Day 30: Irregular time signatures: 5/4, 7/4, 5/8, 7/8

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Irregular time is a wonky dance: some steps are short and some are long. We clap it as 1-2, 1-2-3."*

- Fix the red topics from the Grade 4 paper first.
- Irregular time signatures split into groups of 2 and 3: 5/8 is 2+3 or 3+2.
- Beams show the grouping the composer wants.

Worked example

Bars of 7/8 are beamed 3+2+2. How is that counted?

1. Count the quavers in each group: 3, then 2, then 2.
2. 3 + 2 + 2 = 7 quavers, so 7/8 fits.
3. Say it: 1-2-3, 1-2, 1-2.

Watch out for

- Calling 5/8 compound. It's irregular.
- Grouping 7/8 as 4+3. Use groups of 2s and 3s.

In the exam: Add the time signature to irregular bars, or choose the correct grouping.

Show her these cards

1

5/8 has five quavers in a bar, grouped 2+3 or 3+2.

2

7/8 splits into 2+2+3, 2+3+2 or 3+2+2.

3

5/4 and 7/4 work the same way, with crotchets.

3 · DO TOGETHER (7 MIN)

- Clap 5/8 as 2+3, then as 3+2.
- Compare two ways of grouping 7/8.

Four questions to work through together

1. Which of these is an irregular time signature?

Irregular time

A. 2/2 B. 6/8 C. 9/8 D. 7/8

Answer: 7/8. 7/8 can't be split into equal groups of 2 or 3, so it's irregular.

2. Which of these is an irregular time signature?

Irregular time

A. 7/4 B. 4/4 C. 12/8 D. 9/8

Answer: 7/4. 7/4 can't be split into equal groups of 2 or 3, so it's irregular.

3. Which of these is an irregular time signature?

Irregular time

A. 6/8 B. 5/4 C. 2/2 D. 3/4

Answer: 5/4. 5/4 can't be split into equal groups of 2 or 3, so it's irregular.

4. Which of these is an irregular time signature?

Irregular time

A. 5/8 B. 12/8 C. 6/8 D. 3/4

Answer: 5/8. 5/8 can't be split into equal groups of 2 or 3, so it's irregular.

4 · ON HER OWN (10 MIN)

- Group three irregular bars correctly.
- Add the time signature to four irregular bars.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Odd-metre walk: take five steps as 2+3, then 3+2, and feel where the accents move.

MOVE ON WHEN

Names the time signature and shows the grouping, not just the total.

Faye's worksheet · Day 30

Name _____ Date _____ Score ____ / 8

1. Which of these is an irregular time signature?

Irregular time

A. 12/8 B. 6/8 C. 3/4 D. 5/8

2. Which of these is an irregular time signature?

Irregular time

A. 12/8 B. 2/2 C. 7/4 D. 6/8

3. How can the beats in 5/4 be grouped?

A. 4+1 B. 2+2+3, 2+3+2 or 3+2+2 C. 3+3 D. 2+3 or 3+2

4. How can the beats in 7/8 be grouped?

A. 2+3 or 3+2 B. 2+2+3, 2+3+2 or 3+2+2 C. 4+1 D. 3+3

5. Which of these is an irregular time signature?

Irregular time

A. 3/4 B. 4/4 C. 2/2 D. 7/8

6. How can the beats in 5/8 be grouped?

A. 2+2+2 B. 4+1 C. 3+3 D. 2+3 or 3+2

7. What kind of time signature is this?

A. irregular B. compound quadruple C. simple duple D. simple triple

8. Which of these is an irregular time signature?

Irregular time

A. 4/4 B. 3/4 C. 5/4 D. 6/8

ANSWERS (FOR MUM)

1. **D: 5/8**. 5/8 can't be split into equal groups of 2 or 3, so it's irregular.
2. **C: 7/4**. 7/4 can't be split into equal groups of 2 or 3, so it's irregular.
3. **D: 2+3 or 3+2**. 5/4 is irregular: the 5 crotchets are grouped in 2s and 3s: 2+3 or 3+2.
4. **B: 2+2+3, 2+3+2 or 3+2+2**. 7/8 is irregular: the 7 quavers are grouped in 2s and 3s: 2+2+3, 2+3+2 or 3+2+2.
5. **D: 7/8**. 7/8 can't be split into equal groups of 2 or 3, so it's irregular.
6. **D: 2+3 or 3+2**. 5/8 is irregular: the 5 quavers are grouped in 2s and 3s: 2+3 or 3+2.
7. **A: irregular**. 5 doesn't split into equal groups of 2 or 3, so 5/4 is irregular. Group it as 2+3 or 3+2.
8. **C: 5/4**. 5/4 can't be split into equal groups of 2 or 3, so it's irregular.

Day 31: Irregular groups: quintuplets, sextuplets, septuplets

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"An irregular group is like squeezing five friends onto a bench made for four. They fit, but they have to squash together."*

- An irregular group replaces a normal group. In simple time, 5, 6 or 7 notes fill the time of 4 of the same kind: five semiquavers fill one crotchet beat.
- The number over the group says which it is.
- The length of the group stays the same as the normal group it replaces.

Worked example

How long does a quintuplet of semiquavers last?

1. 5 semiquavers take the time of 4 normal semiquavers.
2. 4 semiquavers make a crotchet.
3. Answer: one crotchet beat.

Watch out for

- Thinking an irregular group makes the bar longer.
- Mixing duplets (compound time) with triplets (simple time).

In the exam: Complete a bar that contains an irregular group, or say how long the group lasts.

Show her these cards

1

A triplet: 3 notes in the time of 2.

2

Quintuplet 5, sextuplet 6, septuplet 7: all fit into the time of 4 of the same note.

3

The group takes exactly the same time as the normal group it replaces.

3 · DO TOGETHER (7 MIN)

- Work out how long each irregular group lasts.
- Complete bars that contain irregular groups.

Four questions to work through together

1. A quintuplet of semiquavers (marked 5) takes the time of how many ordinary semiquavers?

Quintuplet

A. 2 B. 5 C. 4 D. 3

Answer: 4. Five semiquavers in a quintuplet take the time of four.

2. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 4 B. 6 C. 2 D. 5

Answer: 2. Three quavers in a triplet take the time of two.

3. A duplet of quavers (marked 2) takes the time of how many ordinary quavers?

Duplet

A. 6 B. 2 C. 5 D. 3

Answer: 3. A duplet fits two quavers into the time of three, in compound time.

4. A septuplet of semiquavers (marked 7) takes the time of how many ordinary semiquavers?

Septuplet

A. 6 B. 4 C. 5 D. 3

Answer: 4. Seven semiquavers in a septuplet take the time of four.

4 · ON HER OWN (10 MIN)

- Write the missing number over four irregular groups.
- Add one missing rest to bars that contain irregular groups.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Stretch it: clap 4, then 5, 6 and 7 notes into the same beat.

MOVE ON WHEN

Explains which normal group each irregular group replaces.

Faye's worksheet · Day 31

Name _____ Date _____ Score ____ / 8

1. A quintuplet of semiquavers (marked 5) takes the time of how many ordinary semiquavers?

Quintuplet

A. 2 B. 5 C. 6 D. 4

2. A septuplet of semiquavers (marked 7) takes the time of how many ordinary semiquavers?

Septuplet

A. 6 B. 5 C. 4 D. 3

3. A duplet of quavers (marked 2) takes the time of how many ordinary quavers?

Duplet

A. 3 B. 4 C. 5 D. 2

4. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 5 B. 2 C. 6 D. 3

5. A sextuplet of semiquavers (marked 6) takes the time of how many ordinary semiquavers?

Sextuplet

A. 5 B. 4 C. 3 D. 2

6. A sextuplet of semiquavers (marked 6) takes the time of how many ordinary semiquavers?

Sextuplet

A. 3 B. 6 C. 2 D. 4

7. A sextuplet of semiquavers (marked 6) takes the time of how many ordinary semiquavers?

Sextuplet

A. 6 B. 4 C. 3 D. 5

8. A sextuplet of semiquavers (marked 6) takes the time of how many ordinary semiquavers?

Sextuplet

A. 4 B. 5 C. 3 D. 6

ANSWERS (FOR MUM)

1. **D: 4**. Five semiquavers in a quintuplet take the time of four.
2. **C: 4**. Seven semiquavers in a septuplet take the time of four.
3. **A: 3**. A duplet fits two quavers into the time of three, in compound time.
4. **B: 2**. Three quavers in a triplet take the time of two.
5. **B: 4**. Six semiquavers in a sextuplet take the time of four.
6. **D: 4**. Six semiquavers in a sextuplet take the time of four.
7. **B: 4**. Six semiquavers in a sextuplet take the time of four.
8. **A: 4**. Six semiquavers in a sextuplet take the time of four.

Day 32: Tenor clef and reading in four clefs

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

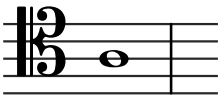

Say: *"The tenor clef is the alto clef's cousin. It's the same C clef, but it sits one line higher."*

- Tenor clef puts middle C on the 4th line. Cellists use it for high notes.
- Use middle C as the anchor in every clef.
- The exam asks her to name notes in all four clefs.
- Tenor-clef key signatures have their own shape: the first sharp, F♯, sits low on the 2nd line, not at the top. Copy the pattern from a model.

Worked example

Name the note on the middle line of the tenor clef.

1. The 4th line is middle C.
2. One line down from the 4th line is the middle line: two steps below C.
3. C, B, A. Answer: A.

Watch out for

- Mixing up alto (middle C on the middle line) and tenor (middle C on the 4th line).
- Copying the treble-clef key signature shape into tenor clef.

In the exam: Name notes in tenor clef, or choose the correctly written key signature.

Show her these cards

1

Tenor clef is a C clef on the 4th line. That line is middle C.

middle C

2

The tenor-clef lines, from the bottom: D, F, A, C, E.

3

Cellos, bassoons and trombones use tenor clef for their high notes, just like your cello music.

4

Tenor-clef key signatures have their own shape: the first sharp sits low.

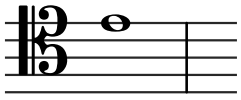

3 · DO TOGETHER (7 MIN)

- Name ten tenor-clef notes from the lesson pack worksheet.
- Write the same pitch in treble, alto, tenor and bass.

Four questions to work through together

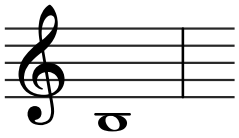

1. Name this note. (Tenor clef)

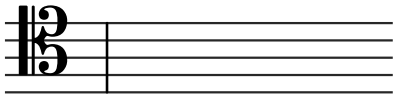

Write your answer: _____

Answer: E. E. It's the landmark E: the top line.

2. Write this note at the same pitch in tenor clef. (Given in treble clef)

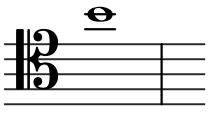

Write your answer on this stave:

Answer: B (tenor clef, 1 step below middle C). It's B, 1 step below middle C. In tenor clef middle C is the 4th line, so count from there.

3. Name this note. (Tenor clef)

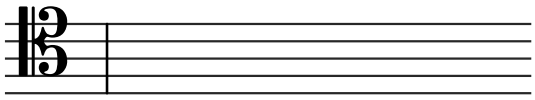

Write your answer: _____

Answer: B. B. Landmark: G, one ledger line above. This note is 2 steps above it: G, A, B.

4. Write this tune at the same pitch in tenor clef. (Given in treble clef)

Write your answer on this stave:

Answer: C, E, D (tenor clef). The notes are C, E, D, written at the same pitch.

4 · ON HER OWN (10 MIN)

- Name eight tenor-clef notes.
- Run the Notes drill at Grade 5, which uses all four clefs.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Clef race: you point to a tenor-clef note on the worksheet; she names it before you count to three.

MOVE ON WHEN

Reads tenor clef by shape and middle C, not note by note.

Faye's worksheet · Day 32

Name _____ Date _____ Score ____ / 8

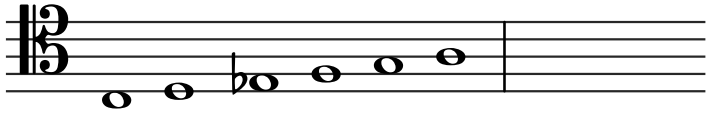

1. Is this note above, below or at middle C? (Tenor clef)

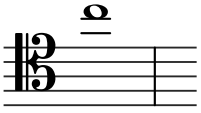

A. Above middle C B. Below middle C C. It is middle C

2. Here is the start of C melodic minor, going up. Write the next note. (Tenor clef · no key signature, so use an accidental if it needs one)

Write your answer on this stave:

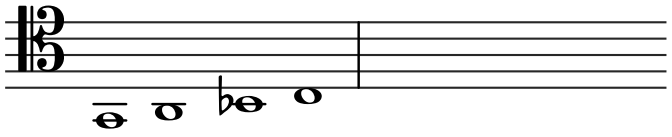

3. Name this note. (Tenor clef)

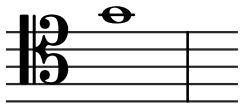

Write your answer: _____

4. Finish the scale of G melodic minor, going up: write notes 5, 6, 7 and 8. (Tenor clef · no key signature, so use accidentals)

Write your answer on this stave:

5. Name this note. (Tenor clef)

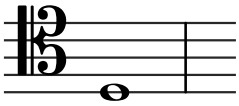

Write your answer: _____

6. Here is the start of F major, going down. Write the next note. (Tenor clef · no key signature, so use an accidental if it needs one)

Write your answer on this stave:

7. Name this note. (Tenor clef)

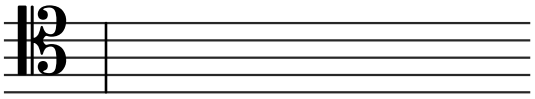

Write your answer: _____

8. Write this tune at the same pitch in tenor clef. (Given in treble clef)

Write your answer on this stave:

ANSWERS (FOR MUM)

1. **B: Below middle C**. In the tenor clef, middle C is on the 4th line up. This note is D, 6 steps below it.
2. **B (tenor clef, 1 step below middle C)**. Note 7 of C melodic minor is B. Melodic minor raises the 6th and 7th going up.
3. **C**. C. Landmark: G, one ledger line above. This note is 3 steps above it: G, A, B, C.
4. **D, E, F♯, G (tenor clef)**. Notes 5 to 8 of G melodic minor are D, E, F♯, G.
5. **G**. G. It's the landmark G: one ledger line above.
6. **B♭ (tenor clef, 1 step below middle C)**. Note 4 of F major is B♭.
7. **D**. D. It's the landmark D: the bottom line.
8. **E, G, F (tenor clef)**. The notes are E, G, F, written at the same pitch.

