ANSWERS (FOR MUM)

Rhythm and time signatures

1. **A: minim**. Two crotchets last 2 beats, the same as a minim.
2. **C: Bar 3**. Each bar of 3/4 should hold 3 crotchet beats. Bar 3 has one beat too many.
3. **B: dotted crotchet**. A crotchet and a quaver last 1.5 beats, the same as a dotted crotchet.
4. **C: After note 4**. A bar of 6/8 holds two dotted-crotchet beats (6 quavers). Notes 1 to 4 fill it exactly, so the bar line goes after note 4.
5. **C: 3**. A tie joins the two notes into one sound: 2 + 1 = 3 beats.
6. **D: quaver rest**. A bar of 3/8 holds 3 quavers. The notes leave a gap of one quaver, so a quaver rest finishes it.
7. **B: quaver rest**. A bar of 3/8 holds 3 quavers. The notes leave a gap of one quaver, so a quaver rest finishes it.
8. **D: 1½**. A tie joins the two notes into one sound: 1 + ½ = 1½ beats.
9. **B: 3/2**. The notes add up to 3 minim beats, so 3/2 fits.
10. **B: 2 minims**. 2/2 is simple: the 2 means a minim beat, and there are 2 of them.
11. **B: quaver rest**. A bar of 6/8 holds 2 dotted crotchet beats. The notes leave a gap of one quaver, so a quaver rest finishes it.
12. **B: 3**. A dotted crotchet lasts 1½ crotchet beats. A quaver lasts ½. 1½ ÷ ½ = 3.

Pitch and clefs

13. **B: Note 2**. The notes are F, G♯, E♯. Note 2 (G♯) is highest on the stave, and a sharp or flat only moves a note by a semitone, never past the next line or space.
14. **E♭**. The tonic of E♭ major is E♭, with a flat.
15. **C**. C. It's the landmark C: two ledger lines above.
16. **A**. A can go in more than one octave; any A was fine.
17. **E♯**. E♯. Landmark: C, two ledger lines below. This note is 2 steps above it: C, D, E. The sharp makes it E♯.
18. **E (bass clef, 5 steps below middle C)**. Note 4 of B melodic minor is E.
19. **B**. B. Landmark: C, two ledger lines above. This note is 1 step below it: C, B.
20. **F, A, G (bass clef)**. The notes are F, A, G, each moved down an octave.
21. **C (bass clef, 7 steps below middle C)**. Count 3 letter names up from A, counting both notes: A B C. The answer is C.
22. **B: C**. The sharp on note 2 only lasts until the bar line. Note 5 is in a new bar, so it's back to plain C.

Keys and scales

23. **C: A♭ major and F minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): A♭ major → F minor.
24. **7**. Note 7 should be G♯, not G. Melodic minor raises the 6th and 7th going up.
25. **B: C major**. No sharps or flats.
26. **5**. Note 5 should be C, not C♯. Major scales go tone, tone, semitone, tone, tone, tone, semitone.
27. **B: E♭ major**. The second-to-last flat is E♭, so E♭ major.
28. **A: Tone**. B♭ to C is 2 semitones, so it's a tone.

29. **B: D major**. The last sharp is C♯. One step up from it is D, so D major.
30. **3**. Note 3 should be C, not C♭. Major scales go tone, tone, semitone, tone, tone, tone, semitone.
31. **C: C minor**. The second-to-last flat is E♭, so E♭ major. Its relative minor, on degree 6, is C minor.
32. **A: Tone**. G to A is 2 semitones, so it's a tone.
33. **C: G minor**. The second-to-last flat is B♭, so B♭ major. Its relative minor, on degree 6, is G minor.
34. **7**. Note 7 should be B, not B♯. Harmonic minor raises the 7th.

Intervals

35. **B: perfect 4th**. Count the letters G A B C: that's a 4th. 5 semitones, so it's a perfect 4th.
36. **A: major 3rd**. Count the letters D E F: that's a 3rd. 4 semitones, so it's a major 3rd.
37. **B: perfect 4th**. Count the letters C D E F: that's a 4th. 5 semitones, so it's a perfect 4th.
38. **B: perfect 5th**. Count the letters F G A B C: that's a 5th. 7 semitones, so it's a perfect 5th.
39. **B: perfect 5th**. Count the letters C D E F G: that's a 5th. 7 semitones, so it's a perfect 5th.
40. **A: perfect 4th**. Count the letters A B C D: that's a 4th. 5 semitones, so it's a perfect 4th.
41. **C: minor 3rd**. Count the letters D E F: that's a 3rd. 3 semitones, so it's a minor 3rd.
42. **A: A♭**. Count 8 letters up from A♭ to get A. A perfect octave is 12 semitones, so it's A♭.
43. **D: major 6th**. Count the letters G A B C D E: that's a 6th. 9 semitones, so it's a major 6th.
44. **D: E♭**. Count 7 letters up from F to get E. A minor 7th is 10 semitones, so it's E♭.

