the tonic, D. With this key signature, that makes it the tonic triad of D major.
2. **D: E–G♯–B**. Notes 1, 3 and 5 of E major: E–G♯–B.
3. **A: B♭–D–F**. Notes 1, 3 and 5 of B♭ major: B♭–D–F.
4. **A: A♭**. Chord I in A♭ major is A♭–C–E♭: root A♭, 3rd C, 5th E♭.
5. **C: D♭–F–A♭**. Notes 1, 3 and 5 of D♭ major: D♭–F–A♭.
6. **D: F♯–A♯–C♯**. Chord V is built on degree 5, the dominant: F♯–A♯–C♯.
7. **B: D–F♯–A**. Notes 1, 3 and 5 of D major: D–F♯–A.
8. **C: G–B♭–D**. Notes 1, 3 and 5 of G minor: G–B♭–D.

Day 26: Ornaments and orchestral instruments

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Ornaments are like sprinkles on a cupcake: they decorate a note. And every instrument belongs to a family, depending on how it makes its sound."*

- Ornament signs: trill, turn, upper mordent, lower mordent, acciaccatura, appoggiatura.
- Instrument families: strings, woodwind, brass, percussion.
- How each makes sound: bowed or plucked strings; air across a hole or through a reed; buzzing lips; struck or shaken.

Worked example

Which family is the bassoon in, and how does it make its sound?

1. The bassoon is blown, so it's wind.
2. It's made of wood and uses a reed, so woodwind.
3. Its reed is a double reed, like the oboe's.

Watch out for

- The saxophone is woodwind, even though it's made of metal: it has a reed.
- Upper and lower mordent: the lower one has a small line through it.

In the exam: Name an ornament sign, or say an instrument's family, its clef, or how it makes its sound.

Show her these cards

1

Ornaments decorate a note. tr is a trill, the sideways S is a turn, and the short zigzags are mordents.

2

An acciaccatura is a tiny 'crushed' note with a slash, played as fast as possible. An appoggiatura has no slash and 'leans', taking time from the main note.

3

Four families: strings, woodwind, brass and percussion.

4

Strings are bowed or plucked. Woodwind: blow across a hole, or through a reed. Brass: buzz your lips. Percussion: hit or shake.

3 · DO TOGETHER (7 MIN)

- Find the ornaments on Faye's picture card 1.
- Sort 16 instruments by family and clef.

Four questions to work through together

1. What is this ornament called?

A. upper mordent B. lower mordent C. trill D. turn

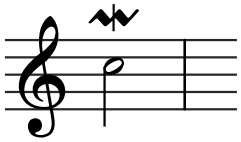

Answer: turn. That sign is a turn.

2. Which family does the harp belong to?

A. woodwind B. brass C. strings D. percussion

Answer: strings. The harp is in the strings family.

3. What is this ornament called?

A. lower mordent B. turn C. upper mordent D. trill

Answer: lower mordent. That sign is a lower mordent.

4. Which family makes sound with buzzing lips?

Instruments

A. strings B. percussion C. woodwind D. brass

Answer: brass. Brass players buzz their lips into a mouthpiece.

4 · ON HER OWN (10 MIN)

- Match five ornament signs to their names.
- Say how the flute, clarinet, trumpet and cello make sound.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Orchestra speed-sort: 30 seconds to put instrument names into family columns.

MOVE ON WHEN

Recognises every ornament and places all the standard instruments.

Faye's worksheet · Day 26

Name _____ Date _____ Score ___ / 8

1. A small note without a slash, which takes part of the time of the main note, is called:

Grace notes

A. trill B. acciaccatura C. turn D. appoggiatura

2. Which family makes sound with buzzing lips?

Instruments

A. percussion B. strings C. woodwind D. brass

3. Which picture shows a turn?

A.  B.  C.  D. 

4. Which of these does the flute NOT need to make a sound?

Instruments

A. air B. a reed C. keys to change notes D. a player

5. What is this ornament called?

A. turn B. lower mordent C. upper mordent D. trill

6. Which family does the flute belong to?

A. strings B. woodwind C. brass D. percussion

7. What does this sign mean?

A. note above, the note, note below, the note B. play the notes smoothly, joined together C. the note, the note below, the note again, quickly D. hold the note for its full length

8. Which family does the clarinet belong to?

A. strings B. percussion C. woodwind D. brass

ANSWERS (FOR MUM)

1. **D: appoggiatura**. An appoggiatura 'leans' on the main note and takes some of its time. It has no slash.
2. **D: brass**. Brass players buzz their lips into a mouthpiece.
3. **A: turn**. Turn means note above, the note, note below, the note.
4. **B: a reed**. The flute has no reed: you blow across the hole.
5. **C: upper mordent**. That sign is a upper mordent.
6. **B: woodwind**. The flute is in the woodwind family.
7. **A: note above, the note, note below, the note**. That's a turn: note above, the note, note below, the note.
8. **C: woodwind**. The clarinet is in the woodwind family.