Day 33: Rewriting a melody in another clef

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

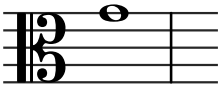

Say: *"It's like translating a word into another language: it means exactly the same thing, but it looks different."*

- Rewriting at the same pitch in another clef moves the notes on the stave but doesn't change how they sound.
- Carry over the key signature (in its new positions), rhythm and accidentals.
- Check the first and last notes against middle C.

Worked example

Rewrite the treble-clef G above middle C in alto clef, at the same pitch.

1. That G is the fifth letter up from middle C: C, D, E, F, G.
2. In alto clef, middle C is the middle line. Count up the lines and spaces: C, D, E, F, G.
3. G is on the top line.

Watch out for

- Moving the melody an octave by mistake.
- Leaving out the key signature in the new clef.

In the exam: Rewrite a short melody at the same pitch in another clef.

Show her these cards

1

Same pitch in a different clef: the note moves on the stave, but sounds exactly the same.

2

Use middle C as your anchor: treble, a ledger line below. Bass, a ledger line above. Alto, the middle line. Tenor, the 4th line.

alto

3

Copy the rhythm, the accidentals and the key signature too.

3 · DO TOGETHER (7 MIN)

- Rewrite four bars from treble into alto clef at the same pitch.

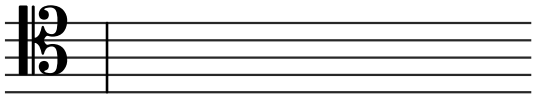

- Rewrite a bass-clef phrase in tenor clef.

Four questions to work through together

1. Write this tune at the same pitch in tenor clef. (Given in treble clef)

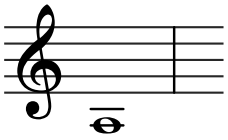

Write your answer on this stave:

Answer: E, G, F (tenor clef). The notes are E, G, F, written at the same pitch.

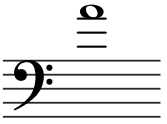

2. Which is the same note, written in bass clef? (Treble clef)

A. 

B. 

C. 

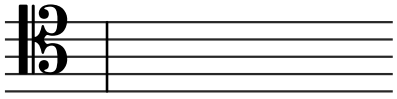

D. 

Answer: bass clef note A3. It's A, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.

3. Write this note at the same pitch in tenor clef. (Given in bass clef)

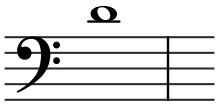

Write your answer on this stave:

Answer: B♯ (tenor clef, 1 step below middle C). It's B♯, 1 step below middle C. In tenor clef middle C is the 4th line, so count from there.

4. Which is the same note, written in treble clef? (Bass clef)

A. 

B. 

C. 

D. 

Answer: treble clef note D4. It's D, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.

4 · ON HER OWN (10 MIN)

- Rewrite a short tenor-clef melody in bass clef.
- Check it with Hear it in the app: both versions sound the same.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Clef swap: she sets you one and marks your answer.

MOVE ON WHEN

Key signature, accidentals and rhythm all carried over correctly.

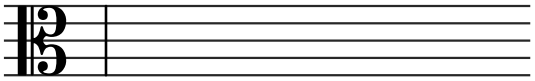

Faye's worksheet · Day 33

Name _____ Date _____ Score ___ / 8

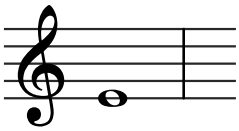

1. Write this tune at the same pitch in alto clef. (Given in treble clef)

Write your answer on this stave:

2. Which is the same note, written in bass clef? (Treble clef)

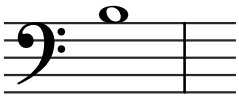

A. 

B. 

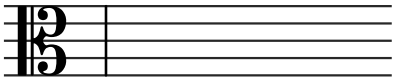

C. 

D. 

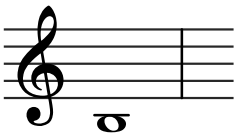

3. Write this note at the same pitch in alto clef. (Given in bass clef)

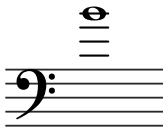

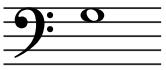

Write your answer on this stave:

4. Which is the same note, written in bass clef? (Treble clef)

A. 

B. 

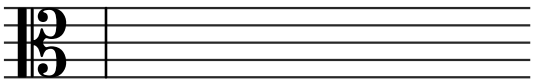

C. 

D. 

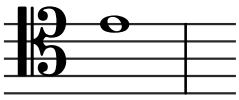

5. Write this tune at the same pitch in alto clef. (Given in treble clef)

Write your answer on this stave:

6. Is this note above, below or at middle C? (Tenor clef)

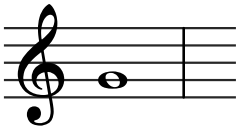

A. Above middle C

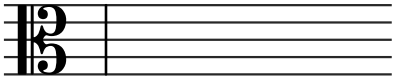

B. Below middle C

C. It is middle C

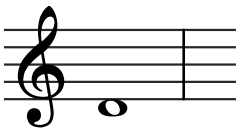

7. Write this note at the same pitch in alto clef. (Given in treble clef)

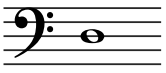

Write your answer on this stave:

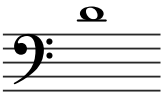

8. Which is the same note, written in bass clef? (Treble clef)

A. 

B. 

C. 

D. 

ANSWERS (FOR MUM)

1. **C, E, D (alto clef)**. The notes are C, E, D, written at the same pitch.
2. **D: bass clef note E4**. It's E, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.
3. **B (alto clef, 1 step below middle C)**. It's B, 1 step below middle C. In alto clef middle C is the middle line, so count from there.
4. **D: bass clef note B3**. It's B, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.
5. **D, F, E (alto clef)**. The notes are D, F, E, written at the same pitch.
6. **A: Above middle C**. In the tenor clef, middle C is on the 4th line up. This note is E, 2 steps above it.
7. **G (alto clef, 4 steps above middle C)**. It's G, 4 steps above middle C. In alto clef middle C is the middle line, so count from there.
8. **D: bass clef note D4**. It's D, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.

Day 34: Review: irregular time and the four clefs

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 30–33, using that day's plan.

Show her these cards

1

5/8 has five quavers in a bar, grouped 2+3 or 3+2.

2

Quintuplet 5, sextuplet 6, septuplet 7: all fit into the time of 4 of the same note.

3

Tenor clef is a C clef on the 4th line. That line is middle C.

4

Use middle C as your anchor: treble, a ledger line below. Bass, a ledger line above. Alto, the middle line. Tenor, the 4th line.

3 · DO TOGETHER (7 MIN)

- Read the tenor-clef notes on the lesson pack worksheet aloud together.
- Clap 5/8 and 7/8 with different groupings.

Four questions to work through together

1. Which of these is an irregular time signature?

Irregular time

A. 3/4 B. 4/4 C. 7/4 D. 2/2

Answer: 7/4. 7/4 can't be split into equal groups of 2 or 3, so it's irregular.

2. Is this note above, below or at middle C? (Tenor clef)

A. Above middle C B. Below middle C C. It is middle C

Answer: It is middle C. In the tenor clef, middle C is on the 4th line up. This note is C, exactly middle C.

3. How can the beats in 5/8 be grouped?

A. 3+3 B. 2+2+3, 2+3+2 or 3+2+2 C. 2+3 or 3+2 D. 4+1

Answer: 2+3 or 3+2. 5/8 is irregular: the 5 quavers are grouped in 2s and 3s: 2+3 or 3+2.

4. Name this note. (Bass clef)

Write your answer: _____

Answer: A♭. A♭. It's the landmark A: the top line. The flat makes it A♭.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Note ladder or Name the note, all four clefs.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Clef swap: she sets you a note in one clef to rewrite in another.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 34

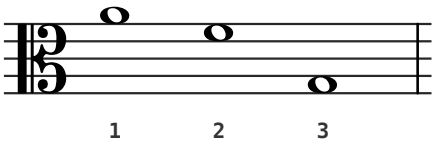

Name _____ Date _____ Score ____ / 8

1. A semibreve tied to a crotchet. How many crotchet beats is that?

Ties

A. 5 B. 6 C. 10 D. 4

2. Which note sounds highest? (Alto clef)

A. Note 1 B. Note 2 C. Note 3

3. How many minims make one semibreve?

A. 2 B. 1 C. 3 D. 4

4. Name this note. (Bass clef)

Write your answer: _____

5. Which of these is an irregular time signature?

Irregular time

A. 9/8 B. 5/8 C. 2/2 D. 12/8

6. Name this note. (Alto clef)

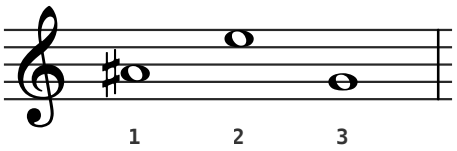

Write your answer: _____

7. How can the beats in 5/8 be grouped?

A. 2+2+3, 2+3+2 or 3+2+2 B. 2+3 or 3+2 C. 4+1 D. 2+2+2

8. Which note sounds highest? (Treble clef)

A. Note 1 B. Note 2 C. Note 3

ANSWERS (FOR MUM)

1. **A: 5**. A tie joins the two notes into one sound: 4 + 1 = 5 beats.
2. **A: Note 1**. The notes are A, F, G. Note 1 (A) is highest on the stave.
3. **A: 2**. A semibreve lasts 4 crotchet beats. A minim lasts 2. 4 ÷ 2 = 2.
4. **A**♭. A♭. Landmark: G, the bottom line. This note is 1 step above it: G, A. The flat makes it A♭.
5. **B: 5/8**. 5/8 can't be split into equal groups of 2 or 3, so it's irregular.
6. **G**. G. Landmark: F, the bottom line. This note is 1 step above it: F, G.
7. **B: 2+3 or 3+2**. 5/8 is irregular: the 5 quavers are grouped in 2s and 3s: 2+3 or 3+2.
8. **B: Note 2**. The notes are A♯, E, G. Note 2 (E) is highest on the stave, and a sharp or flat only moves a note by a semitone, never past the next line or space.

Day 35: Keys up to six sharps or flats

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"We've reached the edge of the map: six sharps and six flats. Past here, the keys start to wrap round and meet each other."*

- Add F♯ major / D♯ minor (six sharps) and G♭ major / E♭ minor (six flats).
- F♯ major and G♭ major sound the same but are written differently.
- That completes the circle of fifths for the exam.
- Watch out: D♯ harmonic minor raises its 7th from C♯ to C𝄪 (C double sharp), and E♭ harmonic minor raises D♭ to D♮.

Worked example

Write D♯ harmonic minor going up.

1. D♯ minor is the relative minor of F♯ major: six sharps (F♯ C♯ G♯ D♯ A♯ E♯).
2. Raise the 7th: C♯ becomes C𝄪.
3. Answer: D♯ E♯ F♯ G♯ A♯ B C𝄪 D♯.

Watch out for

- Forgetting E♯ in F♯ major.
- Writing D instead of C𝄪 as the raised 7th of D♯ minor. The letter must stay C.

In the exam: Any key up to six sharps or flats, in any of the four clefs.

Show her these cards

1

Six sharps: F♯ major and D♯ minor.

2

Six flats: G♭ major and E♭ minor.

3

F♯ major and G♭ major sound the same. They are enharmonic keys.

4

Go round the circle of fifths: each new key up a 5th adds one sharp. C, G, D, A, E, B, F♯.

3 · DO TOGETHER (7 MIN)

- Write F♯ and G♭ major on manuscript paper and compare.

- Write both key signatures in all four clefs.

Four questions to work through together

1. Which sharps are in F♯ major, in order?

A. F♯ C♯ G♯ D♯ A♯ E♯ B. F♯ C♯ G♯ D♯ A♯ C. F♯ C♯ G♯ D♯ A♯ E♯ B♯ D. E♯ A♯ D♯ G♯ C♯ F♯

Answer: F♯ C♯ G♯ D♯ A♯ E♯. F♯ major: F♯ C♯ G♯ D♯ A♯ E♯. Sharps always come in the order F♯ C♯ G♯ D♯ A♯ E♯ B♯.

2. In G♭ major, which degree of the scale is this note?

Write your answer: _____

Answer: 3. Count up from G♭: G♭, A♭, B♭. So B♭ is degree 3, the mediant.

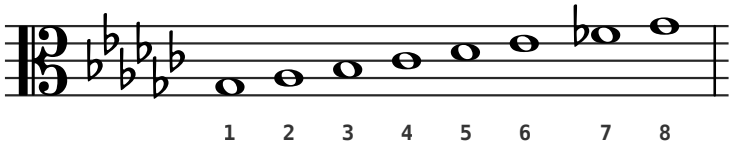

3. Which minor key has this key signature? (Bass clef)

A. C minor B. E♭ minor C. A minor D. F minor

Answer: E♭ minor. The second-to-last flat is G♭, so G♭ major. Its relative minor, on degree 6, is E♭ minor.