Chords and cadences

45. **D: C♯–E–G♯**. Notes 1, 3 and 5 of C♯ minor: C♯–E–G♯.
46. **A: C major**. The bottom note is the tonic, C. With this key signature, that makes it the tonic triad of C major.
47. **C: F♯ minor**. Count up to note 6 of A major: F♯. Both keys share the same key signature.
48. **D: B–D–F♯**. Notes 1, 3 and 5 of B minor: B–D–F♯.
49. **A: F–A–C**. Notes 1, 3 and 5 of F major: F–A–C.
50. **A: B minor**. The bottom note is the tonic, B. With this key signature, that makes it the tonic triad of B minor.
51. **C: G major**. The relative major starts on note 3 of the minor scale: G major.
52. **C: D minor**. Count up to note 6 of F major: D. Both keys share the same key signature.
53. **D: A♭ major**. The relative major starts on note 3 of the minor scale: A♭ major.
54. **A: A♭–C–E♭**. Notes 1, 3 and 5 of A♭ major: A♭–C–E♭.

Terms, signs and instruments

55. **A: at the first speed**. tempo primo is Italian for "at the first speed".
56. **D: accent: play it strongly**. It means accent: play it strongly.
57. **B: tempo primo**. tempo primo is Italian for "at the first speed".
58. **B: f**. p means quiet and f means loud, so f is louder.
59. **D: with energy**. energico is Italian for "with energy".
60. **B: 8va (ottava)**. 8va (ottava) means play an octave higher than written.
61. **B: not**. non is Italian for "not".
62. **C: pause: hold the note longer**. It means pause: hold the note longer.

63. **B: legato**. legato is Italian for "smoothly".
64. **A: mp**. p means quiet and mp means moderately quiet, so mp is louder.
65. **C: suddenly**. subito is Italian for "suddenly".
66. **C: short and detached**. That's a staccato: short and detached.

Mark my answer

67. **B: No, it's lively, quick**. No: the answer is lively, quick. vivace is Italian for "lively, quick".
68. **D: No, it's E major**. No: the answer is E major. The last sharp is D♯. One step up from it is E, so E major.
69. **A: Yes, that's right**. Yes. Count up from C: C, D, E. So E is degree 3.
70. **D: No, it's detached**. No: the answer is detached. staccato is Italian for "detached".
71. **A: No, it's a tempo**. No: the answer is a tempo. a tempo is Italian for "back to the original speed".
72. **B: Yes, that's right**. Yes. semplice is Italian for "simply".
73. **A: No, it's a perfect octave**. No: the answer is perfect octave. Count the letters C D E F G A B C: that's an octave. 12 semitones, so it's a perfect octave.
74. **B: No, it's E melodic minor**. No: the answer is E melodic minor. It starts and ends on E. The 6th and 7th are raised going up, so it's melodic minor.

A. No, it's 2 B. Yes, that's right C. No, it's 4 D. No, it's 3

73. A duplet of quavers (marked 2) takes the time of how many ordinary quavers? Zoe answered "6". Is that right?

Duplet

A. No, it's 3 B. No, it's 5 C. Yes, that's right D. No, it's 4

74. Name this chord in A major. Aisha answered "V". Is that right?

A. No, it's IV B. Yes, that's right C. No, it's I

ANSWERS (FOR MUM)