Day 27: Grade 4 terms; questions on a longer extract

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"These are the grown-up words, mostly Italian and a few French. Let's sort them into speed, loudness and mood."*

- Use the Musical terms drill at Grade 4 to find gaps. Grade 4 adds six French words: lent, vite, modéré, animé, retenu and douce.
- Music-in-context questions now also ask which instrument could play the music, and why.

Worked example

A violin part says 'pizz.' and then later 'arco'. What does the player do?

1. pizz. is short for pizzicato: pluck the strings.
2. arco means with the bow.
3. So she plucks, then goes back to bowing.

Watch out for

- Mixing up stringendo (getting faster) and calando (getting quieter and slower).
- Forgetting that loco after an 8va sign means back to normal pitch.

In the exam: The terms section, and the music in context questions on a longer extract.

Show her these cards

1

New words: agitato (restless), animato (lively), scherzando (playfully), appassionato (passionately), misterioso (mysteriously).

2

Some French words too: lent (slow), vite (quick), modéré (moderate speed), animé (lively), retenu (held back), douce (sweet).

3

Strings: pizzicato means pluck, arco means use the bow again, con sordino means with a mute.

4

Piano: una corda means press the soft pedal; tre corde means let it go.

5

Detective order: clef, key, time signature, then everything else.

3 · DO TOGETHER (7 MIN)

- Go through today's music in the lesson pack together: key, time signature, intervals, ornaments, terms.

Four questions to work through together

1. Which term means "simply"?

Find the term

A. retenu B. delicato C. senza D. semplice

Answer: semplice. semplice is Italian for "simply".

2. Which term means "very"?

Find the term

A. tre corde B. maestoso C. marcato D. assai

Answer: assai. assai is Italian for "very".

3. What does this mean?

legato

A. rather slow (less slow than largo) B. gradually getting faster C. smoothly D. with movement

Answer: smoothly. legato is Italian for "smoothly".

4. What does this mean?

l'istesso tempo

A. with some freedom of time B. smoothly C. loud D. at the same speed

Answer: at the same speed. l'istesso tempo is Italian for "at the same speed".

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Allegro

1. Which key is this melody in?

A. C major B. G major C. B major D. B♭ major

Answer: C major. The key signature has no sharps or flats and the melody ends on C: C major.

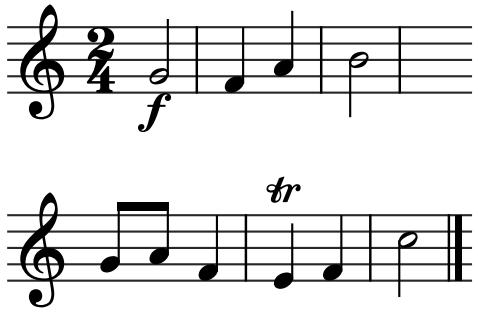

2. Name the interval between the notes marked x and y.

A. diminished 2nd B. major 2nd C. major 3rd D. minor 2nd

Answer: major 2nd. The notes are G and A: a major 2nd.

3. What is the ornament in bar 5 called?

A. turn B. acciaccatura C. trill D. upper mordent

Answer: trill. The sign above the note in bar 5 is a trill.

4. What does "Allegro" mean?

A. in a singing style B. sweetly C. fast, lively D. very quiet

Answer: fast, lively. Allegro means fast, lively.

4 · ON HER OWN (10 MIN)

- The questions on today's music in the lesson pack, without help.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Score scavenger hunt: race to find five features in today's music in the lesson pack.

MOVE ON WHEN

80% or more across mixed questions.