4. One note in this G♭ major scale is wrong. Which number is it?

Write your answer: _____

Answer: 7. Note 7 should be F, not F♭. Major scales go tone, tone, semitone, tone, tone, tone, semitone.

4 · ON HER OWN (10 MIN)

- Write D♯ harmonic minor and E♭ melodic minor.
- Run the Key signatures drill at Grade 5.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Circle race: she draws the circle of fifths from memory against a timer.

MOVE ON WHEN

Every key signature up to six sharps or flats, in all four clefs.

Faye's worksheet · Day 35

Name _____ Date _____ Score ___ / 8

1. Which pair of keys has 6 sharps?

A. F♯ major and F♯ minor B. F♯ major and D♯ minor C. D♯ major and F♯ minor

2. One note in this F♯ major scale is wrong. Which number is it?

Write your answer: _____

3. Which minor key has this key signature? (Treble clef)

A. D minor B. D♯ minor C. G minor D. B minor

4. In F♯ major, which degree of the scale is this note?

Write your answer: _____

5. Which pair of keys has 6 flats?

A. G♭ major and E♭ minor B. G♭ major and G♭ minor C. G♭ major and D♯ minor D. E♭ major and G♭ minor

6. In F♯ major, which degree of the scale is this note?

Write your answer: _____

7. Which is the key signature of F♯ major?

A. 

B. 

C. 

D. 

8. In F♯ major, which degree of the scale is this note?

Write your answer: _____

ANSWERS (FOR MUM)

1. **B: F♯ major and D♯ minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): F♯ major → D♯ minor.
2. **4**. Note 4 should be B, not B♯. Major scales go tone, tone, semitone, tone, tone, tone, semitone.
3. **B: D♯ minor**. The last sharp is E♯. One step up from it is F♯, so F♯ major. Its relative minor, on degree 6, is D♯ minor.
4. **7**. Count up from F♯: F♯, G♯, A♯, B, C♯, D♯, E♯. So E♯ is degree 7, the leading note.
5. **A: G♭ major and E♭ minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): G♭ major → E♭ minor.
6. **1**. Count up from F♯: F♯. So F♯ is degree 1, the tonic.
7. **B: 6 sharps**. F♯ major has 6 sharps.
8. **5**. Count up from F♯: F♯, G♯, A♯, B, C♯. So C♯ is degree 5, the dominant.

Day 36: Intervals from any note; compound intervals

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

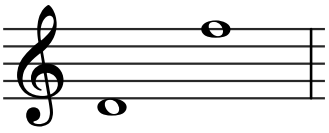

Say: *"A compound interval is a normal interval that's been stretched up an extra octave."*

- Intervals can now start on any note, including sharps and flats.
- A compound interval is bigger than an octave: a 9th is an octave plus a 2nd, a 10th is an octave plus a 3rd.
- The quality stays the same as the simple interval: a major 10th is a compound major 3rd.

Worked example

Name the interval from D to the F an octave and a 3rd above it.

1. Count the letters: D E F G A B C D E F. That's 10.
2. 10 − 7 = 3. D up to F is a minor 3rd.
3. Answer: a minor 10th (or compound minor 3rd).

Watch out for

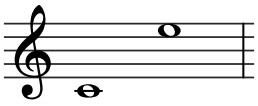

- Taking away 8 instead of 7.
- Changing the quality when adding the octave.

In the exam: Name intervals, including compound ones like 'major 10th' or 'compound major 3rd'.

Show her these cards

1

An interval bigger than an octave is called compound.

2

Take away 7 to find the simple interval: a 10th is an octave plus a 3rd.

3

The quality stays the same: C up to the E above the octave is a major 10th, or a compound major 3rd.

3 · DO TOGETHER (7 MIN)

- Take a 3rd and move its top note up an octave. What is it now?
- Name intervals from G♯ and D♭.

Four questions to work through together

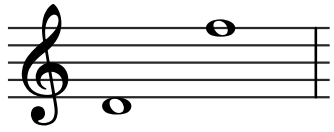

1. Name this interval. (D♯ up to G𝄪)

A. perfect 11th B. augmented 12th C. augmented 11th D. augmented 10th

Answer: augmented 11th. Count the letters D E F G A B C D …: that's an 11th. 18 semitones, so it's an augmented 11th. It's an octave plus a 4th, so it's also a compound augmented 4th.

2. Name this interval. (D up to F)

A. perfect 11th B. minor 10th C. diminished 10th D. augmented 10th

Answer: minor 10th. Count the letters D E F G A B C D …: that's a 10th. 15 semitones, so it's a minor 10th. It's an octave plus a 3rd, so it's also a compound minor 3rd.

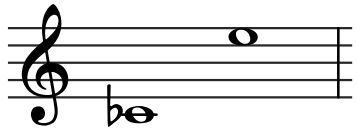

3. Name this interval. (D up to B𝄫)

A. major 13th B. diminished 13th C. diminished 12th D. augmented 13th

Answer: diminished 13th. Count the letters D E F G A B C D …: that's a 13th. 19 semitones, so it's a diminished 13th. It's an octave plus a 6th, so it's also a compound diminished 6th.

4. Name this interval. (C♭ up to E)

A. augmented 9th B. minor 10th C. major 10th D. augmented 10th

Answer: augmented 10th. Count the letters C D E F G A B C …: that's a 10th. 17 semitones, so it's an augmented 10th. It's an octave plus a 3rd, so it's also a compound augmented 3rd.

4 · ON HER OWN (10 MIN)

- Name six simple and four compound intervals.
- Run the Intervals drill at Grade 5.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Interval elevator: move the top note up an octave and call out the new name.

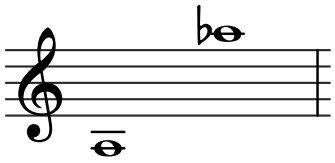

MOVE ON WHEN

8 out of 10 mixed intervals without a semitone chart.

Faye's worksheet · Day 36

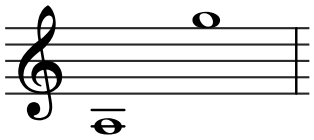

Name _____ Date _____ Score ___ / 8

1. Name this interval. (A up to A♭)

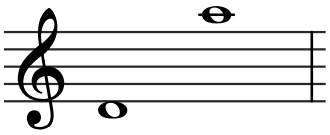

A. perfect 15th B. diminished 15th C. augmented 15th D. diminished 14th

2. Name this interval. (A up to G)

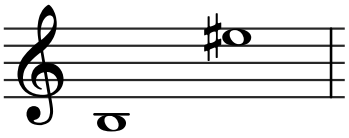

A. minor 14th B. augmented 14th C. perfect 15th D. minor 13th

3. Name this interval. (D up to A)

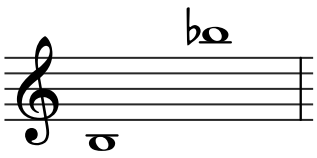

A. augmented 12th B. perfect 12th C. diminished 12th D. perfect 11th

4. Name this interval. (B up to E♯)

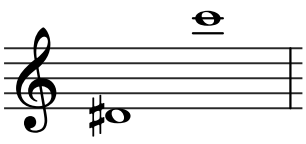

A. diminished 11th B. augmented 10th C. augmented 12th D. augmented 11th

5. Name this interval. (B up to B♭)

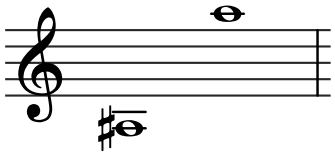

A. augmented 15th B. perfect 15th C. diminished 15th D. diminished 14th

6. Name this interval. (D♯ up to C)

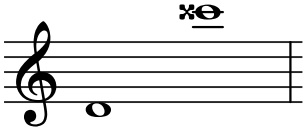

A. minor 14th B. major 14th C. diminished 14th D. diminished 15th

7. Name this interval. (A♯ up to A)

A. perfect 15th B. augmented 15th C. diminished 14th D. diminished 15th

8. Name this interval. (D up to C𝄪)

A. augmented 14th B. diminished 14th C. augmented 15th D. augmented 13th

ANSWERS (FOR MUM)

1. **B: diminished 15th**. Count the letters A B C D E F G A …: that's a 15th. 23 semitones, so it's a diminished 15th. It's an octave plus an octave, so it's also a compound diminished octave.
2. **A: minor 14th**. Count the letters A B C D E F G A …: that's a 14th. 22 semitones, so it's a minor 14th. It's an octave plus a 7th, so it's also a compound minor 7th.
3. **B: perfect 12th**. Count the letters D E F G A B C D …: that's a 12th. 19 semitones, so it's a perfect 12th. It's an octave plus a 5th, so it's also a compound perfect 5th.
4. **D: augmented 11th**. Count the letters B C D E F G A B …: that's an 11th. 18 semitones, so it's an augmented 11th. It's an octave plus a 4th, so it's also a compound augmented 4th.
5. **C: diminished 15th**. Count the letters B C D E F G A B …: that's a 15th. 23 semitones, so it's a diminished 15th. It's an octave plus an octave, so it's also a compound diminished octave.
6. **C: diminished 14th**. Count the letters D E F G A B C D …: that's a 14th. 21 semitones, so it's a diminished 14th. It's an octave plus a 7th, so it's also a compound diminished 7th.
7. **D: diminished 15th**. Count the letters A B C D E F G A …: that's a 15th. 23 semitones, so it's a diminished 15th. It's an octave plus an octave, so it's also a compound diminished octave.
8. **A: augmented 14th**. Count the letters D E F G A B C D …: that's a 14th. 24 semitones, so it's an augmented 14th. It's an octave plus a 7th, so it's also a compound augmented 7th.

Day 37: Review: keys and intervals up to Grade 5

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 35–36, using that day's plan.

Show her these cards

1

Six sharps: F♯ major and D♯ minor.

2

An interval bigger than an octave is called compound.

3 · DO TOGETHER (7 MIN)

- Draw the full circle of fifths from memory together.
- Name four compound intervals.

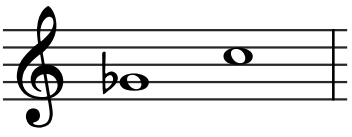

Four questions to work through together

1. Which flats are in G♭ major, in order?

A. B♭ E♭ A♭ D♭ G♭ C♭ B. B♭ E♭ A♭ D♭ G♭ C. B♭ E♭ A♭ D♭ G♭ C♭ F♭ D. C♭ G♭ D♭ A♭ E♭ B♭

Answer: B♭ E♭ A♭ D♭ G♭ C♭. G♭ major: B♭ E♭ A♭ D♭ G♭ C♭. Flats always come in the order B♭ E♭ A♭ D♭ G♭ C♭ F♭.

2. Name this interval. (G♭ up to C)

A. augmented 3rd B. diminished 4th C. augmented 5th D. augmented 4th

Answer: augmented 4th. Count the letters G A B C: that's a 4th. 6 semitones, so it's an augmented 4th.

3. Which minor key has this key signature? (Tenor clef)

A. F minor B. G♯ minor C. A minor D. F♯ minor

Answer: F♯ minor. The last sharp is G♯. One step up from it is A, so A major. Its relative minor, on degree 6, is F♯ minor.

4. Name this interval. (C up to E♭)

A. diminished 11th B. augmented 10th C. diminished 9th D. diminished 10th

Answer: diminished 10th. Count the letters C D E F G A B C …: that's a 10th. 14 semitones, so it's a diminished 10th. It's an octave plus a 3rd, so it's also a compound diminished 3rd.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Play Intervals in Faye's corner.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Circle race: she draws the circle of fifths against a timer.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 37

Name _____ Date _____ Score ____ / 8

1. Which pair of keys has 3 flats?

A. E♭ major and C minor B. C major and E♭ minor C. E♭ major and D minor D. E♭ major and E♭ minor

2. Which note is a perfect octave above F♯?

A. E♯ B. G♯ C. F♯ D. F

3. Which sharps are in B major, in order?

A. F♯ C♯ G♯ D♯ B. A♯ D♯ G♯ C♯ F♯ C. B♯ E♯ A♯ D♯ G♯ D. F♯ C♯ G♯ D♯ A♯

4. Name this interval. (F♯ up to G)

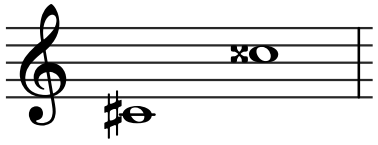

A. minor 3rd B. diminished 2nd C. major 2nd D. minor 2nd

5. Which minor key has 3 sharps?

A. B minor B. G♯ minor C. C♯ minor D. F♯ minor

6. Name this interval. (C♯ up to C𝄪)

A. perfect octave B. augmented 7th C. augmented octave D. diminished octave

7. In a key signature, which is the 1st sharp?

A. D♯ B. F♯ C. E♯ D. B♯

8. Which note is a perfect 4th above G♯?

A. C B. D♯ C. C♯ D. B♯

ANSWERS (FOR MUM)

1. **A: E♭ major and C minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): E♭ major → C minor.
2. **C: F♯**. Count 8 letters up from F♯ to get F. A perfect octave is 12 semitones, so it's F♯.
3. **D: F♯ C♯ G♯ D♯ A♯**. B major: F♯ C♯ G♯ D♯ A♯. Sharps always come in the order F♯ C♯ G♯ D♯ A♯ E♯ B♯.
4. **D: minor 2nd**. Count the letters F G: that's a 2nd. 1 semitones, so it's a minor 2nd.
5. **D: F♯ minor**. 3 sharps: F♯ C♯ G♯. The last sharp is G♯; one step up is A major, and its relative minor is F♯ minor.
6. **C: augmented octave**. Count the letters C D E F G A B C: that's an octave. 13 semitones, so it's an augmented octave.
7. **B: F♯**. Sharps always go in the same order: F♯ C♯ G♯ D♯ A♯ E♯ B♯. The 1st is F♯.
8. **C: C♯**. Count 4 letters up from G♯ to get C. A perfect 4th is 5 semitones, so it's C♯.