Rhythm and time signatures

1. **C: 2**. Three quavers in a triplet take the time of two.
2. **C: After note 3**. A bar of 2/4 holds 2 crotchet beats. Notes 1 to 3 fill it exactly, so the bar line goes after note 3.
3. **A: semibreve**. Two minims last 4 beats, the same as a semibreve.
4. **D: 2/2**. The notes add up to 2 minim beats, so 2/2 fits.
5. **B: simple quadruple**. Each beat splits in two, so it's simple, with 4 beats: quadruple.
6. **A: Bar 1**. Each bar of 3/4 should hold 3 crotchet beats. Bar 1 has one beat too few.
7. **A: 2/4**. 6/8 has 2 dotted beats. Split in 2 instead of 3, they're plain crotchet beats: 2/4.
8. **D: 4**. A tie joins the two notes into one sound: 3 + 1 = 4 beats.
9. **B: 2/2**. The notes add up to 2 minim beats, so 2/2 fits.
10. **B: compound quadruple**. The top number divides by 3, so it's compound: 12 ÷ 3 = 4 beats, which is quadruple.
11. **C: 6/4**. The top number (how many beats) stays 6. Each quaver becomes a crotchet, so the bottom number changes from 8 to 4: 6/4.
12. **C: 2 crotchets**. 2/4 is simple: the 4 means a crotchet beat, and there are 2 of them.

Pitch and clefs

13. **A**. A. Landmark: C, two ledger lines below. This note is 2 steps below it: C, B, A.
14. **E (alto clef, 2 steps above middle C)**. Count 5 letter names up from A: the answer is E.
15. **C: Note 3**. The notes are C♯, C, B♭. Note 3 (B♭) is highest on the stave, and a sharp or flat only moves a note by a semitone, never past the next line or space.
16. **B (alto clef, 1 step below middle C)**. It's B, 1 step below middle C. In alto clef middle C is the middle line, so count from there.
17. **A♭**. A♭. It's the landmark A: the top line. The flat makes it A♭.
18. **C, E, D (alto clef)**. The notes are C, E, D, written at the same pitch.
19. **C: G♯**. The sharp on note 1 lasts for the rest of the bar, so note 3 is G♯ too.
20. **C, D, E, F (alto clef)**. Notes 5 to 8 of F major are C, D, E, F.
21. **B**. B. Landmark: C, the second space. This note is 1 step below it: C, B.
22. **A♯ (treble clef, 12 steps above middle C)**. Count 7 letter names up from B♯: the answer is A♯.

Keys and scales

23. **D: F minor**. The second-to-last flat is A♭, so A♭ major. Its relative minor, on degree 6, is F minor.
24. **C: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
25. **C: E major**. The last sharp is D♯. One step up from it is E, so E major.
26. **3**. Note 3 should be B, not B♯. Major scales go tone, tone, semitone, tone, tone, tone, semitone.
27. **A: G♯ minor**. 5 sharps: F♯ C♯ G♯ D♯ A♯. The last sharp is A♯; one step up is B major, and its relative minor is G♯ minor.
28. **D: C**. B♯ and C are enharmonic equivalents: the same key on the piano, written with a different letter name.

29. **B: D major**. The last sharp is C♯. One step up from it is D, so D major.
30. **5**. Note 5 should be G♯, not G. Harmonic minor raises the 7th.
31. **C: G major**. The last sharp is F♯. One step up from it is G, so G major.
32. **2**. Count up from F: F, G. So G is degree 2, the supertonic.
33. **D: 4 sharps**. C♯ minor has 4 sharps. It shares its key signature with its relative major, E major.
34. **A: D♭ major**. It starts and ends on D♭. It follows tone, tone, semitone, tone, tone, tone, semitone, so it's major.

Intervals

35. **B: minor 2nd**. Count the letters C D: that's a 2nd. 1 semitones, so it's a minor 2nd.
36. **A: major 6th**. Count the letters G A B C D E: that's a 6th. 9 semitones, so it's a major 6th.
37. **D: perfect 4th**. Count the letters D E F G: that's a 4th. 5 semitones, so it's a perfect 4th.
38. **B: major 6th**. Count the letters C D E F G A: that's a 6th. 9 semitones, so it's a major 6th.
39. **B: E♯**. Count 2 letters up from D to get E. An augmented 2nd is 3 semitones, so it's E♯.
40. **A: E♯**. Count 5 letters up from A♯ to get E. A perfect 5th is 7 semitones, so it's E♯.
41. **D: perfect 4th**. Count the letters E F G A: that's a 4th. 5 semitones, so it's a perfect 4th.
42. **A: diminished 4th**. Count the letters G A B C: that's a 4th. 4 semitones, so it's a diminished 4th.
43. **A: G**. Count 3 letters up from E to get G. A minor 3rd is 3 semitones, so it's G.
44. **D: F♯**. Count 8 letters up from F to get F. An augmented octave is 13 semitones, so it's F♯.