Faye's worksheet · Day 27

Name _____ Date _____ Score ____ / 8

1. Which term means the opposite of adagio?

A. piano B. arco C. legato D. allegro

2. Which term means "at the same speed"?

Find the term

A. l'istesso tempo B. pianissimo (pp) C. con D. retenu

3. What does this mean?

energico

A. the end B. with a mute C. delicately D. with energy

4. What does this mean?

con sordino

A. heavily B. at a walking pace C. repeat from the beginning and stop at Fine D. with a mute

5. Which term means "back to the original speed"?

Find the term

A. allegro B. a tempo C. rubato D. vivace

6. Which term means "as before"?

Find the term

A. misterioso B. senza C. come prima D. leggiero

7. Which term means "sustained"?

Find the term

A. risoluto B. mezzo piano (mp) C. sostenuto D. modéré

8. What does this mean?

deciso

A. more B. calmly C. decisively D. as before

ANSWERS (FOR MUM)

1. **D: allegro**. adagio and allegro are opposites.
2. **A: l'istesso tempo**. l'istesso tempo is Italian for "at the same speed".
3. **D: with energy**. energico is Italian for "with energy".
4. **D: with a mute**. con sordino is Italian for "with a mute".
5. **B: a tempo**. a tempo is Italian for "back to the original speed".
6. **C: come prima**. come prima is Italian for "as before".
7. **C: sostenuto**. sostenuto is Italian for "sustained".
8. **C: decisively**. deciso is Italian for "decisively".

Day 28: Review: everything in Grade 4

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 15–27, using that day's plan.

Show her these cards

1

In compound time, divide the top number by 3. 6/8 → 2 beats → compound duple.

2

A dot adds half. A second dot adds half of that again.

3

A double sharp 𝄪 lifts a note up two semitones. A double flat 𝄫 drops it two.

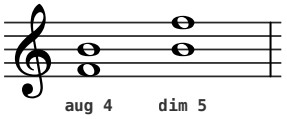

4

Five sharps: B major, and its relative minor G♯ minor.

5

Tricky pair: F up to B is an augmented 4th. B up to F is a diminished 5th.

6

Ornaments decorate a note. tr is a trill, the sideways S is a turn, and the short zigzags are mordents.

3 · DO TOGETHER (7 MIN)

- Do one question from each Grade 4 topic together.
- Find an ornament, a triad and an interval in today's music in the lesson pack.

Four questions to work through together

1. Which note lasts as long as two quavers?

A. 

B. 

C. 

D. 

Answer: crotchet. Two quavers last 1 beat, the same as a crotchet.

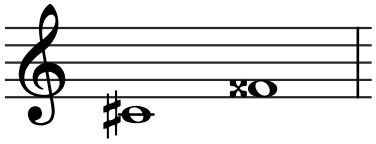

2. Is this note above, below or at middle C? (Alto clef)

A. Above middle C B. Below middle C C. It is middle C

Answer: It is middle C. In the alto clef, middle C is on the middle line. This note is C, exactly middle C.

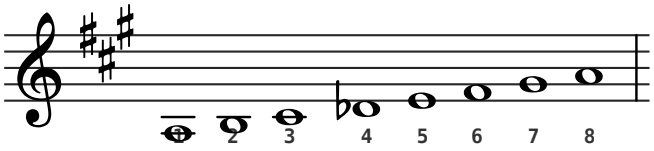

3. Name this interval. (C♯ up to F𝄪)

A. diminished 4th B. augmented 3rd C. perfect 4th D. augmented 4th

Answer: augmented 4th. Count the letters C D E F: that's a 4th. 6 semitones, so it's an augmented 4th.

4. One note in this A major scale is wrong. Which number is it?

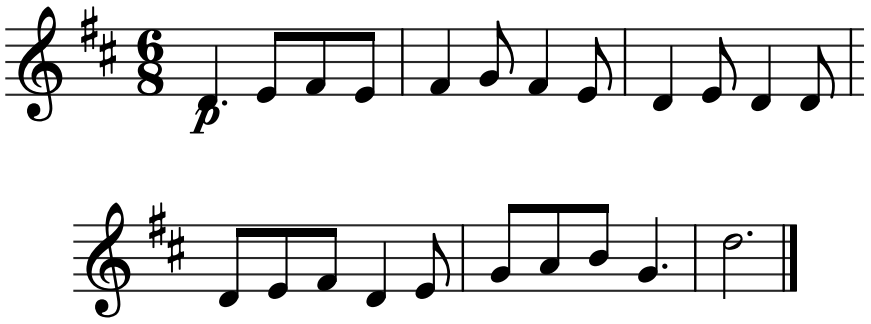

Write your answer: _____

Answer: 4. Note 4 should be D, not D♭. Major scales go tone, tone, semitone, tone, tone, tone, semitone.