Day 38: Chords I, II, IV and V

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“Chord II is a new friend. In a major key it sounds a bit sad, because it's a minor chord.”*

- Chord II is built on the supertonic.
- Label chords with Roman numerals I, II, IV, V.
- In minor keys, V has the raised 7th, and II is a diminished triad: in A minor, II is B–D–F.

Worked example

Spell chord II in G major.

1. Note 2 of G major is A.
2. Skip a note twice: A, C, E.
3. Answer: A–C–E.

Watch out for

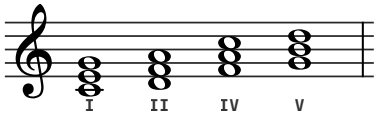

- Adding a raised 7th to chord II in a minor key. Only V gets it.
- Mixing up II and V.

In the exam: Name chords I, II, IV and V on the stave, or spell them in a key.

Show her these cards

1

Chord II is built on note 2, the supertonic.

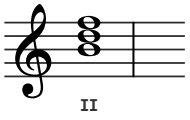

2

In a major key, II is a minor chord: D–F–A in C major.

3

In a minor key, II is diminished: B–D–F in A minor.

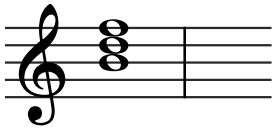

3 · DO TOGETHER (7 MIN)

- Build I, II, IV and V in C, G, D and F major.
- Build them in two minor keys.

Four questions to work through together

1. Name this chord in A minor.

A. I B. II C. V D. IV

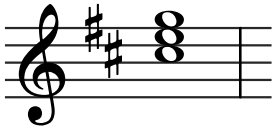

Answer: II. The notes are B–D–F, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is B, the root, so root position (a).

2. What is the supertonic of A♭ major?

A. B♭ B. F C. D♭ D. A♭

Answer: B♭. The supertonic is degree 2. In A♭ major that's B♭.

3. Name this chord in B minor.

A. V B. II C. I D. IV

Answer: II. The notes are C♯–E–G, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is C♯, the root, so root position (a).

4. Name this chord in D♯ minor.

A. I B. II C. IV D. V

Answer: II. The notes are E♯–G♯–B, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is E♯, the root, so root position (a).

4 · ON HER OWN (10 MIN)

- Write I, II, IV and V in B♭ major.
- Identify six chords written on the stave.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Chord builder: you name a key and a numeral; she spells the chord in five seconds.

MOVE ON WHEN

Builds any of the four chords in the Grade 5 keys.

Faye's worksheet · Day 38

Name _____ Date _____ Score ____ / 8

1. Spell chord II in G♭ major.

A. C♭–E♭–G♭ B. G♭–B♭–D♭ C. A♭–C♭–E♭ D. E♭–G♭–B♭

2. Spell chord II in A major.

A. B–D–F♯ B. E–G♯–B C. D–F♯–A D. A–C♯–E

3. Name this chord in E♭ minor.

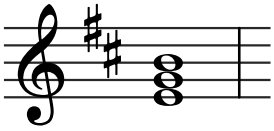

A. II B. IV C. I D. V

4. Spell chord II in E major.

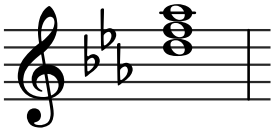

A. F♯–A–C♯ B. A–C♯–E C. E–G♯–B D. B–D♯–F♯

5. Name this chord in D major.

A. I B. II C. IV D. V

6. Name this chord in C minor.

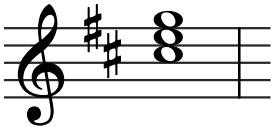

A. I B. V C. II D. IV

7. Spell chord II in F♯ major.

A. D♯–F♯–A♯ B. C♯–E♯–G♯ C. G♯–B–D♯ D. F♯–A♯–C♯

8. Name this chord in B minor.

A. V B. II C. IV D. I

ANSWERS (FOR MUM)

1. **C: A♭–C♭–E♭**. Chord II is built on degree 2, the supertonic: A♭–C♭–E♭.
2. **A: B–D–F♯**. Chord II is built on degree 2, the supertonic: B–D–F♯.
3. **A: II**. The notes are F–A♭–C♭, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is F, the root, so root position (a).
4. **A: F♯–A–C♯**. Chord II is built on degree 2, the supertonic: F♯–A–C♯.
5. **B: II**. The notes are E–G–B, built on degree 2, so it's II. The bass note is E, the root, so root position (a).
6. **C: II**. The notes are D–F–A♭, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is D, the root, so root position (a).
7. **C: G♯–B–D♯**. Chord II is built on degree 2, the supertonic: G♯–B–D♯.
8. **B: II**. The notes are C♯–E–G, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is C♯, the root, so root position (a).

Day 39: Chord inversions: a, b and c

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

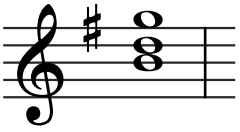

Say: *"An inversion is the same snowman doing a handstand. It's still the same chord; only the bottom note changes."*

- a = root position (root in the bass), b = first inversion (3rd in the bass), c = second inversion (5th in the bass).
- Rearranging the upper notes doesn't change the chord.
- Find the bass note first, then the root.

Worked example

In G major, a chord has B at the bottom, with D and G above. Name it.

1. Stack the notes in 3rds: G, B, D. The root is G, so it's chord I.
2. B, the 3rd, is at the bottom.
3. Answer: Ib.

Watch out for

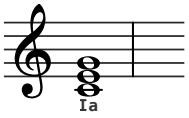

- Naming the chord from the bottom note instead of the root.
- Mixing up b (3rd in the bass) and c (5th in the bass).

In the exam: Label chords with numeral and inversion, such as Ib or Vc.

Show her these cards

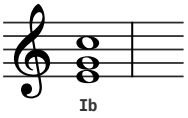

1

Root position, 'a': the root is at the bottom.

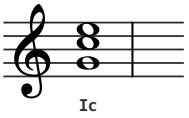

2

First inversion, 'b': the 3rd is at the bottom.

3

Second inversion, 'c': the 5th is at the bottom.

4

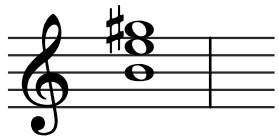

Find the lowest note first. Then work out which chord it belongs to.

3 · DO TOGETHER (7 MIN)

- Rearrange C–E–G as E–G–C and G–C–E.
- Label Ib, IVc and Vb in G major.

Four questions to work through together

1. Name this chord in A minor.

A. IIa B. IVb C. Vc D. IVa

Answer: Vc. The notes are E–G♯–B, built on degree 5, so it's V. The bass note is B, the 5th, so second inversion (c).

2. Name this chord in A♭ major. Use the numeral and a, b or c.

A. Vc B. IIa C. Ic D. IIc

Answer: Ic. Put the notes in 3rds: A♭–C–E♭. The root is A♭, degree 1, so it's chord I. The lowest note, in the bass stave, is E♭: the 5th, so c.

3. Which note is in the bass of IVa in A♭ major?

A. A♭ B. D♭ C. C D. F

Answer: D♭. IV = D♭–F–A♭. "a" means root position, so the root is in the bass: D♭.

4. Name this chord in E♭ major. Use the numeral and a, b or c.

A. IIc B. IIb C. IVa D. Vb

Answer: IIb. Put the notes in 3rds: F–A♭–C. The root is F, degree 2, so it's chord II. The lowest note, in the bass stave, is A♭: the 3rd, so b.

4 · ON HER OWN (10 MIN)

- Identify eight chords by numeral and inversion.
- Write I, IIb, IVc and Vb in C major.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Chord shuffle: write each note on a card, rearrange them and name the inversion.

MOVE ON WHEN

Finds the root even when it isn't the bottom note.

Faye's worksheet · Day 39

Name _____ Date _____ Score ____ / 8

1. Which note is in the bass of IIa in B♭ minor?

A. E♭ B. G♭ C. B♭ D. C

2. Name this chord in E major. Use the numeral and a, b or c.

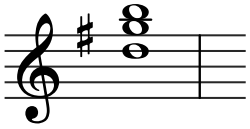

A. Ib B. Vc C. IIb D. Vb

3. Name this chord in C♯ minor. Use the numeral and a, b or c.

A. IVc B. IVb C. Vc D. Ib

4. Name this chord in G major.

A. IVa B. Ic C. IIc D. Ib

5. Which note is in the bass of Vc in C minor?

A. B B. G C. D D. F

6. Which note is in the bass of IVc in B♭ minor?

A. D♭ B. E♭ C. B♭ D. G♭

7. Name this chord in B♭ major. Use the numeral and a, b or c.

A. Ib B. IVa C. IVb D. IVc

8. Which note is in the bass of IIb in A minor?

A. A B. B C. F D. D

ANSWERS (FOR MUM)

1. **D: C**. II = C–E♭–G♭. "a" means root position, so the root is in the bass: C.
2. **D: Vb**. Put the notes in 3rds: B–D♯–F♯. The root is B, degree 5, so it's chord V. The lowest note, in the bass stave, is D♯: the 3rd, so b.
3. **A: IVc**. Put the notes in 3rds: F♯–A–C♯. The root is F♯, degree 4, so it's chord IV. The lowest note, in the bass stave, is C♯: the 5th, so c.
4. **B: Ic**. The notes are G–B–D, built on degree 1, so it's I. The bass note is D, the 5th, so second inversion (c).
5. **C: D**. V = G–B–D. "c" means second inversion, so the 5th is in the bass: D.
6. **C: B♭**. IV = E♭–G♭–B♭. "c" means second inversion, so the 5th is in the bass: B♭.
7. **A: Ib**. Put the notes in 3rds: B♭–D–F. The root is B♭, degree 1, so it's chord I. The lowest note, in the bass stave, is D: the 3rd, so b.
8. **D: D**. II = B–D–F. "b" means first inversion, so the 3rd is in the bass: D.

Day 40: Finding chords in real music

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“Real music hides its chords. We're going on a treasure hunt to find the three chord notes.”*

- The exam asks her to name chords marked in an extract.
- Collect all the notes at the marked place, find the root, then the bass note.

Worked example

In C major, the marked notes are F, A, C and F, with A at the bottom. Name the chord.

1. The notes are F, A and C: stacked in 3rds, the root is F.
2. F is note 4 of C major, so it's chord IV.
3. A, the 3rd, is at the bottom: IVb.

Watch out for

- Counting a passing note as a chord note.
- Forgetting that the lowest note is in the bottom stave.

In the exam: Name the chords at marked places in a short extract.

Show her these cards

1

Collect all the notes at the marked place, from the top stave and the bottom stave.

2

Some notes are passing notes: they walk by step between chord notes. Leave them out.

3

Stack the rest in 3rds to find the root. Then look at the lowest note for a, b or c.

3 · DO TOGETHER (7 MIN)

- Name the chords in today's music in the lesson pack.
- Talk about which notes belong to the chord and which are passing notes.

Four questions to work through together

1. Name this chord in A major. Use the numeral and a, b or c.

A. IVb B. Ic C. IIb D. IVa

Answer: Ic. Put the notes in 3rds: A–C♯–E. The root is A, degree 1, so it's chord I. The lowest note, in the bass stave, is E: the 5th, so c.

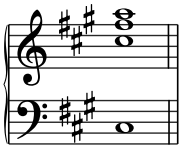

2. Name this chord in G♭ major.

A. IVc B. Ic C. Vb D. IIa

Answer: IIa. The notes are A♭–C♭–E♭, built on degree 2, so it's II. The bass note is A♭, the root, so root position (a).

3. Name this chord in F♯ minor. Use the numeral and a, b or c.

A. IIc B. IVc C. Ic D. Ib

Answer: Ic. Put the notes in 3rds: F♯–A–C♯. The root is F♯, degree 1, so it's chord I. The lowest note, in the bass stave, is C♯: the 5th, so c.

4. Name this chord in D major. Use the numeral and a, b or c.

A. Ia B. Ib C. IIb D. Ic

Answer: Ia. Put the notes in 3rds: D–F♯–A. The root is D, degree 1, so it's chord I. The lowest note, in the bass stave, is D: the root, so a.

TODAY'S MUSIC TO LOOK AT TOGETHER

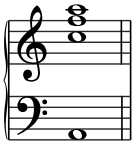

1. Name this chord in G minor. Use the numeral and a, b or c.

A. Ic B. Ia C. IIa D. IIc

Answer: Ia. Put the notes in 3rds: G–B♭–D. The root is G, degree 1, so it's chord I. The lowest note, in the bass stave, is G: the root, so a.

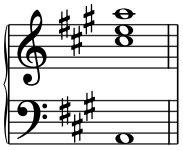

2. Name this chord in C major. Use the numeral and a, b or c.

A. IVa B. Ia C. Ib D. IVb

Answer: IVb. Put the notes in 3rds: F–A–C. The root is F, degree 4, so it's chord IV. The lowest note, in the bass stave, is A: the 3rd, so b.

3. Name this chord in A major. Use the numeral and a, b or c.

A. IVc B. Ia C. IIa D. IVb

Answer: Ia. Put the notes in 3rds: A–C♯–E. The root is A, degree 1, so it's chord I. The lowest note, in the bass stave, is A: the root, so a.

4. Name this chord in A♭ major. Use the numeral and a, b or c.

A. IVb B. IIb C. IVc D. IIc

Answer: IVc. Put the notes in 3rds: D♭–F–A♭. The root is D♭, degree 4, so it's chord IV. The lowest note, in the bass stave, is A♭: the 5th, so c.

4 · ON HER OWN (10 MIN)

- Name the chords on the lesson pack worksheet.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Chord detective: you hide a triad in a bar; she finds it.

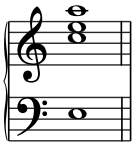

MOVE ON WHEN

Names the numeral and inversion in context.