Chords and cadences

45. **D: E major**. The bottom note is the tonic, E. With this key signature, that makes it the tonic triad of E major.
46. **C: A♭ major**. The bottom note is the tonic, A♭. With this key signature, that makes it the tonic triad of A♭ major.
47. **B: G♯–B–D♯**. Notes 1, 3 and 5 of G♯ minor: G♯–B–D♯.
48. **B: F♯ minor**. Count up to note 6 of A major: F♯. Both keys share the same key signature.
49. **C: A–C♯–E**. Chord V is built on degree 5, the dominant: A–C♯–E.
50. **C: C♯ minor**. The bottom note is the tonic, C♯. With this key signature, that makes it the tonic triad of C♯ minor.
51. **C: G major**. The bottom note is the tonic, G. With this key signature, that makes it the tonic triad of G major.
52. **B: IV**. The notes are B♭–D♭–F, built on degree 4, so it's IV.
53. **C: B♭ major**. The bottom note is the tonic, B♭. With this key signature, that makes it the tonic triad of B♭ major.
54. **B: E**. The dominant is degree 5: E.

Terms, signs and instruments

55. **D: gradually getting slower**. rallentando (rall.) is Italian for "gradually getting slower".
56. **B: mp**. mp means moderately quiet and p means quiet, so mp is louder.
57. **D: tuba**. The tuba is the biggest brass instrument, so it plays the lowest notes.
58. **A: appassionato**. appassionato is Italian for "passionately".
59. **D: trill**. That sign is a trill.
60. **B: being struck**. The timpani makes its sound with being struck.

61. **D: mesto**. mesto is Italian for "sad".
62. **B: 8va (ottava)**. 8va (ottava) means play an octave higher than written.
63. **A: double bass**. The double bass is the biggest, so it's the lowest.
64. **C: mysteriously**. misterioso is Italian for "mysteriously".
65. **A: f**. f means loud and mp means moderately quiet, so f is louder.
66. **B: bass**. From high to low: soprano, alto, tenor, bass. Soprano and alto are usually women's and children's voices; tenor and bass are men's.

Mark my answer

67. **D: No, it's vite**. No: the answer is vite. vite is French for "quick".
68. **B: No, it's but not too much**. No: the answer is but not too much. ma non troppo is Italian for "but not too much".
69. **D: No, it's 3**. No: the answer is 3. A major has 3 sharps: F♯, C♯, G♯.
70. **A: No, it's 2**. No: the answer is 2. Three quavers in a triplet take the time of two.
71. **A: No, it's 5**. No: the answer is 5. A tie joins the two notes into one sound: 4 + 1 = 5 beats.
72. **B: Yes, that's right**. Yes. Count up from F: F, G, A, B♭, C. So C is degree 5, the dominant.
73. **A: No, it's 3**. No: the answer is 3. A duplet fits two quavers into the time of three, in compound time.
74. **A: No, it's IV**. No: the answer is IV. The notes are D–F♯–A, built on degree 4, so it's IV.

A. No, it's 6 B. No, it's 2 C. No, it's 7 D. Yes, that's right

ANSWERS (FOR MUM)

Rhythm and time signatures

1. **B: 5/8**. 5/8 can't be split into equal groups of 2 or 3, so it's irregular.
2. **A: 9/16**. 3 beats, each split into 3: that's compound time with 3 dotted quaver beats, 9/16.
3. **B: 2**. A breve lasts 8 crotchet beats. A semibreve lasts 4. 8 ÷ 4 = 2.
4. **D: 3/8**. 9/16 has 3 dotted beats. Split in 2 instead of 3, they're plain quaver beats: 3/8.
5. **D: 5**. A tie joins the two notes into one sound: 4 + 1 = 5 beats.
6. **A: Bar 1**. Each bar of 3/4 should hold 3 crotchet beats. Bar 1 has one beat too many.
7. **D: compound quadruple**. The top number divides by 3, so it's compound: 12 ÷ 3 = 4 beats, which is quadruple.
8. **B: semiquaver rest**. A bar of 4/4 holds 4 crotchet beats. The notes leave a gap of one semiquaver, so a semiquaver rest finishes it.
9. **A: simple triple**. Each beat splits in two, so it's simple, with 3 beats: triple.
10. **C: Bar 3**. Each bar of 4/4 should hold 4 crotchet beats. Bar 3 has one beat too many.
11. **A: 28**. A double-dotted minim lasts 3½ crotchet beats. A demisemiquaver lasts ⅛. 3½ ÷ ⅛ = 28. The second dot adds half of the first dot.
12. **B: grouped correctly**. 9/8 has dotted-crotchet beats, so the quavers go in groups of three. Pairs of quavers make it look like simple time.