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Allegro

1. Which key is this melody in?

A. B minor B. E major C. E♭ major D. D major

Answer: D major. The key signature has 2 sharps and the melody ends on D: D major.

2. Name the interval between the notes marked x and y.

A. minor 2nd B. major 2nd C. diminished 2nd D. major 3rd

Answer: major 2nd. The notes are E and F♯: a major 2nd.

3. What is the ornament in bar 3 called?

A. upper mordent B. acciaccatura C. turn D. lower mordent

Answer: turn. The sign above the note in bar 3 is a turn.

4. What does "Allegro" mean?

A. very loud B. playful, merry C. at the same speed D. fast, lively

Answer: fast, lively. Allegro means fast, lively.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Fix my mistakes until the list is short.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Score scavenger hunt: race to find five features in today's music in the lesson pack.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 28

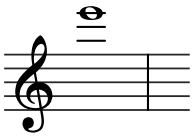

Name _____ Date _____ Score ___ / 8

1. A minim tied to a minim. How many crotchet beats is that?

Ties

A. 2 B. 4 C. 5 D. 8

2. Name this note. (Treble clef)

Write your answer: _____

3. Name this interval. (A up to B𝄫)

A. diminished 3rd B. diminished 2nd C. major 2nd D. augmented 2nd

4. Which note sounds the same as F♯?

A. G♭ B. G C. E♯ D. F♭

5. Which minor key has this key signature? (Bass clef)

A. C♯ minor B. C minor C. G♯ minor D. B♭ minor

6. Spell chord I in E major.

A. C♯–E–G♯ B. A–C♯–E C. B–D♯–F♯ D. E–G♯–B

7. A tiny note with a slash through its stem, played as quickly as possible before the main note, is called:

Grace notes

A. turn B. mordent C. acciaccatura D. trill

8. What does this mean?

energico

A. expressively B. slow and stately C. in the same way D. with energy

ANSWERS (FOR MUM)

1. **B: 4**. A tie joins the two notes into one sound: 2 + 2 = 4 beats.
2. **E**. E. Landmark: C, two ledger lines above. This note is 2 steps above it: C, D, E.
3. **B: diminished 2nd**. Count the letters A B: that's a 2nd. 0 semitones, so it's a diminished 2nd.
4. **A: G♭**. F♯ and G♭ are enharmonic equivalents: the same key on the piano, written with a different letter name.
5. **D: B♭ minor**. The second-to-last flat is D♭, so D♭ major. Its relative minor, on degree 6, is B♭ minor.
6. **D: E–G♯–B**. Chord I is built on degree 1, the tonic: E–G♯–B.
7. **C: acciaccatura**. An acciaccatura is a 'crushed' note: tiny, with a slash, played as fast as possible.
8. **D: with energy**. energico is Italian for "with energy".

Day 29: Grade 4 practice paper

G4 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“You've done lots of new things since the last paper. Let's see how much you've grown.”*

- No new material.
- For more practice: Grade 4 practice paper 2 and the Grade 4 question bank are in the Papers list.

Worked example

Plan the two hours.

1. About 15 minutes for each of the 7 sections.
2. Leave 10 minutes at the end to check.
3. If a section takes much longer, move on and come back.

Watch out for

- Spending too long on the first section and rushing the last one (music in context).
- Forgetting to check key signatures in bass clef answers.

In the exam: Same format as Grade 5: online, about 2 hours, 75 marks.

Show her these cards

1

Grade 4 practice paper! Use the same plan: read twice, skip if stuck, check at the end.

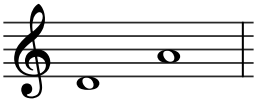

2

Checking list: clef, key signature, time signature. Look at all three before you answer.

3

For intervals, count the letters first, then check major, minor or perfect.

3 · DO TOGETHER (7 MIN)

- Exam conditions. Use a computer if you can.

4 · ON HER OWN (10 MIN)

- Our Grade 4 practice paper (the button is in today's lesson pack), timed at 2 hours. Two 1-hour halves is fine.
- Mark it together and sort every mistake by type.

5 · GAME (3 MIN)

Her choice of game as a reward.

MOVE ON WHEN

About 60/75 or more: start Grade 5. 50–59: pass level. Spend one extra day on the red strands, then start Grade 5. Below 50: repeat the days for the red strands first.