Faye's worksheet · Day 40

Name _____ Date _____ Score ____ / 8

1. Name this chord in A minor. Use the numeral and a, b or c.

A. Ia B. Ib C. Ic D. IVc

2. Name this chord in F minor. Use the numeral and a, b or c.

A. Ic B. IIc C. Vc D. Va

3. Name this chord in G♭ major.

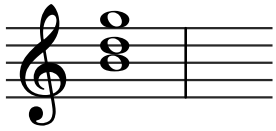

A. Ic B. IIb C. Va D. IIa

4. Name this chord in G♯ minor.

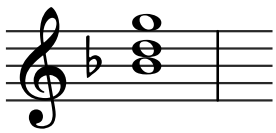

A. Va B. Ia C. IVa D. IIc

5. Name this chord in C major.

A. IIc B. IVc C. Vb D. IIa

6. Name this chord in F major.

A. IIa B. Vc C. IIb D. IVb

7. Name this chord in G minor. Use the numeral and a, b or c.

A. Ia B. IVb C. IIb D. IVa

8. Name this chord in B major.

A. Va B. Ic C. Ib D. IIa

ANSWERS (FOR MUM)

1. **C: Ic**. Put the notes in 3rds: A–C–E. The root is A, degree 1, so it's chord I. The lowest note, in the bass stave, is E: the 5th, so c.
2. **C: Vc**. Put the notes in 3rds: C–E–G. The root is C, degree 5, so it's chord V. The lowest note, in the bass stave, is G: the 5th, so c.
3. **A: Ic**. The notes are G♭–B♭–D♭, built on degree 1, so it's I. The bass note is D♭, the 5th, so second inversion (c).
4. **D: IIc**. The notes are A♯–C♯–E, built on degree 2, so it's II. (In a minor key, II is a diminished triad.) The bass note is E, the 5th, so second inversion (c).
5. **C: Vb**. The notes are G–B–D, built on degree 5, so it's V. The bass note is B, the 3rd, so first inversion (b).
6. **C: IIb**. The notes are G–B♭–D, built on degree 2, so it's II. The bass note is B♭, the 3rd, so first inversion (b).
7. **A: Ia**. Put the notes in 3rds: G–B♭–D. The root is G, degree 1, so it's chord I. The lowest note, in the bass stave, is G: the root, so a.
8. **A: Va**. The notes are F♯–A♯–C♯, built on degree 5, so it's V. The bass note is F♯, the root, so root position (a).

Day 41: Cadences: perfect, plagal and imperfect

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Cadences are the punctuation of music. Some sound like a full stop, and some sound like a comma."*

- Perfect: V–I, a strong, finished ending.
- Plagal: IV–I, the 'Amen' ending.
- Imperfect: ends on V and sounds unfinished. Exam cadences are in C, G, D or F major.

Worked example

In C major, the last two chords are G–B–D and C–E–G. Which cadence is it?

1. G–B–D is built on G, note 5: chord V.
2. C–E–G is chord I.
3. V then I: a perfect cadence.

Watch out for

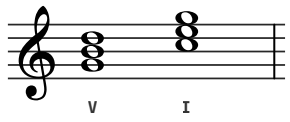

- Calling I–V perfect. Ending on V makes it imperfect.
- Forgetting that an imperfect cadence can come from I, II or IV.

In the exam: Name the cadence at the end of a phrase, in C, G, D or F major.

Show her these cards

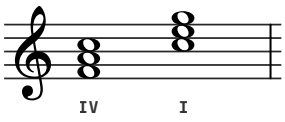

1

Perfect cadence: V then I. It sounds finished, like a full stop.

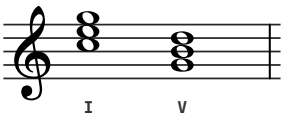

2

Plagal cadence: IV then I. It's the 'Amen' at the end of a hymn.

3

Imperfect cadence: it ends on V. It sounds like a comma: not finished yet.

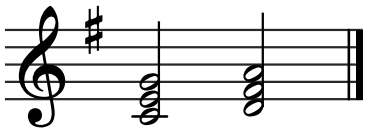

3 · DO TOGETHER (7 MIN)

- Play V–I, IV–I and I–V with Hear it in the app (or any keyboard) and name how each feels.
- Name the cadences in today's music in the lesson pack.

Four questions to work through together

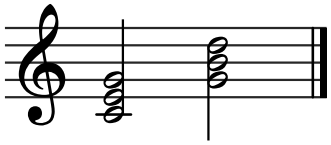

1. These are the last two chords of a piece in G major. Which cadence is it?

A. plagal B. imperfect C. perfect

Answer: imperfect. The chords are IV (C–E–G) then V (D–F♯–A). Ending on V is imperfect.

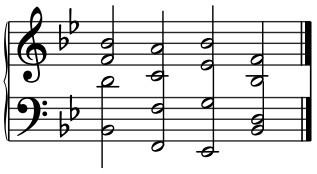

2. These are the last two chords of a piece in C major. Which cadence is it?

A. plagal B. imperfect C. perfect

Answer: imperfect. The chords are I (C–E–G) then V (G–B–D). Ending on V is imperfect.

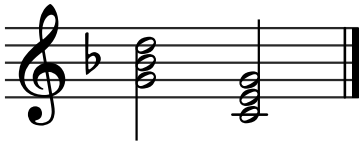

3. This phrase is in B♭ major, for four voices. Which cadence ends it?

A. imperfect B. plagal C. perfect

Answer: plagal. The last two chords are IV (E♭–G–B♭) and I (B♭–D–F). IV–I is plagal.

4. These are the last two chords of a piece in F major. Which cadence is it?

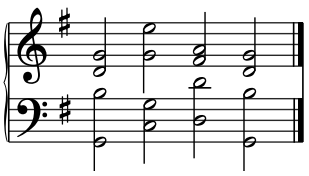

A. perfect B. plagal C. imperfect

Answer: imperfect. The chords are II (G–B♭–D) then V (C–E–G). Ending on V is imperfect.

TODAY'S MUSIC TO LOOK AT TOGETHER

1. This phrase is in G major, for four voices. Which cadence ends it?

A. perfect B. plagal C. imperfect

Answer: perfect. The last two chords are V (D–F♯–A) and I (G–B–D). V–I is perfect.

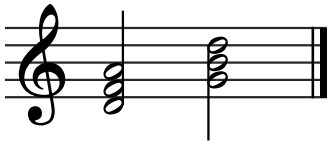

2. Which cadence is this?

IV–V

A. perfect B. plagal C. imperfect

Answer: imperfect. It ends on V, so it's imperfect and sounds unfinished.

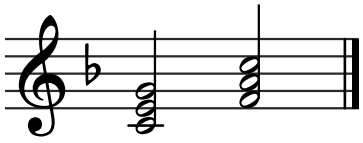

3. These are the last two chords of a piece in C major. Which cadence is it?

A. imperfect B. plagal C. perfect

Answer: imperfect. The chords are II (D–F–A) then V (G–B–D). Ending on V is imperfect.

4. These are the last two chords of a piece in F major. Which cadence is it?

A. plagal B. perfect C. imperfect

Answer: perfect. The chords are V (C–E–G) then I (F–A–C). V–I is perfect.

4 · ON HER OWN (10 MIN)

- Label six chord pairs as cadences.
- Explain why ending on V doesn't sound finished.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Cadence ears: eyes closed, she calls 'closed', 'amen' or 'open' before naming it.

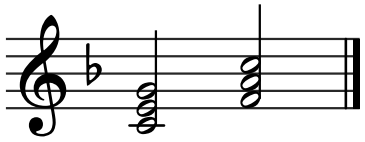

MOVE ON WHEN

Names the cadence from the chords every time.

Faye's worksheet · Day 41

Name _____ Date _____ Score ____ / 8

1. These are the last two chords of a piece in F major. Which cadence is it?

A. perfect B. plagal C. imperfect

2. Which cadence is this?

IV–I

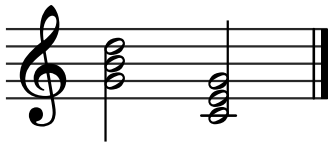

A. plagal B. imperfect C. perfect

3. This phrase is in F major, for four voices. Which cadence ends it?

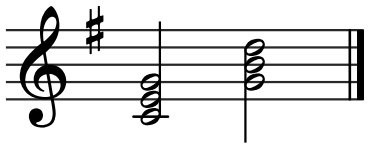

A. plagal B. perfect C. imperfect

4. These are the last two chords of a piece in C major. Which cadence is it?

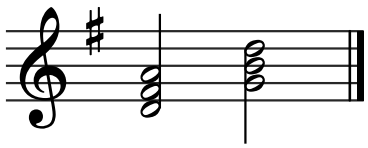

A. perfect B. imperfect C. plagal

5. These are the last two chords of a piece in G major. Which cadence is it?

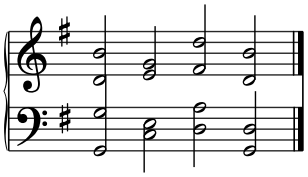

A. plagal B. perfect C. imperfect

6. These are the last two chords of a piece in G major. Which cadence is it?

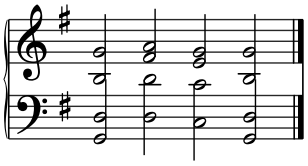

A. perfect B. plagal C. imperfect

7. This phrase is in G major, for four voices. Which cadence ends it?

A. perfect B. plagal C. imperfect

8. This phrase is in G major, for four voices. Which cadence ends it?

A. plagal B. perfect C. imperfect

ANSWERS (FOR MUM)

1. **A: perfect**. The chords are V (C–E–G) then I (F–A–C). V–I is perfect.
2. **A: plagal**. IV–I is a plagal cadence, the 'Amen' ending.
3. **C: imperfect**. The last two chords are II (G–B♭–D) and V (C–E–G). Ending on V is imperfect.
4. **A: perfect**. The chords are V (G–B–D) then I (C–E–G). V–I is perfect.
5. **A: plagal**. The chords are IV (C–E–G) then I (G–B–D). IV–I is plagal.
6. **A: perfect**. The chords are V (D–F♯–A) then I (G–B–D). V–I is perfect.
7. **A: perfect**. The last two chords are V (D–F♯–A) and I (G–B–D). V–I is perfect.
8. **A: plagal**. The last two chords are IV (C–E–G) and I (G–B–D). IV–I is plagal.

Day 42: Choosing chords at cadence points

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"The melody note has to live inside the chord we choose. So we find which chords are its home."*

- Look at the melody note and choose a chord from I, II, IV or V that contains it.
- Make the cadence the question asks for.
- If a melody note belongs to two chords, pick the one that makes the cadence work.

Worked example

In C major, the melody ends D then C. Choose chords for a perfect cadence.

1. A perfect cadence is V–I.
2. D is in chord V (G–B–D), and C is in chord I (C–E–G).
3. Both fit, so the answer is V–I.

Watch out for

- Choosing a chord that doesn't contain the melody note.
- Using chords other than I, II, IV and V.

In the exam: Choose suitable chords at cadence points in a short melody.

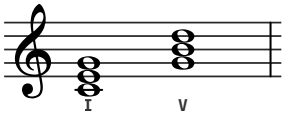

Show her these cards

1

Look at the melody note. Which chords have it inside them?

2

In C major, the note G is in chord I (C E G) and in chord V (G B D).

3

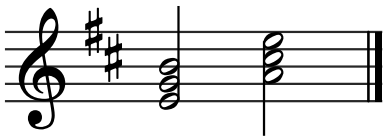

Choose the pair of chords that makes the cadence the question asks for.

3 · DO TOGETHER (7 MIN)

- Given the last two melody notes, list every chord that fits.
- Complete three cadences in C and G major.

Four questions to work through together

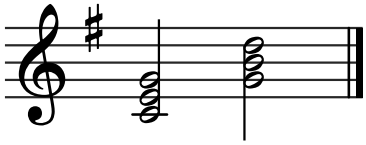

1. These are the last two chords of a piece in D major. Which cadence is it?

A. plagal B. perfect C. imperfect

Answer: imperfect. The chords are II (E–G–B) then V (A–C♯–E). Ending on V is imperfect.

2. These are the last two chords of a piece in G major. Which cadence is it?

A. imperfect B. perfect C. plagal

Answer: plagal. The chords are IV (C–E–G) then I (G–B–D). IV–I is plagal.

3. Which cadence is this?

IV–I

A. imperfect B. plagal C. perfect

Answer: plagal. IV–I is a plagal cadence, the 'Amen' ending.

4. These are the last two melody notes of a phrase in F major. Which chords make a perfect cadence?

A. I–V B. V–I C. IV–I D. II–V

Answer: V–I. The first note, C, is in chord V (C–E–G). The second, F, is in chord I (F–A–C). V–I makes a perfect cadence.

4 · ON HER OWN (10 MIN)

- Choose chords for three cadence points in D and F major.
- Check each choice by playing it.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Which chord fits? You sing a note; she names every chord that contains it.

MOVE ON WHEN

Picks sensible chords that make the right cadence.