Pitch and clefs

13. **B: treble clef note F4**. It's F, at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.
14. **C, D, E, F (treble clef)**. Notes 5 to 8 of F major are C, D, E, F.
15. **D♯**. D♯. Landmark: C, two ledger lines above. This note is 1 step above it: C, D. The sharp makes it D♯.
16. **E♭, G, F, A (treble clef)**. The clarinet in B♭ sounds a major 2nd lower: F, A, G, B sounds as E♭, G, F, A.
17. **C**. C. It's the landmark middle C: on its own little line above the stave.
18. **B, C♯, D♯, E (tenor clef)**. Notes 5 to 8 of E major are B, C♯, D♯, E.
19. **C: It is middle C**. In the alto clef, middle C is on the middle line. This note is C, exactly middle C.
20. **F (tenor clef, 4 steps below middle C)**. It's F, 4 steps below middle C. In tenor clef middle C is the 4th line, so count from there.
21. **D: treble clef note C4**. It's C (middle C), at exactly the same pitch. Watch out for the one an octave away: same letter, wrong place.
22. **F (alto clef, 4 steps below middle C)**. It's F, 4 steps below middle C. In alto clef middle C is the middle line, so count from there.

Keys and scales

23. **A: 5 sharps**. B major has 5 sharps.
24. **C: D harmonic minor**. It starts and ends on D. Only the 7th is raised, so it's harmonic minor.
25. **1**. E minor has 1 sharp: F♯.
26. **D: G melodic minor**. It starts and ends on G. The 6th and 7th are raised going up, so it's melodic minor.
27. **1**. G major has 1 sharp: F♯.

28. **B: only semitones**. A chromatic scale moves only in semitones, so every note is the very next key on the piano.
29. **D: E♭ major and C minor**. A major key and its relative minor share a key signature. The relative minor starts on degree 6 of the major scale (3 semitones below the tonic): E♭ major → C minor.
30. **7**. Count up from B: B, C♯, D♯, E, F♯, G♯, A♯. So A♯ is degree 7, the leading note.
31. **A: E♭ major**. The second-to-last flat is E♭, so E♭ major.
32. **4**. Count up from A: A, B, C♯, D. So D is degree 4, the subdominant.
33. **3**. F♯ minor has 3 sharps: F♯, C♯, G♯.
34. **6**. Note 6 should be B, not B♯. Major scales go tone, tone, semitone, tone, tone, tone, semitone.

Intervals

35. **B: diminished 3rd**. Count the letters D E F: that's a 3rd. 2 semitones, so it's a diminished 3rd.
36. **D: diminished 11th**. Count the letters D E F G A B C D …: that's an 11th. 16 semitones, so it's a diminished 11th. It's an octave plus a 4th, so it's also a compound diminished 4th.
37. **B: B♯**. Count 5 letters up from E to get B. An augmented 5th is 8 semitones, so it's B♯.
38. **B: diminished 7th**. Count the letters C D E F G A B: that's a 7th. 9 semitones, so it's a diminished 7th.
39. **C: major 9th**. Count the letters D E F G A B C D …: that's a 9th. 14 semitones, so it's a major 9th. It's an octave plus a 2nd, so it's also a compound major 2nd.
40. **C: major 3rd**. Count the letters G A B: that's a 3rd. 4 semitones, so it's a major 3rd.
41. **B: perfect 5th**. Count the letters E F G A B: that's a 5th. 7 semitones, so it's a perfect 5th.
42. **C: perfect 5th**. Count the letters G A B C D: that's a 5th. 7 semitones, so it's a perfect 5th.
43. **D: perfect octave**. Count the letters D E F G A B C D: that's an octave. 12 semitones, so it's a perfect octave.
44. **B: major 13th**. Count the letters C D E F G A B C …: that's a 13th. 21 semitones, so it's a major 13th. It's an octave plus a 6th, so it's also a compound major 6th.