Faye's worksheet · Day 42

Name _____ Date _____ Score ____ / 8

1. These are the last two melody notes of a phrase in G major. Which chords make a plagal cadence?

A. V–I B. IV–I C. IV–V D. II–V

2. These are the last two melody notes of a phrase in G major. Which chords make a plagal cadence?

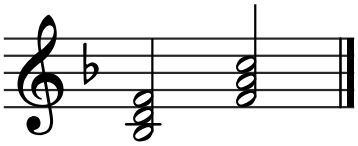

A. II–V B. I–V C. IV–V D. IV–I

3. These are the last two melody notes of a phrase in F major. Which chords make an imperfect cadence?

A. IV–I B. II–V C. I–V D. V–I

4. These are the last two chords of a piece in F major. Which cadence is it?

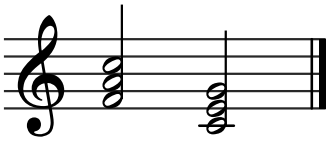

A. imperfect B. perfect C. plagal

5. These are the last two melody notes of a phrase in G major. Which chords make a plagal cadence?

A. IV–I B. IV–V C. V–I D. II–V

6. These are the last two chords of a piece in C major. Which cadence is it?

A. imperfect B. perfect C. plagal

7. This phrase is in C major, for four voices. Which cadence ends it?

A. plagal B. imperfect C. perfect

8. These are the last two melody notes of a phrase in D major. Which chords make a perfect cadence?

A. II–V B. V–I C. IV–V D. IV–I

ANSWERS (FOR MUM)

1. **B: IV–I**. The first note, G, is in chord IV (C–E–G). The second, B, is in chord I (G–B–D). IV–I makes a plagal cadence.
2. **D: IV–I**. The first note, E, is in chord IV (C–E–G). The second, D, is in chord I (G–B–D). IV–I makes a plagal cadence.
3. **B: II–V**. The first note, G, is in chord II (G–B♭–D). The second, E, is in chord V (C–E–G). II–V makes an imperfect cadence.
4. **C: plagal**. The chords are IV (B♭–D–F) then I (F–A–C). IV–I is plagal.
5. **A: IV–I**. The first note, G, is in chord IV (C–E–G). The second, G, is in chord I (G–B–D). IV–I makes a plagal cadence.
6. **C: plagal**. The chords are IV (F–A–C) then I (C–E–G). IV–I is plagal.
7. **A: plagal**. The last two chords are IV (F–A–C) and I (C–E–G). IV–I is plagal.
8. **B: V–I**. The first note, E, is in chord V (A–C♯–E). The second, A, is in chord I (D–F♯–A). V–I makes a perfect cadence.

Day 43: Review: chords and cadences

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

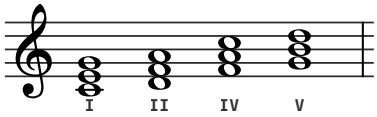

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 38–42, using that day's plan.

Show her these cards

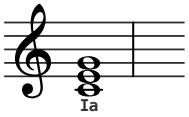

1

Chord II is built on note 2, the supertonic.

2

Root position, 'a': the root is at the bottom.

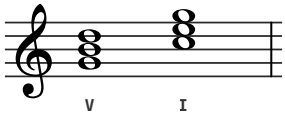

3

Collect all the notes at the marked place, from the top stave and the bottom stave.

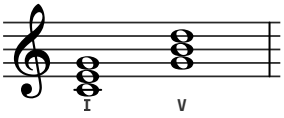

4

Perfect cadence: V then I. It sounds finished, like a full stop.

5

In C major, the note G is in chord I (C E G) and in chord V (G B D).

3 · DO TOGETHER (7 MIN)

- Spell I, II, IV and V in two keys together and name each.
- Name the cadences in today's music in the lesson pack.

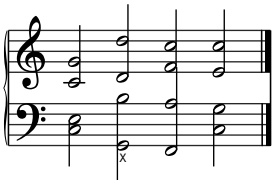

Four questions to work through together

1. What is the dominant note of E♭ major?

A. F B. B♭ C. C D. A♭

Answer: B♭. The dominant is degree 5: B♭.

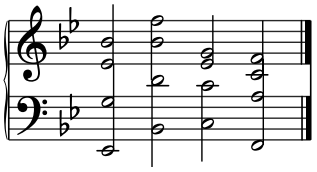

2. This phrase is in C major, for four voices. Name the chord marked X.

A. I B. V C. II D. IV

Answer: V. Chord X has the notes G–B–D (the bass is G), so it's chord V.

3. This phrase is in B♭ major, for four voices. Which cadence ends it?

A. imperfect B. plagal C. perfect

Answer: imperfect. The last two chords are II (C–E♭–G) and V (F–A–C). Ending on V is imperfect.

4. These are the last two melody notes of a phrase in G major. Which chords make a plagal cadence?

A. V–I B. IV–I C. II–V D. I–V

Answer: IV–I. The first note, C, is in chord IV (C–E–G). The second, G, is in chord I (G–B–D). IV–I makes a plagal cadence.

TODAY'S MUSIC TO LOOK AT TOGETHER

1. These are the last two melody notes of a phrase in G major. Which chords make a plagal cadence?

A. IV–V B. I–V C. V–I D. IV–I

Answer: IV–I. The first note, C, is in chord IV (C–E–G). The second, G, is in chord I (G–B–D). IV–I makes a plagal cadence.

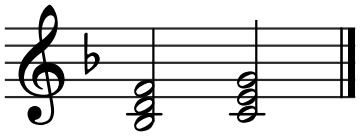

2. These are the last two melody notes of a phrase in G major. Which chords make an imperfect cadence?

A. IV–V B. II–V C. V–I D. IV–I

Answer: II–V. The first note, A, is in chord II (A–C–E). The second, F♯, is in chord V (D–F♯–A). II–V makes an imperfect cadence.

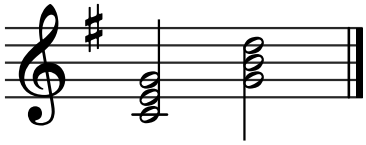

3. These are the last two chords of a piece in F major. Which cadence is it?

A. perfect B. imperfect C. plagal

Answer: imperfect. The chords are IV (B♭–D–F) then V (C–E–G). Ending on V is imperfect.

4. These are the last two chords of a piece in G major. Which cadence is it?

A. plagal B. imperfect C. perfect

Answer: plagal. The chords are IV (C–E–G) then I (G–B–D). IV–I is plagal.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Keys and chords in Faye's corner.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Cadence ears: eyes closed, she calls 'closed', 'amen' or 'open'.

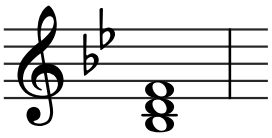

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 43

Name _____ Date _____ Score ____ / 8

1. This is a tonic triad. Which key is it in?

A. G major B. C major C. B♭ major D. B major

2. Spell the tonic triad of G♭ major.

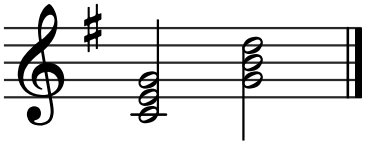

A. G♭–B♭–D♭ B. A–C♯–E C. F–A–C D. E–G♯–B

3. This is a tonic triad. Which key is it in?

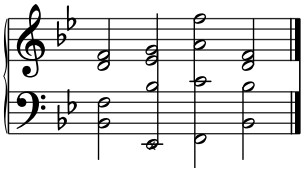

A. E major B. F major C. A major D. F♯ major

4. These are the last two chords of a piece in G major. Which cadence is it?

A. perfect B. imperfect C. plagal

5. This phrase is in B♭ major, for four voices. Name the chord marked X.

A. II B. I C. IV D. V

6. Name this chord in A♭ major. Use the numeral and a, b or c.

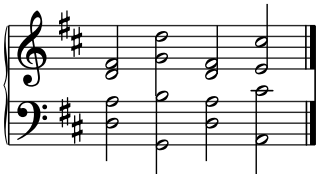

A. Ib B. Ic C. Ia D. Vb

7. These are the last two melody notes of a phrase in C major. Which chords make a plagal cadence?

A. IV–I B. IV–V C. V–I D. I–V

8. This phrase is in D major, for four voices. Which cadence ends it?

A. plagal B. imperfect C. perfect

ANSWERS (FOR MUM)

1. **C: B♭ major**. The bottom note is the tonic, B♭. With this key signature, that makes it the tonic triad of B♭ major.
2. **A: G♭–B♭–D♭**. Notes 1, 3 and 5 of G♭ major: G♭–B♭–D♭.
3. **A: E major**. The bottom note is the tonic, E. With this key signature, that makes it the tonic triad of E major.
4. **C: plagal**. The chords are IV (C–E–G) then I (G–B–D). IV–I is plagal.
5. **C: IV**. Chord X has the notes E♭–G–B♭ (the bass is E♭), so it's chord IV.
6. **A: Ib**. Put the notes in 3rds: A♭–C–E♭. The root is A♭, degree 1, so it's chord I. The lowest note, in the bass stave, is C: the 3rd, so b.
7. **A: IV–I**. The first note, A, is in chord IV (F–A–C). The second, G, is in chord I (C–E–G). IV–I makes a plagal cadence.
8. **B: imperfect**. The last two chords are I (D–F♯–A) and V (A–C♯–E). Ending on V is imperfect.

Day 44: Transposing instruments: B♭, A and F

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Some instruments play a trick: the note they read isn't the note that comes out. We have to undo the trick."*

- Written pitch is what the player reads. Concert pitch is what sounds.
- A clarinet in B♭ sounds a major 2nd lower than written, a clarinet in A a minor 3rd lower, and a horn in F a perfect 5th lower.
- The exam question gives the interval and direction. Follow it exactly.

Worked example

A clarinet in B♭ reads D. Which note sounds?

1. A B♭ clarinet sounds a major 2nd lower than written.
2. A major 2nd below D is C.
3. Answer: C.

Watch out for

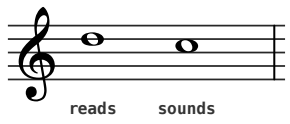

- Going the wrong way: up instead of down.
- Getting the letter right but the quality wrong: always check the semitones.

In the exam: Transpose a short melody for, or from, a B♭, A or F instrument, as the question says.

Show her these cards

1

A clarinet in B♭ reads one note, but a different note comes out: a major 2nd (one tone) lower.

2

Clarinet in A sounds a minor 3rd lower. Horn in F sounds a perfect 5th lower.

3

To go the other way, from what sounds to what the player reads, go UP by the same interval.

3 · DO TOGETHER (7 MIN)

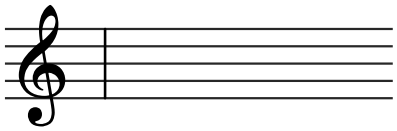

- Transpose one note for each instrument, both ways.
- Work out the new key signature for each.

Four questions to work through together

1. This is written for trumpet in B♭. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

Write your answer on this stave:

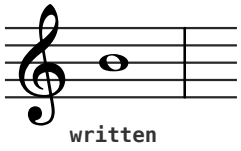

Answer: E♭ (treble clef, 2 steps above middle C). The trumpet in B♭ sounds a major 2nd lower than written: F sounds as E♭.

2. Music for trumpet in B♭ is written in B major. Which key does it sound in?

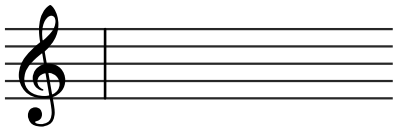

A. E major B. A major C. F♯ major D. G major

Answer: A major. The trumpet in B♭ sounds a major 2nd lower than written. A major 2nd below B is A, so it sounds in A major (3 sharps).

3. This is written for clarinet in B♭. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

Write your answer on this stave:

Answer: A (treble clef, 5 steps above middle C). The clarinet in B♭ sounds a major 2nd lower than written: B sounds as A.

4. Music for clarinet in B♭ is written in A♭ major. Which key does it sound in?

A. E♭ major B. D♭ major C. G♭ major D. A♭ major

Answer: G♭ major. The clarinet in B♭ sounds a major 2nd lower than written. A major 2nd below A♭ is G♭, so it sounds in G♭ major (6 flats).

4 · ON HER OWN (10 MIN)

- Transpose three short motifs to concert pitch.
- Circle any accidental that has to change.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Concert or written? You point to a version; she says which way to transpose.

MOVE ON WHEN

Gets the direction, interval and key signature right.

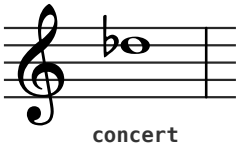

Faye's worksheet · Day 44

Name _____ Date _____ Score ____ / 8

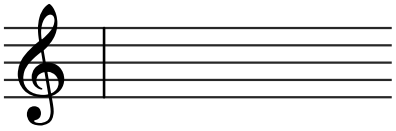

1. Music for clarinet in A is written in F major. Which key does it sound in?

A. D major B. A major C. B major D. G major

2. This note is at concert pitch. Write it for trumpet in B♭. (Treble clef · use an accidental if it needs one)

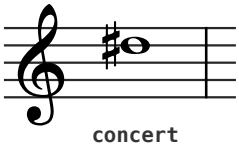

Write your answer on this stave:

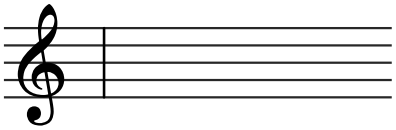

3. A trumpet in B♭ plays a written C. Which note sounds?

A. D B. B♭ C. B D. C

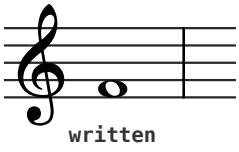

4. This note is at concert pitch. Write it for trumpet in B♭. (Treble clef · use an accidental if it needs one)

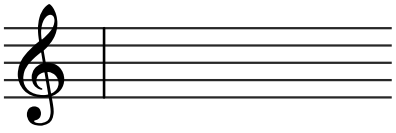

Write your answer on this stave:

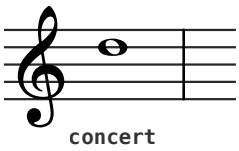

5. This is written for clarinet in B♭. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

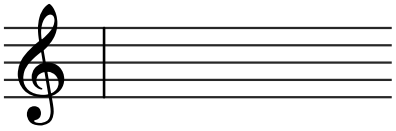

Write your answer on this stave:

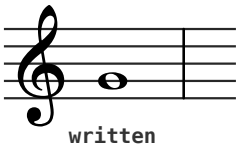

6. This note is at concert pitch. Write it for horn in F. (Treble clef · use an accidental if it needs one)

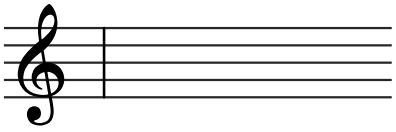

Write your answer on this stave:

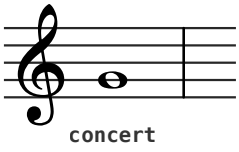

7. This is written for clarinet in A. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

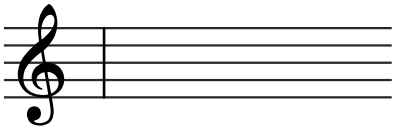

Write your answer on this stave:

8. This note is at concert pitch. Write it for clarinet in A. (Treble clef · use an accidental if it needs one)

Write your answer on this stave:

ANSWERS (FOR MUM)

1. **A: D major**. The clarinet in A sounds a minor 3rd lower than written. A minor 3rd below F is D, so it sounds in D major (2 sharps).
2. **E♭ (treble clef, 9 steps above middle C)**. The trumpet in B♭ sounds a major 2nd lower than it reads, so write it a major 2nd higher: D♭ goes up to E♭.
3. **B: B♭**. The trumpet in B♭ sounds a major 2nd lower than written. A major 2nd below C is B♭.
4. **E♯ (treble clef, 9 steps above middle C)**. The trumpet in B♭ sounds a major 2nd lower than it reads, so write it a major 2nd higher: D♯ goes up to E♯.
5. **E♭ (treble clef, 2 steps above middle C)**. The clarinet in B♭ sounds a major 2nd lower than written: F sounds as E♭.
6. **A (treble clef, 12 steps above middle C)**. The horn in F sounds a perfect 5th lower than it reads, so write it a perfect 5th higher: D goes up to A.
7. **E (treble clef, 2 steps above middle C)**. The clarinet in A sounds a minor 3rd lower than written: G sounds as E.
8. **B♭ (treble clef, 6 steps above middle C)**. The clarinet in A sounds a minor 3rd lower than it reads, so write it a minor 3rd higher: G goes up to B♭.

Day 45: Transposing a melody

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"Transposing a tune is like moving house: everything comes with you, and it all stays the same distance apart."*

- Work out the new key first: move the tonic by the same interval (B♭ clarinet written in D major sounds in C major). Write that key signature, then move every note by the same interval.
- Keep the letter-name distance exact, then check the quality.
- Take care with accidentals: a natural in the original may become a sharp or a flat.

Worked example

A melody at concert pitch is in C major. Write it for horn in F.

1. The horn sounds a perfect 5th lower, so write it a perfect 5th higher.
2. A perfect 5th above C is G: the new key is G major, with one sharp.
3. Move every note up a perfect 5th.

Watch out for

- Forgetting to change the key signature.
- Leaving an accidental unchanged when it should shift too.

In the exam: Transpose a melody at a stated interval for a named instrument.

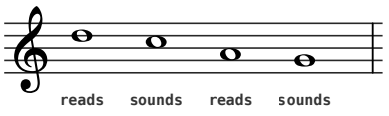

Show her these cards

1

Step 1: move the key. A B♭ clarinet reading D major sounds in C major.

2

Step 2: move every note by the same interval.

3

Step 3: check any accidentals. A natural might need to become a sharp or a flat.

3 · DO TOGETHER (7 MIN)

- Transpose an 8-bar melody for B♭ clarinet to concert pitch.

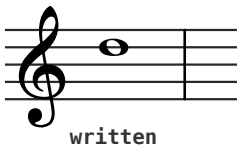

Four questions to work through together

1. Music for clarinet in B♭ is written in D major. Which key does it sound in?

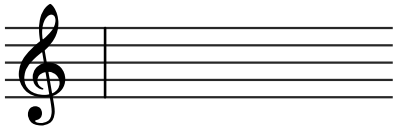

A. A major B. E♭ major C. D major D. C major

Answer: C major. The clarinet in B♭ sounds a major 2nd lower than written. A major 2nd below D is C, so it sounds in C major (no sharps or flats).

2. This is written for trumpet in B♭. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

Write your answer on this stave:

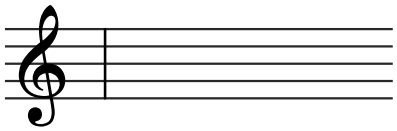

Answer: C (treble clef, 7 steps above middle C). The trumpet in B♭ sounds a major 2nd lower than written: D sounds as C.

3. This is written for trumpet in B♭. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

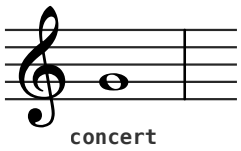

Write your answer on this stave:

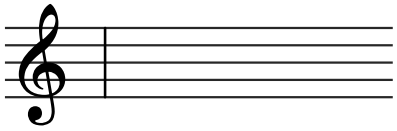

Answer: G♯ (treble clef, 4 steps above middle C). The trumpet in B♭ sounds a major 2nd lower than written: A♯ sounds as G♯.

4. This note is at concert pitch. Write it for horn in F. (Treble clef · use an accidental if it needs one)

Write your answer on this stave:

Answer: D (treble clef, 8 steps above middle C). The horn in F sounds a perfect 5th lower than it reads, so write it a perfect 5th higher: G goes up to D.

4 · ON HER OWN (10 MIN)

- Transpose one melody from concert pitch up a major 2nd for B♭ trumpet.
- Check three random notes by interval.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Beat the clock on four transposed notes.

MOVE ON WHEN

A short phrase transposed with the right key signature, rhythm and accidentals.

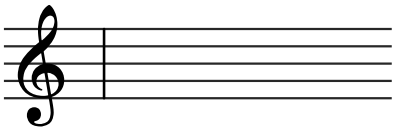

Faye's worksheet · Day 45

Name _____ Date _____ Score ____ / 8

1. This is written for horn in F. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

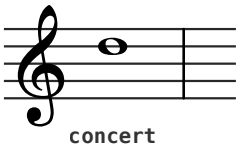

Write your answer on this stave:

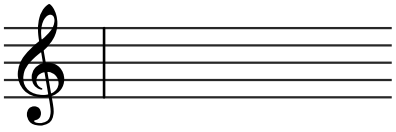

2. Music for clarinet in A is written in F major. Which key does it sound in?

A. D major B. A major C. B major D. F major

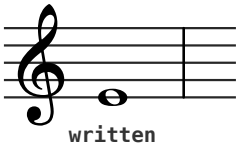

3. This note is at concert pitch. Write it for clarinet in A. (Treble clef · use an accidental if it needs one)

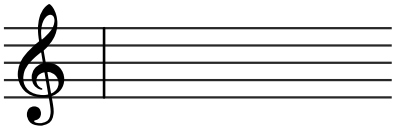

Write your answer on this stave:

4. This is written for clarinet in A. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

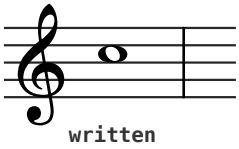

Write your answer on this stave:

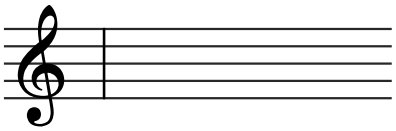

5. Music for trumpet in B♭ is written in A♭ major. Which key does it sound in?

A. G♭ major B. E♭ major C. D♭ major D. A♭ major

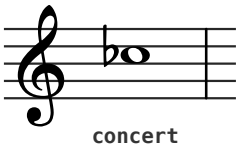

6. This is written for horn in F. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

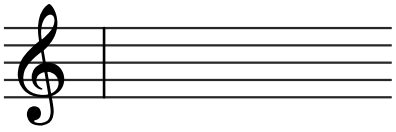

Write your answer on this stave:

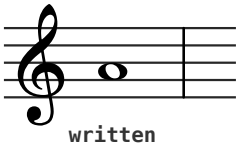

7. This note is at concert pitch. Write it for clarinet in B♭. (Treble clef · use an accidental if it needs one)

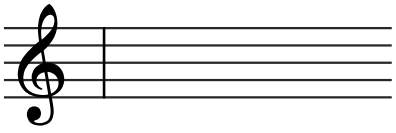

Write your answer on this stave:

8. This is written for horn in F. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

Write your answer on this stave:

ANSWERS (FOR MUM)

1. **A♯ (treble clef, 2 steps below middle C)**. The horn in F sounds a perfect 5th lower than written: E♯ sounds as A♯.
2. **A: D major**. The clarinet in A sounds a minor 3rd lower than written. A minor 3rd below F is D, so it sounds in D major (2 sharps).
3. **F (treble clef, 10 steps above middle C)**. The clarinet in A sounds a minor 3rd lower than it reads, so write it a minor 3rd higher: D goes up to F.
4. **C♯ (treble clef, middle C)**. The clarinet in A sounds a minor 3rd lower than written: E sounds as C♯.
5. **A: G♭ major**. The trumpet in B♭ sounds a major 2nd lower than written. A major 2nd below A♭ is G♭, so it sounds in G♭ major (6 flats).
6. **F (treble clef, 3 steps above middle C)**. The horn in F sounds a perfect 5th lower than written: C sounds as F.
7. **D♭ (treble clef, 8 steps above middle C)**. The clarinet in B♭ sounds a major 2nd lower than it reads, so write it a major 2nd higher: C♭ goes up to D♭.
8. **D (treble clef, 1 step above middle C)**. The horn in F sounds a perfect 5th lower than written: A sounds as D.

Day 46: Voices, instruments, clefs and ornament signs

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *"An ornament sign is a shortcut. Instead of writing lots of quick notes, the composer writes one little squiggle."*

- Voices: soprano, alto, tenor and bass.
- Which clef each instrument reads, and how it makes sound.
- Grade 5 also asks her to replace written-out ornaments with the right sign.

Worked example

Four quick notes: D, C, B, C over the main note C. Which sign?

1. Above, main, below, main.
2. That shape is a turn.
3. Answer: the turn sign (~).

Watch out for

- Mixing up the upper mordent (goes up) and the lower mordent (goes down).
- Putting the voices in the wrong order: alto is higher than tenor.

In the exam: Choose the sign for a written-out ornament; name voices, families and clefs.

Show her these cards

1

Voices from high to low: soprano, alto, tenor, bass.

2

A written-out ornament is the same as its sign. C, D, C written fast is an upper mordent.

3

A turn is the note above, the note, the note below, then the note again.

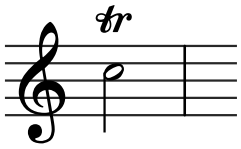

3 · DO TOGETHER (7 MIN)

- Match instruments and voices to clefs.
- Look at a written-out trill and turn and choose the sign for each.

Four questions to work through together

1. What is this ornament called?

A. upper mordent B. turn C. trill D. lower mordent

Answer: trill. That sign is a trill.

2. Which is the lowest female voice?

Voices

A. bass B. alto C. soprano D. tenor

Answer: alto. From high to low: soprano, alto, tenor, bass. Soprano and alto are usually women's and children's voices; tenor and bass are men's.

3. These notes are a written-out ornament. Which sign means the same?

A. 

B. 

C. 

D. 

Answer: lower mordent sign. The main note, the note below, then back to the main note: a lower mordent.

4. Which is the highest voice?

Voices

A. alto B. tenor C. bass D. soprano

Answer: soprano. From high to low: soprano, alto, tenor, bass. Soprano and alto are usually women's and children's voices; tenor and bass are men's.

TODAY'S MUSIC TO LOOK AT TOGETHER

1. How does the trombone make its sound?

A. being struck B. buzzing lips C. a double reed D. a bow or plucking

Answer: buzzing lips. The trombone makes its sound with buzzing lips.

2. Which of these instruments could play this melody?

A. flute B. trumpet C. piccolo D. bassoon

Answer: bassoon. These notes are well below middle C. The flute, violin, oboe and trumpet can't play that low. The bassoon can.

3. Which family does the viola belong to?

A. strings B. brass C. percussion D. woodwind

Answer: strings. The viola is in the strings family.

4. Which of these instruments could play this melody?

A. trumpet B. oboe C. violin D. tuba

Answer: tuba. These notes are well below middle C. The flute, violin, oboe and trumpet can't play that low. The tuba can.

4 · ON HER OWN (10 MIN)

- Answer the instrument questions in today's lesson pack.
- Name the ornament for four written-out figures.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Who am I? You describe an instrument; she guesses it.

MOVE ON WHEN

No mix-ups between ornament names or instrument families.

Faye's worksheet · Day 46

Name _____ Date _____ Score ____ / 8

1. What is this ornament called?

A. turn B. trill C. upper mordent D. lower mordent

2. Which clef does the French horn usually read?

A. alto B. tenor C. bass D. treble

3. These notes are a written-out ornament. Which sign means the same?

A. 

B. 

C. 

D. 

4. Which clef does the clarinet usually read?

A. alto B. treble C. tenor D. bass

5. What is this ornament called?

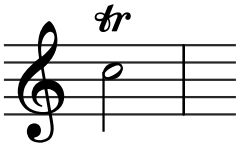

A. turn B. upper mordent C. trill D. lower mordent

6. Which is the highest voice?

Voices

A. tenor B. alto C. soprano D. bass

7. What is this ornament called?

A. upper mordent B. turn C. lower mordent D. trill

8. Which clef does the trumpet usually read?

A. alto B. tenor C. treble D. bass

ANSWERS (FOR MUM)

1. **C: upper mordent**. That sign is a upper mordent.
2. **D: treble**. The French horn reads treble clef.
3. **A: trill sign**. Fast notes swapping between the main note and the note above: a trill.
4. **B: treble**. The clarinet reads treble clef.
5. **A: turn**. That sign is a turn.
6. **C: soprano**. From high to low: soprano, alto, tenor, bass. Soprano and alto are usually women's and children's voices; tenor and bass are men's.
7. **D: trill**. That sign is a trill.
8. **C: treble**. The trumpet reads treble clef.