Chords and cadences

45. **D: D minor**. The bottom note is the tonic, D. With this key signature, that makes it the tonic triad of D minor.
46. **B: V**. Chord X has the notes C–E–G (the bass is C), so it's chord V.
47. **C: G♭–B♭–D♭**. Notes 1, 3 and 5 of G♭ major: G♭–B♭–D♭.
48. **C: B–D–F**. Chord II is built on degree 2, the supertonic: B–D–F. In a minor key chord II is a diminished triad: two minor 3rds on top of each other.
49. **A: V–I**. The first note, D, is in chord V (D–F♯–A). The second, B, is in chord I (G–B–D). V–I makes a perfect cadence.
50. **A: B–D–F♯**. Chord II is built on degree 2, the supertonic: B–D–F♯.
51. **D: IVa**. Put the notes in 3rds: F♯–A–C♯. The root is F♯, degree 4, so it's chord IV. The lowest note, in the bass stave, is F♯: the root, so a.
52. **C: IVb**. Put the notes in 3rds: G–B–D. The root is G, degree 4, so it's chord IV. The lowest note, in the bass stave, is B: the 3rd, so b.
53. **A: Va**. Put the notes in 3rds: F–A–C. The root is F, degree 5, so it's chord V. The lowest note, in the bass stave, is F: the root, so a.
54. **C: plagal**. The chords are IV (C–E–G) then I (G–B–D). IV–I is plagal.

Terms, signs and instruments

55. **D: animato**. animato is Italian for "animated, lively".
56. **A: hold the note longer than written**. That's a pause: hold the note longer than written.
57. **B: strings**. The double bass is in the strings family.
58. **D: at a moderate speed**. mässig is German for "at a moderate speed".
59. **D: upper mordent**. That sign is a upper mordent.
60. **D: trombone**. The trombone changes notes by moving its slide.
61. **A: subito**. subito is Italian for "suddenly".
62. **C: the note, the note above, the note again, quickly**. That's an upper mordent: the note, the note above, the note again, quickly.
63. **C: a reed**. The flute has no reed: you blow across the hole.
64. **A: slow and stately**. largo is Italian for "slow and stately".
65. **B: turn**. That sign is a turn.
66. **A: buzzing lips**. The trombone makes its sound with buzzing lips.

Transposing

67. **D: A major**. The horn in F sounds a perfect 5th lower than written. A perfect 5th below E is A, so it sounds in A major (3 sharps).
68. **C (treble clef, 7 steps above middle C)**. The clarinet in A sounds a minor 3rd lower than it reads, so write it a minor 3rd higher: A goes up to C.
69. **D: E**. The clarinet in A sounds a minor 3rd lower than written. A minor 3rd below G is E.
70. **A: G♭ major**. The horn in F sounds a perfect 5th lower than written. A perfect 5th below D♭ is G♭, so it sounds in G♭ major (6 flats).
71. **C: C**. The trumpet in B♭ sounds a major 2nd lower than written. A major 2nd below D is C.
72. **D (treble clef, 8 steps above middle C)**. The clarinet in A sounds a minor 3rd lower than it reads, so write it a minor 3rd higher: B goes up to D.
73. **B: E♭**. The clarinet in B♭ sounds a major 2nd lower than written. A major 2nd below F is E♭.
74. **B (treble clef, 6 steps above middle C)**. The trumpet in B♭ sounds a major 2nd lower than it reads, so write it a major 2nd higher: A goes up to B.

Mark my answer

75. **C: Yes, that's right**. Yes. Note 5 should be D♭, not D. Major scales go tone, tone, semitone, tone, tone, tone, semitone.
76. **C: No, it's animated, lively**. No: the answer is animated, lively. animato is Italian for "animated, lively".
77. **C: No, it's a minor 14th**. No: the answer is minor 14th. Count the letters A B C D E F G A ...: that's a 14th. 22 semitones, so it's a minor 14th. It's an octave plus a 7th, so it's also a compound minor 7th.
78. **A: Yes, that's right**. Yes. allegretto is Italian for "fairly quick".
79. **C: No, it's rhythmically**. No: the answer is rhythmically. ritmico is Italian for "rhythmically".
80. **A: No, it's A♯**. No: the answer is A♯. B♭ and A♯ are enharmonic equivalents: the same key on the piano, written with a different letter name.
81. **B: No, it's C♯ harmonic minor**. No: the answer is C♯ harmonic minor. It starts and ends on C♯. Only the 7th is raised, so it's harmonic minor.
82. **D: Yes, that's right**. Yes. Note 3 should be A, not A♯. Harmonic minor raises the 7th.