Day 47: Grade 5 terms; a full music-in-context section

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

Say: *“German composers often wrote their instructions in German. Six German words, and you'll know them all.”*

- Grade 4 added French terms; Grade 5 adds a few more Italian ones and six German ones (langsam, schnell, mässig, lebhaft, ruhig, traurig). Run the Musical terms drill at Grade 5 to find gaps.
- Answer context questions in a fixed order: clef, key, time, rhythm, intervals, chords, cadence, terms, instruments.

Worked example

A piece by a German composer says 'Ruhig' at the top. How should it be played?

1. Ruhig is German.
2. It means peaceful, calm.
3. So play it calmly and peacefully, not fast or loud.

Watch out for

- Mixing up lebhaft (lively) and langsam (slow): they both start with L.
- Guessing from English: schnell sounds like nothing English, so learn it by heart (fast).

In the exam: The terms section can ask any term up to Grade 5, including the French ones from Grade 4 and these German ones.

Show her these cards

1

Grade 5 adds six German words: langsam (slow), schnell (fast), mässig (moderate speed), lebhaft (lively), ruhig (peaceful), traurig (sad).

2

One idea, three languages: lento (Italian), lent (French) and langsam (German) all mean slow.

3

Answer music-in-context questions in order: clef, key, time, rhythm, intervals, chords, cadence, terms, instruments.

3 · DO TOGETHER (7 MIN)

- Work through one full music-in-context section, pointing to the evidence for each answer.

Four questions to work through together

1. What does this mean?

sforzando (sf)

A. with some freedom of time B. majestically C. sad D. forced, with a sudden accent

Answer: forced, with a sudden accent. sforzando (sf) is Italian for "forced, with a sudden accent".

2. Which term means "back to the original speed"?

Find the term

A. a tempo B. giocoso C. staccato D. ritmico

Answer: a tempo. a tempo is Italian for "back to the original speed".

3. What does this mean?

langsam

A. slow B. plucked C. less D. delicately

Answer: slow. langsam is German for "slow".

4. Which term means "dying away in tone and speed"?

Find the term

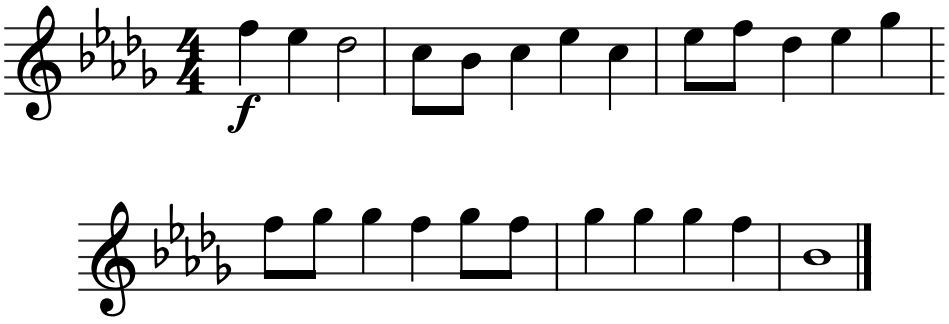

A. smorzando (smorz.) B. agitato C. assai D. troppo

Answer: smorzando (smorz.). smorzando (smorz.) is Italian for "dying away in tone and speed".

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Animé

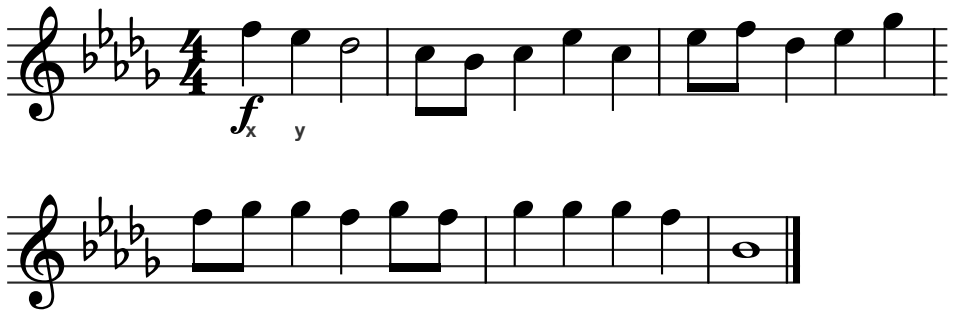

1. Which key is this melody in?

A. C major B. F major C. B major D. B♭ minor

Answer: B♭ minor. The key signature has 5 flats, it's the minor key that shares this key signature, and the melody ends on B♭: B♭ minor.

2. Name the interval between the notes marked x and y.

A. major 3rd B. diminished 2nd C. minor 2nd D. major 2nd

Answer: major 2nd. The notes are F and E♭: a major 2nd.

3. What is the ornament in bar 1 called?

A. trill B. acciaccatura C. upper mordent D. lower mordent

Answer: trill. The sign above the note in bar 1 is a trill.

4. What does "Animé" mean?

A. animated, lively B. forced, with a sudden accent C. moderately quiet D. delicately

Answer: animated, lively. Animé means animated, lively.

4 · ON HER OWN (10 MIN)

- Do a second music-in-context section alone, then mark it.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Teacher swap: she is the examiner for two minutes and tries to catch your deliberate mistake.

MOVE ON WHEN

80% or more on a full music-in-context section.

Faye's worksheet · Day 47

Name _____ Date _____ Score ___ / 8

1. What does this mean?

risoluto

A. restless, worried B. slow C. suddenly D. boldly

2. Which term means "less"?

Find the term

A. staccato B. meno C. risoluto D. scherzando

3. What does this mean?

assai

A. very B. gradually getting quieter C. dying away D. resonant

4. What does this mean?

maestoso

A. lively B. without C. sad D. majestically

5. What does this mean?

come prima

A. as before B. restless, worried C. sadly D. with energy

6. What does this mean?

pizzicato

A. press the soft pedal B. calmly C. plucked D. two minim beats in a bar

7. Which term means "back to the original speed"?

Find the term

A. marcato B. appassionato C. a tempo D. tranquillo

8. Which term means "very loud"?

Find the term

A. allargando B. staccato C. fortissimo (ff) D. rallentando (rall.)

ANSWERS (FOR MUM)

1. **D: boldly**. risoluto is Italian for "boldly".
2. **B: meno**. meno is Italian for "less".
3. **A: very**. assai is Italian for "very".
4. **D: majestically**. maestoso is Italian for "majestically".
5. **A: as before**. come prima is Italian for "as before".
6. **C: plucked**. pizzicato is Italian for "plucked".
7. **C: a tempo**. a tempo is Italian for "back to the original speed".
8. **C: fortissimo (ff)**. fortissimo (ff) is Italian for "very loud".

Day 48: Review: everything in Grade 5

G5 · about 35 minutes: warm-up 5 · teach 8 · together 7 · on her own 10 · game 3

1 · WARM-UP (5 MIN)

Today's practice in Faye's corner, or the first two 'together' questions below.

2 · TEACH (8 MIN)

- No new teaching today. Start with **Fix my mistakes** in Faye's corner and talk through any she gets wrong.
- Look at the Mastery tracker: re-teach anything red from Days 30–47, using that day's plan.

Show her these cards

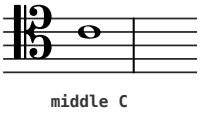

1

5/8 has five quavers in a bar, grouped 2+3 or 3+2.

2

Tenor clef is a C clef on the 4th line. That line is middle C.

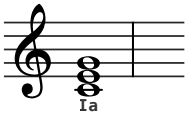

3

An interval bigger than an octave is called compound.

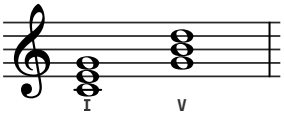

4

Root position, 'a': the root is at the bottom.

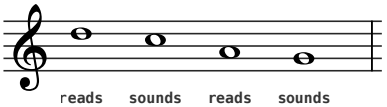

5

In C major, the note G is in chord I (C E G) and in chord V (G B D).

6

Step 2: move every note by the same interval.

3 · DO TOGETHER (7 MIN)

- Do one Music in context question together, pointing to the evidence.
- Pick her two weakest strands and do three questions on each.

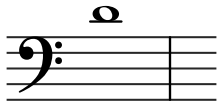

Four questions to work through together

1. How can the beats in 5/4 be grouped?

A. 2+2+2 B. 3+3 C. 2+2+3, 2+3+2 or 3+2+2 D. 2+3 or 3+2

Answer: 2+3 or 3+2. 5/4 is irregular: the 5 crotchets are grouped in 2s and 3s: 2+3 or 3+2.

2. Which is the same note, written in treble clef? (Bass clef)

A. 

B. 

C. 

D. 

Answer: treble clef note D4. It's D, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.

3. How many flats are in the key signature of B♭ major?

Write your answer: _____

Answer: 2. B♭ major has 2 flats: B♭, E♭.

4. Which note is a minor 3rd above A♭?

A. C𝄫 B. C C. C♭ D. D♭

Answer: C♭. Count 3 letters up from A♭ to get C. A minor 3rd is 3 semitones, so it's C♭.

TODAY'S MUSIC TO LOOK AT TOGETHER

Our own short piece. Use it wherever the plan says "an extract" or "her music".

Vite

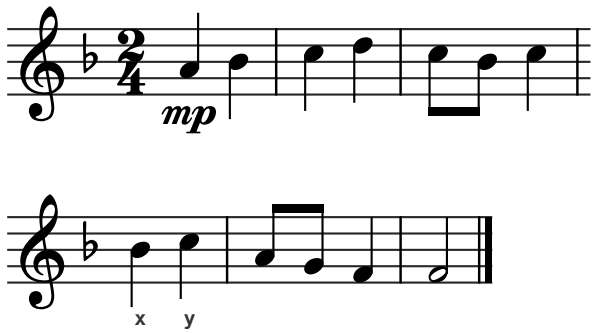

1. Which key is this melody in?

A. F major B. D♭ major C. G major D. B major

Answer: F major. The key signature has 1 flat and the melody ends on F: F major.

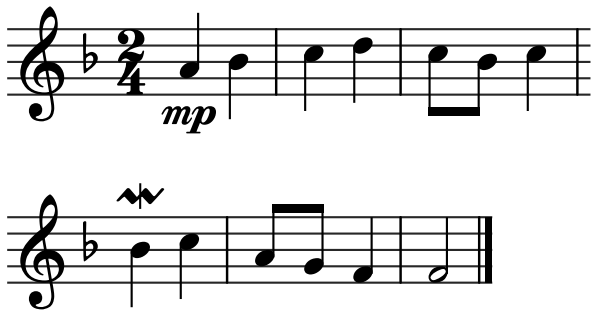

2. Name the interval between the notes marked x and y.

A. major 3rd B. diminished 2nd C. major 2nd D. minor 2nd

Answer: major 2nd. The notes are B♭ and C: a major 2nd.

3. What is the ornament in bar 4 called?

A. acciaccatura B. turn C. upper mordent D. lower mordent

Answer: lower mordent. The sign above the note in bar 4 is a lower mordent.

4. What does "Vite" mean?

A. suddenly B. simply C. smoothly D. quick

Answer: quick. Vite means quick.

4 · ON HER OWN (10 MIN)

- Today's practice.
- Music in context in Faye's corner.

Her worksheet is on the next page (answers at the end).

5 · GAME (3 MIN)

Teacher swap: she is the examiner and tries to catch your deliberate mistake.

MOVE ON WHEN

Most questions right first time, and she can explain why. If one topic is still shaky, repeat that day before moving on.

Faye's worksheet · Day 48

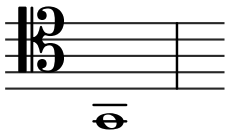

Name _____ Date _____ Score ____ / 8

1. A triplet of quavers (marked 3) takes the time of how many ordinary quavers?

Triplet

A. 3 B. 5 C. 6 D. 2

2. Name this note. (Tenor clef)

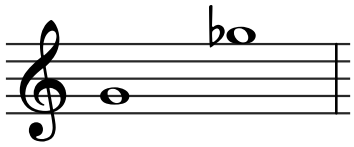

Write your answer: _____

3. In a key signature, which is the 3rd flat?

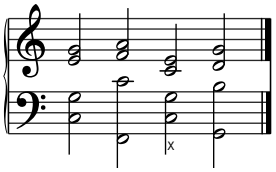

A. F♭ B. D♭ C. G♭ D. A♭

4. Name this interval. (G up to G♭)

A. perfect octave B. diminished 9th C. diminished 7th D. diminished octave

5. This phrase is in C major, for four voices. Name the chord marked X.

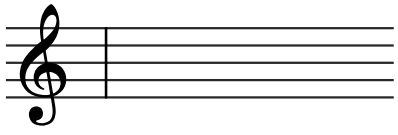

A. V B. I C. II D. IV

6. This is written for horn in F. Write the note that actually sounds. (Treble clef, concert pitch · use an accidental if it needs one)

Write your answer on this stave:

7. What does this sign mean?

A. diminuendo: gradually getting quieter

B. sforzando: a sudden strong accent

C. staccato: short and detached

D. fortissimo: very loud

8. Which term means "the end"?

Find the term

A. mesto

B. una corda

C. pianissimo (pp)

D. fine

ANSWERS (FOR MUM)

1. **D: 2**. Three quavers in a triplet take the time of two.
2. **G**. G. Landmark: B, one ledger line below. This note is 2 steps below it: B, A, G.
3. **D: A♭**. Flats always go in the same order: B♭ E♭ A♭ D♭ G♭ C♭ F♭. The 3rd is A♭.
4. **D: diminished octave**. Count the letters G A B C D E F G: that's an octave. 11 semitones, so it's a diminished octave.
5. **B: I**. Chord X has the notes C–E–G (the bass is C), so it's chord I.
6. **B♭ (treble clef, 1 step below middle C)**. The horn in F sounds a perfect 5th lower than written: F sounds as B♭.
7. **A: diminuendo: gradually getting quieter**. It means diminuendo: gradually getting quieter.
8. **D: fine**. fine is Italian for "the end".
